SEEK OPEN SEASON ON RUFFED GROUSE

Effort is being made by some of the sportsmen of the county to have an open season on ruffed grouse, these sportsmen asserting that the season should be opened each year for a few days in order that those people who like to hunt, and at the same time like to refrain from breaking the law, may be allowed the privilege of shooting grouse. It is pointed out that there are some people who are poaching the grouse, and that the sportsman who buy licenses should have a chance at the game birds.

The following letter has been received from C. H. England, of the Board of Conservation and Development:

Gentlemen:
I have your letter of September 7th and assure you I shall be glad to submit your request to the Board of Directors at its next meeting, which in all probability will be within the next week or ten days.

Personally, I agree with you that a season should be opened to shoot ruffed grouse in Transylvania county this open gunning season. I believe, too, that a period from November 15th to November 30th would be suitable and otherwise advisable.

Very truly yours,
C. H. ENGLAND.

Mrs. L. B. Haynes Selected Candidate Of United Dry Forces for Transylvania

Mrs. L. B. Haynes, an ardent dry and worker for retention of the 18th Amendment, was selected by the executive committee of the United Dry Forces in a meeting held in the court house Sunday afternoon as dry candidate to the state convention which will be held in Raleigh if and when the state convention for repeal is called.

Petitions are being circulated by officers of the United Dry Forces in order to obtain two per cent of the signatures of qualified voters of the county in order to make Mrs. Haynes eligible for filling with the county board of elections.

The nomination was made following a mass meeting held in the court house at which a number of speakers were heard in pleas for retention of the 18th amendment.

Bill Whitmire, mayor of Brevard years ago, and now a resident of Hendersonville, was a principal speaker of the meeting, he substituting for C. A. Upchurch of Raleigh, who was unable to attend the meeting as per schedule.

Captain Bil talked interestingly of the days when he was mayor of Brevard, and at which time there were saloons in the county. He described conditions here then as very bad due to the influence of the open saloon.

SAYS BOOKS HERE KEEP FOLKS AWAY

Transylvania county is losing a great deal of money that people from Florida would be glad to be able to spend here, says Capt. James L. Risk of Cocoa, Fla., and Brevard, if the school books of the two states were the same.

Captain Risk, who has a beautiful home near Brevard, says he would like to stay here at least a couple more months before going back to Florida for the winter, but due to the fact that there is such a vast difference in the type of books used in the North Carolina schools and those of Florida, he is forced to leave early in September of each year so that his children may get proper credits in the Florida school.

Florida, like North Carolina, Captain Risk says, is suffering from an overdose of text-book commission with the change every few years in the books used in the schools, and this is causing undue hardship on parents who are having a hard struggle to get necessary clothing and food for their children. It's a bad system, says Captain Risk.

SCOUTS HAVE FINE OUTING LAST WEEK

Troop No. 1 Brevard Boy Scouts went on an overnight camping trip Friday and Saturday. Nearly 25 boys and Scoutmaster J. A. Miller made the trip which everyone enjoyed. It is the first of a series of events planned to awaken interest in scouting.

The boys left Friday afternoon in Scoutmaster Miller's truck. They had an interesting trip through the upper end of the county to Bohoney where they spent the night. The boys set up their tents and cooked supper. After a hearty meal a game of chess was played in the dark, using flashlights. When it got too dark for this the boys gathered around the camp fire and played games until a late hour.

Next morning after breakfast had been cooked and the grounds cleared the boys went on a short hike to Whitewater Falls. It was only about four miles to the falls, so the Scouts were able to return to camp for dinner. The falls are very high and certainly live up to their name. After dinner the Scouts returned home in the truck. —Scout Reporter.

FIRE DESTROYS STACK OF HAY—MUCH SLUMBER

After all the usual and unusual excitement of Saturday night, the fire siren started its weird blast early Sunday morning, and of course, a great part of the Brevard population scurried uptown and behind the fire truck to the King Creek bridge near North Brevard, where a hay stack was burning brightly.

Members of the fire department, unable to save the feed, hastened the burning by punching the hay about, and all returned home, more or less disappointed because there was no fire.

Good Football Team Working Out At Brevard High--Regulars Are Lining Up

Football will be seen in Brevard this year regardless of the attitude some fans and a few players have taken, said Coach Ernest Tilson Wednesday afternoon, and to prove his assertion he pointed to the next looking squad of 25 or more boys out there whamming away at the pigskin like regulars of several years' play to their credit.

Some new material will have to be used, of course, the coach said, because of the ruling which was put into effect at the beginning of the season by school officials which eliminated players who did not pass three subjects last year, but this is not worrying Tilson as bad as one would believe it does, according to the trend of talk on the streets.

"I have some of my best players back from last year," Coach Tilson said, "and look out there at those new boys, second stringers last year, and a couple of them pretty green, but they suit me just fine. We'll play if we have most of our last year boys back, and we'll play if we don't. Those boys are plenty good for their size, and I'm not afraid to tack's my schedule."

The coach said that his boys would be on the field in uniform this week, with possibly one or two exceptions, but coaching the squad who failed to qualify. They had had some work
