

# Tonsil Clinic To Be Held Here for Children In June

(Health Department)

Diseased tonsils and adenoids indicate that the health of your child may be impaired. This condition frequently retards its mental and physical development, causes repeated colds, deafness, etc. and, by the absorption of poisons into the blood, may cause rheumatism and heart diseases.

If it was found during the school examination of your child that its tonsils and adenoids were diseased we recommend that you see your family physician and have him advise you concerning treatment.

The Health Department will conduct a clinic in Transylvania County on the 21st, 22nd and 23rd of June for the purpose of removing tonsils and adenoids in school children from homes where the parents are financially unable to secure this service in the usual way. The Health Department will

secure the services of Dr. W. E. Brackett of Hendersonville, a specialist in diseases of the eye, ear, nose and throat, to operate the clinic and he will be assisted by the Health Department physicians and nurses. A charge of \$7.50 will be collected from each case to apply to the expenses of the operation. If you are interested in having your child's tonsils and adenoids removed at this clinic you will please get in touch with the County Health Department, Brevard, at once and, if it is felt that your economic standing shows that you deserve the advantages of this clinic, you will be notified when and where to bring the child to the clinic and what preparations to make for the operation.

The Public Health Nurse will be at the following places on the dates given below in order to make necessary arrangements for those desiring to take advantage of the clinic.

Lake Toxaway School, Monday morning, May 23, 9:30 to 11:30 a. m.  
 Silverstein School, Monday afternoon, May 23, 1:00 to 3:00 p. m.  
 Balsam Grove School, Wednesday, May 25, 9:30 to 11:30 a. m.  
 Rosman School, Friday May 27, 9:00 to 11:30 a. m.

It is requested that you make the necessary arrangements to attend the clinic at your earliest convenience in order that the Health Department may know the number of children to prepare for. It will be impossible to make arrangements later than June 14th.

## Uncle Jimmy Holden Buried May Eleventh

Funeral services were held May 11 for James Holden, 71, of Selma, who died the day previous. The Rev. Tilden Reece had charge of the services which were held at Dunns Rock church, with burial in the cemetery nearby.

"Uncle Jimmy," as he was known by many of the people of this county, had been in poor health for some time, and his death was not expected.

He leaves a number of children and grandchildren in this county and South Carolina. Osborne-Simpson had charge of the funeral arrangements.

## To Speak Friday

R. LEE WHITMIRE, will open his campaign for Congress in Transylvania county at Rosman on Friday night of this week when he speaks at Rosman high school.

Mr. Whitmire, who was born and reared in Transylvania, is now a practicing attorney at Hendersonville, is seeking the nomination on the Democratic ticket for Congress.

This will be the first scheduled political speech of the primary, and it is expected that eight o'clock will see a full house at Rosman Friday night.

## Chicken Supper For Public Thursday Eve

A chicken supper will be held in the basement of the Methodist church Thursday evening of this week, beginning at 6:30 o'clock and continuing until 8:30. A nominal sum is charged for supper tickets.

The following menu will be served: Chicken pie, candied sweet potatoes, fresh green beans, steamed rice, hot rolls, congealed fruit salad, ice cream, cup cakes and hot coffee.

## Respected Toxaway Lady Buried Sunday In Home Community

LAKE TOXAWAY — Mrs. Mark Whitmire, usually spoken of as "Aunt Did," had been in ill health for some time. Last Saturday morning Mrs. Gladys Franklin, an adopted daughter of Mark Whitmire, took her to the doctor at Rosman, getting back home about eight o'clock. On reaching home, Mrs. Whitmire, apparently feeling better, lay down on the bed "to rest awhile." "Uncle Mark" as he is familiarly called, went out of the house to attend to some chores and when he returned he found that "Aunt Did" had departed this life for that eternal rest in the beyond. The body was taken at 2 o'clock Sunday afternoon to Middle Fork church, of which "Aunt Did" was a member, from which the funeral services were conducted.

The funeral services were conducted by Rev. M. E. Summey, assisted by Rev. N. H. Chapman. The large congregation present, double the capacity of the church house, gave evidence of the high esteem in which "Aunt Did" was held by all who knew her.

After the funeral services, the body was taken to the cemetery in Old Toxaway and interred by the side of her first husband, Mr. Aiken.

"Aunt Did" had seventeen children by her first husband, eleven of whom are now living. They are Coleman Aiken, Gus Aiken, Pierce and John Aiken, all living in Transylvania county. Mrs. Lethie Ann Patterson of East Fork, Mrs. Charlotte Chapman of Brevard, Mrs. Anner Aiken of Greenville, S. C., Mrs. Essie Powell of Middle Fork, Mrs. Levia Aiken of Middle Fork, Mrs. Elsie Gilstrap of Liberty, S. C., Mrs. Delphia Kinsey of Norton, N. C.

Besides the above named children, Mrs. Whitmire is survived by her husband, Mark Whitmire, and two sisters and one brother, Mrs. Harmond Morgan of Old Toxaway, Mrs. Nan Chappel of South Carolina and Mack Powell of Rosman. She is also survived by over 80 grandchildren and more than thirty great-grandchildren.

The pallbearers were Lewis Spearman, Ransom Franklin, D. H. Parsons, R. K. Powell, G. D. Shuford and F. L. McCall. The flower girls were Viola Morgan, Frances Chapman, Nellie Kinsey, Dorothy Spearman, Pauline Spearman, Christine Galloway, Azilee Patterson and Mrs. Harley Fisher.

Mrs. Whitmire was noted for her plain, friendly, unassuming disposition. She will be missed from the community, from the home and from the church; but all realize that the community's loss is her gain. She has just lain down "to rest awhile."

## Honey Crop Depends On Care of Workers

(By W. C. Maness, Asst. Co. Agt.)  
 Now is the time of year to watch our bees closely if we want to get a large honey crop. The honey flow is now on and it is up to us to give the bees a chance to store up honey.

There are two or three things of importance for best results. First, we should have our bees in patent or modern hives with good comb foundation. Second, the bees should be strong. It may be that the bees are weak and if so a new mated queen introduced might be all that is needed. The third thing which is important is to give the bees plenty of space as this helps to prevent swarming and encourages greater honey production. Supers with comb foundation should be kept on hand to place on the hive when needed.

C. L. Sams, extension college bee specialist, will be at the county agents office at 9 o'clock Thursday morning, and will be glad to talk with any farmers interested in bee culture. Several apiaries will also be inspected during the day.

# Here-There Over the County

(J. A. Glazener, County Agent)

W. D. Deaver's winter hay demonstration is attracting the attention of many folks in the Davidson River and Glade Creek sections. Mr. Deaver has thirty-two big shocks of fine quality hay on his acre demonstration. Many who have seen it estimate that each shock will cure out 200 pounds of hay which would give him a yield of over three tons per acre.

Mr. Deaver prepared this acre well last fall, fertilized it using a mixture of lime and phosphate at the rate of about 600 pounds per acre. He seeded a mixture of 2 bushels of wheat, one bushel of barley and 25 pounds of vetch, using a grain drill to distribute the fertilizer and sow the seed.

Mr. Deaver will follow the winter hay crop with soybeans for hay, seeding them at the rate of 2 bushels per acre and will use about 600 pounds of basic slag. He should get at least two tons of soybean hay from this same acre. Following the soybeans he plans to sow it to a winter cover crop of vetch and rye or crimson clover and during the winter Mr. Deaver plans to broadcast ten tons of stable manure, all of which will be turned next spring and the ground planted to row crops either corn or vegetables.

# Find A Footing

VONNO L. GUDGER, Republican nominee for Congress, advocates buying mountain land for homes. His article below is very timely.

My admonition to you, you my own folks of the mountains of the West, is to take the first dollars you can save and go buy you a little place somewhere, near to some mountain town of course, if you can get it, the price is cheap now. Taxes will not always eat us up; some day we will not only get the \$1,000.00, the whole of it, home owner, occupied exemption you voted for in 1938, but more.

Let's all get back again on the land; me the first, I love it so. But it may be that running around, I can help us all, we will know some day, maybe in the fall.

Anyway, please let me point out that the "Holy Bible" in the very beginning says: Genesis, Chapter 1, Verse 1 "In the beginning God created the heaven and the earth."

Read the rest of the chapter and you will see, God then created cattle, fish and fowl and all; afterwards man; and in same chapter gave man, you and me, dominion over them all.

Then read the whole chapter and see how many times earth is used, and may I point out that earth is next to Heaven in all creation.

Get on the ground is my craving, and again let me recommend it to all of you. Sorry departure from it has been my way. If I had made my bread by "the sweat of my brow" up to now, my physical form would not so much be in a how.

Anyway, let's use our hearts, muscles and brawn; our minds will rest then, till break of dawn.  
 Vonno L. Gudger.

## Two Major Disasters Recorded This Week

Two major disasters of the week, bringing death to many and destruction of valuable property, formed headline front page news in the daily press throughout the country.

The Atlanta hotel fire, which occurred early Monday morning, resulted in the death toll of 33 persons trapped in the big five-story Terminal hotel and total destruction of the building. The origin of the fire is as yet undetermined, though the theory has been expressed by officials that a short circuit or defective mechanism in the exhaust fan of the hotel restaurant kitchen may have started the fire.

The second tragical disaster of the week was the Lockheed transport plane, missing since Monday, which was

found Wednesday near Saugus, Calif., with the nine on board all dead and the plane demolished and burned. The plane was a new twin-motored Lockheed, which left Los Angeles Monday afternoon for St. Paul, Minn., to be delivered to its purchaser, the Northwest Airlines company. The passengers were mainly officials of the aircraft company, and members of their families. Investigators had not reached the scene of the accident Wednesday afternoon, but it is thought that cause of the tragedy was due to thick fog and poor visibility in that vicinity of the mountains.

## Message

from

Congressman

ZEB WEAVER

## To My Friends In Transylvania

Due to the severe and critical illness of my wife, I fear that it will be impossible for me to call on my friends in Transylvania County during the Primary Campaign, and trust that this message through the County Paper will explain my failure to do so.

I feel that the good people of Transylvania County know me well enough to know that I have their interests at heart, and that I always stand ready and willing to serve them to the very utmost as their Representative in Congress.

I am counting on my friends in the Democratic party of Transylvania to join with those of the other counties in the Eleventh District to come to my aid at this time, and for your trust in me I shall return faithful performance as your Congressman.

Respectfully,

Zebulon V. Weaver
