Your Farm Needs this Outfit

The combination of a Sterling thresher with an I H C gasoline engine, both mounted on one truck, is one of the biggest expense-reducing and labor-saving combinations ever brought to your attention. With this outfit, you can do your threshing practically alone, so little help is required. You can also do small jobs for your neighbors and in this way pay for the outfit. When threshing is over, you can dismount the thresher and mount a saw in its place. Or, you can belt the 4 or 6-horse power engine to a pump, corn sheller, grinder, etc., in fact, use the engine for a large variety of purposes.

The Sterling thresher is so practical and easy to handle that a boy can attend to all duties connected with the threshing operation.

IT WILL THRESH

Wheat, Rye, Oats, Barley, Buckwheat, Kaffir Corn, Sorghum, Flax, Grass Seed, Beans, Cowpeas, Soy Beans and Peanuts.

The Sterling is built with the following sizes of cylinder and separator respectively: 21 x 28", 21 x 33", 26 x 33" and 30 x 37". It is supplied unmounted; mounted on an individual truck, except 21 x 28" and 21 x 33"; or mounted on a combination engine-thresher truck, except 26 x 33" and 30 x 37" sizes. Get a special Sterling thresher catalogue for full particulars.

I Asked a

College Professor

"Is it not a fact that most college professors are one-sided individuals, developed along their particular line only?"

After hesitation, he replied, "Unfortunately, your question is largely true. Any man who makes a specialty of one thing runs that risk, as I have found from personal experience. In my case and in that of several of my colleagues, however, we have found that, through ownership of the Kimball Acmelodic Player Piano we have been able to develop one of the most essential of our otherwise dormant faculties—the musical, or emotional, side.

"I consider music the greatest of all arts and one of the most broadening influences, etc., etc."

The Kimball Acmelodic Player Piano has the essentials necessary to reproduce hand-played music.

This instrument plays the full scale, 88 notes—plays Kimball or any 88-note roll—full, round, rich, mellow tone—selected materials, best workmanship, roll-guiding device, Acmelodic soloist, ten exclusive improvements, music roll library privileges.

We will take your "never-played" piano in part payment.

I Asked a

Conductor

"Why is it that ninety-five per cent of your brother conductors have gray hair, notwithstanding the fact that a large proportion of them are young men?"

"I presume you expect me to say years of service and responsibility," he replied. "Foolish questions, however, and trying to be a living encyclopedia, are the real reasons."

"At first I didn't mind, but a few weeks became months and months years, the foolish questions became a heavy load, especially after my transfer to a celebrated scenic run."

"My hair surely would be white by this time if it hadn't been for my wife. One night, upon my return home, I was greeted by the sound of a beautiful waltz, and for a moment I was dumfounded. When I entered the parlor, however, the mystery was explained, for my wife was playing the new Kimball Acmelodic Player Piano.

"Now the click of the wheels merges into a Sousa March or the fascinating swing of a popular song and foolish questions are forgotten."

The Kimball Acmelodic Player Piano has the essentials necessary to reproduce hand-played music.

This instrument plays the full scale, 88 notes—plays Kimball or any 88-note roll—full, round, rich, mellow tone, selected materials, best workmanship, roll-guiding device, Acmelodic soloist, ten exclusive improvements, music roll library privileges.
