### For the Grand Carload Lot Sale

We doubt if the women of this community will ever again be offered terms to equal those we are going to make during the Carload Lot Sale of "Red Star" Detroit Vapor Oil Stoves.

This great sale is to be conducted in co-operation with the "Red Star" factory and is made possible only because of our Carload purchase.

When the Carload Lot is gone, "Red Star" stoves go back to normal selling conditions. Decide now, to be at our store the first day of the Sale.

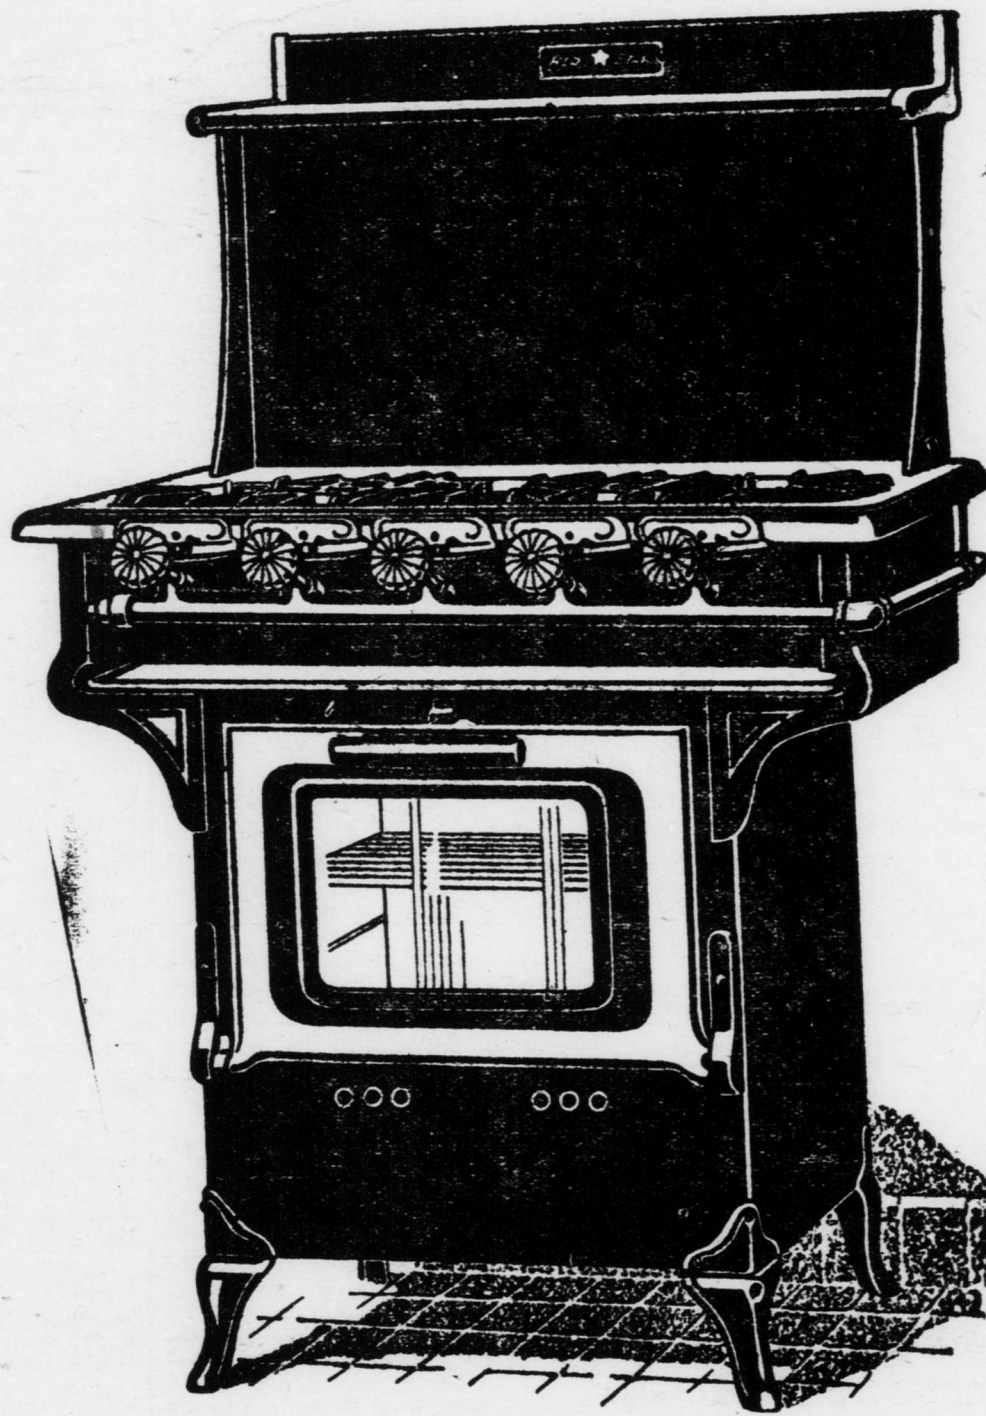

**RED STAR**  
*Detroit Vapor Oil Stove*

The "Red Star" is the first and only oil stove to burn kerosene or any grade of oil fuel, without the aid of wicks or substitutes for wicks. The 8½-pound, patented, double-ring-flame burner produces its own gas. Leaves no odor or smoke and produces a degree of heat hitherto impossible to an oil stove.

The "Red Star" will give you all the convenience of a city gas-range. Its amazing cooking efficiency and economy will surprise you. This same "Red Star" stove that is winning all official cooking tests and being advertised in the leading magazines is to be offered on astonishing terms during the Carload Lot

**WATCH NEXT WEEK'S  
PAPER FOR DETAILS**

Women are going to be quick to recognize this sale as a genuine opportunity. We advise you to watch the papers for final announcement and be at our store the opening day.

**Star Furniture Comp'y.**  
**Caroleen, North Carolina**
