Forest City In Three-Game Series

Having dedicated their new ball park with a double victory over Concord, Forest City-Alexander is scheduled to play a three-game series with Woodruff next Thursday, Friday and Saturday night. All games begin at 8:30 promptly.

The Woodruff team has been met and defeated once this year but they

nevertheless boast a strong team. The ace of their pitching staff is Hines, who was with Jersey City this spring.

The lightning arrangements at the Alexander park have proven excellent and by playing at night the teams will have an opportunity to perform before a large number of fans from surrounding towns.

Farm Women Boost Cotton Dress Goods

Stylish dresses for all occasions are being made at home by demonstration club women at low cost from textiles produced by southern mills. So far in 1931, the home demonstration club women have held 51 style shows at which there were 59,922 persons.

"We feel that the farm women of North Carolina are taking a leading part in popularizing cotton fabrics," says Mrs. Jane S. McKimmon, assistant extension director at State college. "We began holding our style or cotton dress shows back in 1922. During that year and in 1930, the women held 43 of these shows with 21,616 persons attending. Including the shows held so far this spring, there have been 81,538 persons present on these occasions."

The best thing about the shows was that women who had never appeared on any stage showed no reluctance in entering the products of their handiwork and they were glad to answer questions as to the cost of the garments and the time it took

to make them. In most instances the dresses cost from one to two dollars and never over three. Grandmothers, mothers, and daughters all took part in the shows and wore their house dresses, suits, afternoon frocks, and even sports and evening dresses before the assembled groups of people.

Mrs. McKimmon says the women are learning how to make suitable clothes of becoming colors and properly made. In all cases, the women use material made in North Carolina or nearby southern mills. In many instances they have cooperated with town women's clubs in putting on similar demonstrations and hundreds of town people have seen cotton material worked up into lovely dresses. These garments, she says, are in marked contrast to commercial ones which generally cost twice as much per yard as the farm women spend on their entire costume.
