

REPORT OF WELFARE ASSOCIATION

Many Aided During Winter—Mrs. Alcock Asks That Promised Contributions Be Made Now.

The Family Welfare Association reports that aid has been given 103 times since being organized. Aid has been given 27 times to school children, both white and colored children by furnishing shoes and clothes to them. Aid in the form of food, medicine, wood and coal has been given 76 times, making a total of aid given 103 times. There is still a number unemployed and owing to the epidemic of flu and other diseases there have been many demands during the last three weeks.

There were several business houses

and others, who said they would have to report later and if they are in position to give their donation now, please do so at once by calling or seeing Mrs. C. E. Alcock, who is in charge of the distribution for the association. Cash on hand in bank \$82.18 with some outstanding bills to be paid. There are families here whose husbands are on the chain gang, that are absolutely destitute, as the wives have no work and cannot get work. In some places there are as many as four little children. If you have anything to give please notify Mrs. Alcock.

Mr. Poteat was born in Rutherford county March 31, 1863. He moved to Stove Spinning Company, North Belmont, about six years ago, and lived there four years. His wife was before marriage Miss Huldah Arrowood, of Rutherford county. She died November, 1930. Since that time he had been making his home with his daughters, Mrs. J. E. Henderson and Mrs. John Benfield, in Belmont.

Surviving are three daughters, Mrs. J. E. Henderson, Mrs. John Benfield, of Belmont, and Mrs. D. E. Craig, of Kings Mountain; two sons, Geo. and Elbert Poteat, of Caroleen, and twelve grandchildren. Announce Corn Contest For 4-H Club Members

A state-wide corn growing contest open to all regularly enrolled 4-H club members of North Carolina will be conducted this year with cash prizes amounting to \$350 offered through the agricultural extension service of State college by the Chilean Nitrate Soda Educational Bureau.

The contest will be in charge of L. R. Harrill, state club leader, and will be conducted in each of the four extensions districts. District prizes of \$35, \$20, \$15, \$10 and \$7.50 are offered for first, second, third, fourth and fifth places respectively. In addition, the Chilean Nitrate Bureau will award a gold medal for the highest yield produced in the State with a silver medal for second state prize and a bronze medal for third place.

Under the rules of the contest, each contestant will enter one acre of corn by June 15. The acre must be designated and approved by the county agent and will be grown according to his advice and suggestion. At least 50 contestants must be entered from the extension district before prizes for that district will be awarded says Mr. Harrill. If there are less than 50 contestants in a district, only the highest records will be eligible to compete in the state awards and no district prizes will be given in that district.

In addition to growing the corn according to recommendations of the county agent, a complete record must be kept on the acre and this filed with the county agent by December 15. The county agent will also certify as to the accuracy of the yield.

In selecting the prize winners, Mr. Harrill says consideration will be given to yield per acre, profit above cost of production, selecting and making an exhibit at some fair or corn show, field selection of planting seed and the final record as turned in to the county farm agent.

"That man cheats," said a golfer as he entered the club-house. "He lost his ball in the rough and played another ball without losing a stroke."

"How to you know he didn't find his ball?" asked a friend.

"Because I've got it in my pocket."

Artist—"I am going to paint a picture of fish—and I don't know whether to do it in water-colors or oil."

Dumb Dan—"Well, if they're sardines—they should be done in oil."

Carolina Woman Lost 47 Lbs. In 3 Months and Feels Years Younger

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, was always bothered with pains in my back and lower part of abdomen and sides.

"Now I am glad to say I am a well woman, feel much stronger, years young and my weight is 170 pounds. I do not only feel better but I look better, so all my friends say.

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it." Mrs. S. A. Solomon, New Bern, N. C., Jan. 1930.

"P. S. You may think I am exaggerating by writing such a long letter but truly I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

A bottle of Kruschen Salts that last 4 weeks costs but 85 cents at Peoples Drug Store and druggists the world over. Take one half teaspoon in a glass of hot water every morning before breakfast.

Attention to diet will help—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—the Kruschen way is the safe way to lose fat. Try one bottle and if not joyfully satisfied—money back.

Reports Interest In Farm Campaign

The live-at-home campaign this year is reaching many farmers who never gave it consideration heretofore, particularly in the 25 counties where Government drought relief loans are being made.

"This is due," says Dean I. O. Schaub, director of the movement, "to the fact that no loan will be made to a farmer under the government plan unless he agrees to plant a garden and to grow the food and feed supplies needed by his family and livestock. In this way, the plan is being brought home to people who never have attended farm meetings, who refuse to grow a garden or read a farm bulletin. Due to the cooperation from the Press, school teachers, state officials and others, the plan is spreading rapidly over the entire state and should do a vast amount of good this fall."

Dean Schaub says one measure of how the movement is spreading can be seen from the daily requests being received at State college for bulletins. This demand is getting to be a real burden and funds needed for other purposes must be used for reprinting publications on gardening and other diversified features of balanced farming.

Even though some farmers are forced to grow food and feed crops this year because of necessity, the Dean believes this to be a good thing because eventually such a practice will be permanently adopted and the state will profit. Then, too, grow-

ing the food and feed crops automatically cuts the acreage to such money crops as cotton and tobacco. The decrease in cotton last year corresponded roughly with the increase of food and feed crops.

Bilious, Dizzy, Drowsy Feeling

"WHEN I was a child, if I did not feel well, or if I had a cold, my mother gave me Black-Draught," says Mrs. Orpha Hill, of Wofford, Ky. "When I was married, it became a family medicine in my own home, as it was in my mother's."

"I take it for headache and especially for constipation. When I get bilious, my skin gets yellow and I have a very bad taste in my mouth, and a drowsy feeling all during the day. My eyes burn and I get dizzy, or my head is 'swimming.' When I take Black-Draught, it seems to drive the impurities out of my system and I feel fine. I am seldom without this reliable remedy."
