The Climax Barber Shop,

GENERAL NEWS.

A special coffin had to be provided to accommodate the body of W. M. Thomas, of Selma, Ala., who died at the Charity hospital in New Orleans Friday. Thomas weighed more than 500 pounds and it required the combined strength of five hospital attendants to carry the body to the hearse.

Charles Crisp, son of former Speaker Crisp, of the National House of Representatives, Friday received a telegram from Champ Clark, speaker-to-be of the House, offering him the place of House parliamentarian and clerk to the Speaker. Judge Crisp immediately accepted the appointment and was instructed to report in Washington on March 21, for duty.

With his wrist tied to the tail of a wild horse, the body of a Papago Indian was found Friday by a detachment of the First United States cavalry at the edge of the Gila river, near Mesa, Ariz. In order to secure the body it was necessary to shoot the horse. It is believed the young Indian had been condemned to die in this manner because of having violated some law of the tribe.

The Princeton committee, which is raising a fund to provide a Cleveland memorial to be used as a part of the new university buildings, now has \$95,500 in its hands. Only \$4,500 is needed to complete the \$100,000 fund by March 18, the 74th anniversary of Mr. Cleveland's birth. The greater part of the money thus far subscribed has been in \$5, \$10 and \$20 subscriptions.

Tuskegee Institute of Tuskegee, Ala., will eventually benefit to the extent of several thousand dollars by the will of Emmet Densmore, a millionaire manufacturer of New York, filed last week, in the surrogate office. To the institute is directed to be given, after various life estates created by the will have lapsed, all the testator's property or as much as the law will allow to be given for such purposes. The estimate is very large.

With the view of finding for Norfolk an inexhaustible water supply from the Chowan river in the State of North Carolina, that city through her municipal finance committee has secured from North Carolina State Corporation Commission a charter for the "Norfolk-Carolina Water Supply Company," which is empowered to obtain water from the rivers and streams in North Carolina and furnish the same not only to Norfolk but to any other city in this or any other state.

Makers of butter who "accidentally" work more water into their product than the law allows, will after May 1 encounter the strong arm of the law. Commissioner Cabell of the internal revenue bureau with the approval of Secretary MacVeagh, having instructed all his internal revenue collectors to watch for such violations. Water weighs heavily in a pound of butter, but the law allows 16 per cent. For several years the Department of Agriculture has superintended the packing of hundreds of thousands of pounds of butter for the navy, where not more than 13 per cent moisture is allowed. Commissioner Cabell says that is sufficient that the law can be obeyed without difficulty.

Powder magazines of the Du Pont Nemours Powder Company, containing hundreds of tons of black powder and dynamite, exploded at the plant of the company 1 mile northwest of Pleasant Prairie, Wis.; last week. E. S. Thompson, foreman, is known to be dead. Miss Alice Fitch of Elgin, Ill., dropped dead of heart disease, caused by fright, 50 people were injured; several hundred houses in the place were blown completely down or were so badly damaged as to be uninhabitable and buildings ten miles away were badly wrecked. The magazine contained 8,000 kegs of giant powder, finished, 25,000 kegs giant powder unfinished 150 tons finished dynamite and 130 tons of dynamite in process of manufacture. All these went up in the explosion.

"So little does the present generation know of the good old times that a Chicago cartoonist, in the innocence of his heart, has made a picture of a grandmother with her knitting, finishing a stocking at the top of the leg, instead of "toeing it off," as every real grandmother used to do."—Onward.

FROM OUR EXCHANGES

Cleveland Star: Congressman E. Y. Webb has accepted an invitation to deliver the alumni address at the commencement exercises of Wake Forest College, May 18. Mr. Webb is a graduate of this institution of the class of 1898.

The Highlander: J. M. Putnam, who lives in No. Three township, is a progressive farmer who raises pigs and cattle for sale. He sold in one day \$50 worth of pigs. Sold also this winter two head of registered young Jersey cattle for \$100 also two smaller ones for \$65. On four acres of pea stubble he scattered 22 loads of stable manure and this wheat crop looks promising.

Lincoln Times: Chas. Seagle, son of D. P. Seagle, was badly kicked by a mule at a saw mill up near the Cleveland line Monday evening about three o'clock. The mule was hooked up to the log wagon crooked. Charlie went to straighten the traces. As he stooped over, the mule kicked with both feet, knocking out his front teeth above and below, and breaking his jaw bone in two or three places.

Rutherfordton Sun: Wednesday night of last week Miss Annie Abrams, of Sandy Plains, Polk county, died quite suddenly at the home of Mrs. M. A. Camp, in the same county. Miss Abrams was visiting Mrs. Camp at the time. She retired, seemingly, as well as usual on Wednesday night, Thursday morning Mrs. Camp called Miss Abrams to breakfast, and getting no response to her call, Mrs. Camp went to her room and found her dead in bed. Miss Abrams was about 75 years of age and was a most estimable christian lady.

Charlotte Observer: Drs. R. L. Gibbon, William Allen, George W. Pressly, J. R. Irwin, I. W. Faison and J. E. S. Davidson spent Thursday in Rutherfordton attending the dedicatory exercises of the new Rutherfordton hospital, founded by Drs. Norris and Biggs. Dr. Joseph Price of New York, one of the foremost surgeons of the North, gave a clinic and lectured before the thirty-five doctors present. The lunch served was a delicious one. The Rutherfordton hospital is one of the best arranged and most scientifically equipped to be found in the State.

Charlotte Observer: They had a rat-killing time down on North College street yesterday afternoon when the rear end of the old stable occupied by J. C. Cochran & Bro., was torn down preparatory to the erection of a larger and more commodious building for the same tenants. As the brick were taken down the rats became rattled and began to move out and to hunt for more comfortable quarters. Young boys and some older ones, too, organized a crusading band and succeeded in killing 350 rodents of various and sundry sizes.

Lexington Dispatch: Sunday there passed through the city enroute for New York a solid train load of eggs and poultry. They came from Asheville and adjoining points and all were fresh. There was nothing in the lot resurrected from the vaults of cold storage houses. In the train load were 100 loads of eggs; four cars of live poultry and four cars of dressed poultry, making 32 cars loaded with poultry and poultry products. This shows something of the enormous proportions to which the poultry business has grown in North Carolina and it is a fact that the industry in this part of the nation is barely in its infancy.

Pittsboro is 130 years old and Saturday the town made its first steps towards improvements. At a bond election held \$5,000 was voted for street improvement, the vote being 31 for and 2 against.

NO MORE GREASY DOUGHNUTS. A lady in Greenville, S. C., recently wrote a friend as follows: "For years, after preparing doughnuts with the utmost care, I was disappointed to see them come out greasy and unwholesome looking. However, with my first use of Cottolene for frying them, I was delighted, as they were brown, crisp and delicious. Now making doughnuts, pastry, light bread and flaky biscuits, I prefer Cottolene to any other shortening on the market. We even carry a 25 lb. tin on our annual camping trips through the mountains."

Cottolene is made by The N. K. Fairbank Company, and is much more wholesome and economical than lard. It is sold by all good grocers.

YOUR ROOF

will be secure against sun, rain, snow, fire and lightning if it is covered with NEW CENTURY METAL SHINGLES. These shingles make a thoroughly dependable, trouble-proof roof that will last as long as the rest of the house. Their fire-proof qualities mean a perpetual saving on insurance.

Free—Let us send you our illustrated Shingle Book No. 25. Also special reports from people in your own SECTION who are using NEW CENTURY METAL SHINGLES.

OUR METAL CEILINGS add far more to the value of a building than they cost. They are beautiful, durable and sanitary. Write for full particulars and prices.

OUR CAHILL GRATES are great coal savers and heat producers. Made in plain black and plated finishes. Sold by progressive dealers everywhere. If your dealer can't show you Cahill Grates, send us his name. We manufacture all kinds of Sheet Metal Building Material; also Architectural Cast and Wrought Iron Work. Write for prices.

RICHMOND, VIRGINIA.

That am Going Some.

During the past two weeks we have sold 28 bushels of Onion Sets, but we wonder when people find out we are selling them for half price they are eager to take advantage of such opportunities. They are now going some at 85 cts per gallon, 45 cents a peck, 75 cents for one half bushel, \$1.45 per bushel, \$2.75 for 2 bushels bag. These prices are wholesale and special to the farmers of Henderson and adjoining counties. But you had better get out now or they may be gone. As they are going some, get these prices. Garden seeds, rock and cabbage plants. A high class of all kinds of seed.
