

# 11 INCHES RAINFALL DURING 6 DAY PERIOD

### All Eastern America Reports Floods—West Coast Is Facing Drouth

Brevard had its share of rainfall last week—plus.

From Monday morning through Saturday afternoon a total of 11.25 inches of rainfall was recorded by Phillip Price, official observer for the United States Geological survey.

Monday's total was 1.50; Tuesday 2.00; Wednesday 1.30; Thursday 3.55; Friday 1.60; and Saturday 1.30. Total average rainfall for the year is 64 inches, which makes the six-day total last week one-sixth of the average total for the year.

The French Broad river and its tributary streams were out of banks on several occasions, although no serious damage was reported. Friday morning was high for the immediate Brevard section.

Reports from the entire eastern United States are to the effect that flood waters had done millions of dollars in damage.

While the eastern sections were suffering from too much rain, the Pacific coast reported near-drouth, and forest fires doing much damage.

During general knowledge contests in Dublin, Ireland, the judges were surprised to learn that Irish history was little known to Irishmen.

## World War Had Its Start 24 Years Ago

Twenty-eight years ago today, July 28, 1914, the greatest conflict of all times had its start when the Austrians declared war on Serbia.

Another, and another nation joined in the death-dealing fracas until America was drawn into the conflict in 1917, three years after the European nations started tearing at each others throats.

Thousands of America's young men were sent overseas to enter the war, many of them never to return; others to come home blind, crippled, and maimed for life; other hundreds died in training camps.

## Grand Jury Report

To the Judge of the Superior Court, Hon. J. Will Pless, presiding:

We, the members of the Grand Jury, having completed our labors, submit the following report:

We wish to commend your Honor for a most able charge delivered in a clear and concise manner, and to extend our thanks for same. We also wish to thank the Solicitor and other officials for their most valued assistance.

We have acted on all bills presented to us by the Solicitor with the exception of those that were continued for evidence.

By committees, we have examined the Courthouse, Jail, County Home, and State Prison Camp.

COUNTY HOME: Main building in good condition with the following exceptions: there are four leaks in roof of main part of building and one on back porch roof. Window frames need painting and all other woodwork of lower story as well. Building is well kept, inmates well clad, well fed and satisfied with conditions. All other buildings and grounds in good condition. Crops look very promising, livestock in good condition and there is every evidence of excellent supervision.

PRISON CAMP: In good condition in every way and well cared for with possible exception that Towers should be painted.

COURT HOUSE: There is a leak from rest room in Grand Jury room into Register of Deeds' office. Spigot in Welfare Office in bad condition and needs replacing. Men's rest room in terrible condition and same is an absolute disgrace to our County. Outside door in north end of Court House corridor will not work and one glass is out of the door in east wing of corridor. Offices are all in good condition and well kept and all records seem to be in order. It is recommended, however, that all administrators, executors and guardians who have not filed reports as required by law, be instructed to do so before the next term of Superior Court.

JAIL: Is well kept and in good condition with the following exceptions: there are two broken panes of glass, one in basement window, and other in the upstairs back cell. Gutters are leaking and should be replaced at once. Commodes downstairs do not flush and drain properly and it is recommended that a capable plumber be employed to put them in good order without delay. It is further recommended that a strong wire mesh be installed on all windows. We are informed that same recommendation has been made heretofore without result and we urge that this be done at once.

Respectfully submitted, H. H. PATTON, Foreman. Brevard, N. C., July 26, 1938.

### Card of Thanks

We wish to thank our many friends for the kindness and sympathy shown us during the illness and at the death of our daughter, and for the beautiful floral offerings.

Mr. and Mrs. J. R. English and family.

### ADMINISTRATOR'S NOTICE

Having qualified as Administrator of the Estate of Clifford H. Gravely, deceased, late of Transylvania County, North Carolina, this is to notify all persons having claims against the Estate of said deceased to exhibit them to the undersigned at Brevard, North Carolina, on or before the 11th day of July, 1939, or this notice will be pleaded in bar of their recovery. All persons indebted to said Estate will please make immediate payment.

This the 11th day of July, 1938. DEWEY GRAVELY, Administrator of Estate of Clifford H. Gravely.

July 14-6t.

### QUEBEC NEWS

Mrs. J. H. Reid is not at all well this week. She has been in failing health for some time.

Mr. and Mrs. James Henderson had as guests last Saturday evening, Louie Miller, Charles Reid, and Mr. and Mrs. Gus Bagwell. They had a pleasant evening listening to radio programs, and eating delicious homemade ice cream and watermelon.

Mr. and Mrs. Lambert Bagwell and Mark Bagwell of Brevard visited Mr. and Mrs. A. R. Bagwell last Sunday.

Prof. Looney McCall and his son, Vance, of LaGrange, N. C., spent last week here with Mr. and Mrs. T. C. McCall. Other members of his family are spending sometime at Carolina Beach.

Miss Bailey and Mrs. Davenport, sisters of Mrs. W. D. Black, are spending awhile here with Mrs. Black, who is here making some repairs on her summer cottages.

Mr. and Mrs. A. D. Fryer and children, Alton, Jr., and Joyce, of Savannah, Ga., are spending a week here in one of Mrs. Black's cottages.

Mrs. R. T. Fisher spent Sunday with Mrs. John Robinson.

The citizens of this community are delighted with the fine fair weather we are having this week. Last week they considered somewhat gloomy, it being a week of continuous rain. But rain and sun are both essential to life, and we should all remember the statement, that

"If all were rain and never sun, No bow would span the hill; If all were sun and never rain, There'd be no rainbow still."

And we should adopt the sentiment expressed by James Whitcomb Riley when he said,

"It ain't no use to grumble and complain, It's just as cheap and easy to rejoice; When God sorts out the weather and sends rain, Why, rain's my choice."
