COURT ADJOURNS TO MONDAY MORNING

Many Criminal Cases Heard-Instanter Processes Ordered By Judge

Criminal term Superior court adjourned Wednesday afternoon, and the civil docket will be taken up Monday morning. All civil cases set for this week were continued until next week.

Judge J. Will Pless is presiding at the term, and has literally "shoved with the criminal cases-not hurrying, but keeping the court moving evenly and smoothly.

The solicitor, Clarence Ridings, kept a number of bills ready for the grand jury which completed its work Tuesday afternoon. Another factor in the smooth working of the term was the minute book work done by Miss Lassle Kelly, as court stenographer, and Mrs. N. A. Miller, deputy clerk.

Only one capital case was on the docket-state against Floyd Youngblood of Fletcher, charged with the death of Clifford Gravely of Brevard, in an auto-truck crash here a few weeks ago. The grand jury returned a "no true bill" against Youngblood Tuesday and he was released by the court. He was

being held under \$2,000 bond. Two divorce cases were heard Wednesday afternoon, after the regular jurors had been dismissed, and the judge told the several men who served, including attorneys, and others that they were serving without pay, so there would be no argument.

Mrs. Bonnie Kilpatrick was given divorce from Vannoy Kilpatrick on grounds of two years separation; also Mrs. Leona Gray Hollifield versus Verney Hollifield, on the same grounds. Several cases of interest are to be

taken up in the civil term, beginning List of jurors who are to serve the second week are:

Clarence Whitmire, E. L. Hamilton, J. A. Allison, F. Brown Carr, J. P. Mc-Cloud, Bert Alexander, H. H. Brown, Floyd Orr, Kenneth McCall, Fate Raxter, Boyce Bishop, J. B. Rogers, Robert Wilson, Seldon Jones, E. A. Reid, Lewis Tinsley, W. P. Allison, A. B. Riley.

Large Saving On Interest and Past Due Coupons Will Be Effected

Bond order is being published in this ssue of The Times by the town of Brevard, which is final step in completing the refinance program which has been worked out by City Attorney Ralph Ramsey and the town officials.

Under the plan. \$521,000 in new bonds will be issued to refinance the principal bonded indebtedness of the town which is outstanding and past due, and \$28,000 to refund interest coupons on E. C. Hedden Rites the bonds.

The \$28,000 represents only onefourth of the total amount of past due interest, which was basis agreed upon by the bondholders and the town in settlement for the unpaid coupons and interest, thus effecting a saving of nearly \$85,000.

New bonds to be issued for the amounts now outstanding will carry a much lower rate of interest, and will effect a total saving to the town of approximately \$370,000 in interest charges over the period of years.

Under the plan put through by the town officials, rate of interest for the first two years is 1 percent; 1938 to 1940, 1 1-4 per cent; 1940 to 1943, 1 1-2 1946 to 1956, 2 1-2 per cent; 1956 to rison and Miss Lucy Hedden, of Webbusy. meeting of the Brevard board of aldermen in meeting Monday night, with C. F. Misenheimer named as supervisor in charge.

Under plans of the new department, all activities in the water department will be under Supervisor Misenheimer, who will be charged each month with total amount of water payments due, and it will be his duty to see that such water charges are paid, or that ser-vice has been discontinued to patrons who refuse to pay. Mr. Misenhelmer will begin his services August 1st.

It was pointed out at the meeting that there is a large group of water users who have not been paying their rent, and further, that in many instances it has been found that new water taps and extra uses have been put on the town's system without the patrons mentioning this fact to the water department.

It will also be duty of the water supervisor to inspect properties and see that proper precautions are used to minimize the waste of water, and to see that the water ordinance in general is complied with.

Preliminary work looking toward es-tablishment of the proposed water department has been done by members of the town police force and other employes, and the reports made at the Monday night meeting showed that extra income in the amount of better than two thousand dollars could be expected from the new setup.
