lates the bowels of children of any age  
and makes toiletting easy, and costs only  
25 cents at Druggists.

**THE  
ATTN.  
HECTOR MCLEAN, AGENT.**

## THE WORLD'S FAIR AS "OLD MAY RUBE" SEES IT.

(Continued from last week.)

There are scattered through-  
out the grounds several places of  
amusement, etc., upon which an  
admittance fee is fixed, other  
than the pike; Morocco is repre-  
sented by a typical street and  
to separate concessions, in one is  
to be seen the largest horse in  
the world, "Morocco," weight  
2869 lbs., admittance ten cents;  
in the other is to be seen jugg-  
lers, gun spinners, fencers,  
and native dancing girls, ten  
cents admittance; the Philippine  
reservation covers forty acres,  
and contains one thousand na-  
tives, with their natural sur-  
roundings, admittance 25 cents;  
the Igorotes, the "dog-eaters"  
from Luzon, occupy a separate  
portion of this tract, twenty five  
cents extra is charged to see  
them; fifty cents is what it costs  
you to ride on the big Ferris  
wheel; if you ride during the day  
you get a complimentary ticket  
which entitles you to ride at  
night view the illumination; this  
immense wheel is 285 feet high,  
contains 36 cars and is the ori-  
ginal wheel made for the Colum-  
bian exposition at Chicago in  
1893; a crystal cave, reproduced  
in one in Wyoming showing  
the formation of stalagmites, etc.,  
5 cents admittance; twenty-five  
cents is the sum which entitles  
you to view "the wonders of the  
Solar rays" a machine deriving its  
motion from the sun's rays, is  
an interesting feature; a boat  
ride of a mile on the lagoons in  
quaint Gondolas, reposing on  
the resonance of the gondoliers,  
lute will prove refreshing,  
and costs only 25 cents; a tower  
250 feet high wherein is contain-  
ed a wireless telegraphic appar-  
atus embraces the largest sta-  
tion in the world costs you twenty-  
five cents to inspect it, com-  
munications are sent to  
many of the large cities, wireless  
telephony is also demonstrated;  
on a ten acre tract is reproduced  
a section of Jerusalem the "Holy  
City" showing the Mosque of  
Omar, the church of the holy sep-  
ulchre, Solomon's temple, cruci-  
fixion, tomb of Christ, Mount of  
Olives, garden of Gethsemane, the  
eccc house arch, typical streets  
and natives. The city is sur-  
rounded by a wall, every thing is  
fashioned after the original and  
designed in Jerusalem, admitt-  
ance twenty-five cents; if you  
wish to "get off the earth" you  
can do so in a captive balloon,  
which ascends about 1000 feet  
for fifty cents; several soft  
drink stands are to be found  
throughout the grounds, but no  
liquors are sold. In the above I  
have mentioned about all the  
objects of amusement etc. upon  
which a price of admittance is  
charged. We will now get to that  
part which is "free", there is  
something magnetic about the  
word free which is sure to at-  
tract attention.

As visitors enter the Main Ave-  
nue a magnificent garden is pre-  
sented to their view, one half  
mile away is the hall of festivals,  
it's dome larger than St. Peter's  
at Rome, 280 feet above the  
ground; it's colonades 52 feet  
high stretch out 750 feet each  
way divided into seven sections  
on each side, in front of which  
are sculptured figures represent-  
ing in allegory the fourteen  
states and territories carved  
parved from the Louisiana pur-  
chase; from center and two sides  
three great cascades pour floods  
of water down a steep slope; the  
central series of cascades is 800  
feet long and 150 feet wide at  
grand basin; in the hall of festi-  
vals is to be found the largest  
pipe organ ever constructed,  
having 10,000 pipes, and 140  
stops; the two larger pipes are  
82 feet long, and an ordinary  
horse could pass through them;  
the organ is 62 feet long, 38 feet  
wide, and 40 feet high; it takes  
a twenty horse power motor to  
operate it. Chas. Galloway of St.  
Louis, is the official organist,  
others famous, who will preside

at the fair are, Dethier, Eddy,  
Lemare, Carl, Smith and Parker;  
the most famous bands in the  
world take part in a series of  
band concerts in the hall, among  
them are the following,--La Gar-  
de Republicaine of Paris, the  
Grenadier band of London, the  
Imperial band of Berlin, the  
Mexican National, Chicago mar-  
ine band, Sousa's. At inter-  
vals these bands combine their  
forces in one grand orchestral  
concert of 2000 pieces; oratorical  
concerts composed of thousands  
of voices are also given.

The United States government  
represented in all its forms in a  
series of building and out-door  
exhibits, among them are the  
following;--in the post office de-  
partment is shown all the differ-  
ent methods of handling the  
mails, both domestic and fore-  
ign; a most unique exhibit in  
the agricultural department is a  
six acre map of the U. S. show-  
ing the growing crops indigen-  
ous to the several states, the  
paths are on the boundary lines  
of states; in the treasury depart-  
ment is to be seen enclosed in  
glass, the original warrant  
drawn from the treasury for  
\$15,000,000 in payment for  
Louisiana, in 1803, "life-saving"  
drills are also under this depart-  
ment, and a mut in actual oper-  
ation is also to be seen; it will  
be sent to Denver for permanent  
use at the close of the fair; in the  
interior department is illustrat-  
ed the progress made by the In-  
dians; 40 acres are devoted to  
this exhibit, and Terouimo, and  
Chief Joseph are in attendance,  
nearly every specimen of Ameri-  
can Indian, including furaway  
Alaska are to be seen here pur-  
chasing their usual avocation;  
in the war department is to be  
seen every style of gun and can-  
non used in the U. S. army, also  
every kind of ammunition and  
explosive, and other different  
processes of manufacture; old  
swords, and uniforms, worn by  
such men as Generals Lee,  
Grant, Sheridan, and others are  
among the many relics; in the  
navy department is to be seen  
perfect models of modern men-of-  
war; in a huge glass tank filled  
with water is shown an harbor fort-  
ified with sub-marine mines, show-  
ing the actual method of planting  
them; in the State department  
are to be found numerous letters  
and manuscripts that are histori-  
cal relics, together with Wash-  
ington's sword etc; the govern-  
ment fisheries exhibit includes  
specimens of fish from the waters  
of all her possessions, they are in  
glass tanks lighted from above,  
the visitor views the exhibit  
from dark passages ways.

The palace of agriculture is the  
largest building ever constructed  
it covers over eighteen acres,  
has four miles of aisles, the  
various systems of farming,  
modern country dwelling, ap-  
pliance and methods, in use in  
agricultural engineering, drain-  
age, irrigation, the composition  
soils the analysis of waters, the  
value of farm products as food  
for live stock, the latest con-  
struction for dairies, the pro-  
gress of manufacturing butter  
and cheese, a cheese weighing  
two tons, a collection of imple-  
ments and machinery, both an-  
cient and modern used in till-  
ing the soil, cultivating and harvest-  
ing the various crops, a collec-  
tion of vegetable parasites, and  
insects, a statue of John Ste-  
wart in better, a statue of "King  
cotton" 50 feet high, an elk com-  
posed of beans from Ventura Co.,  
California, etc. are among the  
many thousands--yes millions  
of interesting things to be seen  
and learned in this imposing ed-  
ifice.

In the palace of horticulture  
including the out-door exhibit  
are to be seen all classes of fruit,  
flowers and shrubbery; in front  
of this building is a floral clock  
with dial one hundred feet in  
diameter; the numerals are fif-  
teen feet high; on top of the dial  
is a house containing the mech-  
anism, and on this is a 3000 lb

bell striking the half hour. il-  
luminated at night by one thou-  
sand electric lights.

In the forestry, fish, and game  
palace are shown the results of  
tree planting, details of saw-mill  
work, veneering etc; everything  
pertaining to the forest can be  
learned here; in the out-side ex-  
hibit which covers fifteen acres,  
is to be seen a plank from Cali-  
fornia eleven feet wide, and sixty  
feet long; a tree that was four  
hundred years old when Colum-  
bus discovered America, is exhib-  
ited by North Carolina; nearly  
every kind of fish from the tiny  
minnow, to one like Jonah swim-  
low-d, are to be seen; the im-  
mense salmon fisheries of the  
Pacific coast are comprehensively  
exhibited showing in a vivid  
manner the methods of salmon  
hatching; every known specimen  
of game from all parts of the  
globe, form an interesting collec-  
tion together with the native  
weapons, as well as the more  
modern guns, revolvers, camp-  
ing and hunting utensils; the  
out-side (live) game exhibits  
cover ten acres, a bird cage 300  
feet long containing specimens of  
every species of bird in North  
America are shown with natural  
surroundings and foliage.

Paintings, sculpture, etching,  
engraving, lithographing, archi-  
tecture and all the forms of  
applied art, are on exhibition in  
the palace of Fine Arts.

In the palace of Liberal Arts  
is shown the wonderful develop-  
ment in topography, and the  
art of printing and binding in  
the past century; among them  
is a complete type foundry, a  
photo-mechanical engraving  
plant, electrotype foundry, a  
model printing office, showing  
various processes of color print-  
ing together with the different  
forms of machine type-setting,  
hand composition and casting  
devices; a modern hospital  
equipped with every  
appliance used in surgery has  
been provided. Methods of  
treating diseases by electricity,  
x-rays, sunken light, radium, etc.  
are demonstrated; musical in-  
struments from a self-playing  
piano, and piano players to the  
most crude instruments of by-  
gone years are here represented.

## LETTER TO J. A. MUSE.

LAURINBURG, N. C.

Dear Sir: Here's something  
every painter and builder ought  
to know.

Mr. J. J. Hall, Sheffield, Pa.,  
painted two houses, two year's  
ago, lead-and-oil; took 40 gal-  
lons. Last year, he painted Devoe;  
bought 40 gallons; had 10  
left.

He is one of thousands. The  
knowledge is getting about pre-  
tly generally, that Devoe goes  
further than anything else.

Have you found it out in your  
own experience?

How much further?  
Suppose a job amounts to 10,  
000 square feet; how much less  
Devoe could you buy?

Is it easy to paint? does it  
cost any more or less to put on  
by the gallon than anything else  
how much?

If it costs no more or less to  
put on Devoe by the gallon, in  
less by the foot, you know; for  
the gallon does more feet. How  
much less, do you find it, for  
wages?

Lasts, say, twice as long; that  
the owner's gain; but perhaps  
you reckon it yours; some do.  
The time, when that comes in,  
is when he gives out the next job.  
Who gets it?

Yours truly  
F. W. Devoe & Co.  
W. L. Fields sell our paint.

**JUST ARRIVED!!!**

**OUR NEW LINE OF FALL  
GOODS,  
STAPLE DRESS GOODS OF ALL KINDS.**

Up-to-date line of Shoes and Over Shoes. See our Crock-  
ery and Glassware. We want to sell you a nice Buggy or  
Wagon, see ours before you buy. Will give you prices on

University of N. C.--Allen Mc-  
Lean (to study medicine.)

A. & M. College, Raleigh.--  
Howard Brooks.

Elizabeth College, Charlotte.--  
Misses Fannie Louise Neal, Ne-  
nie Bryant, Annie Miller Diggs.

Red Springs Seminary.--  
Misses Olivia Brooks, Katie and  
Elisa Patterson and Ruby  
James.

Trinity College.--Pierce Wych.

State Normal College.--Misses  
Grace Everett and Emma Wash-  
ington Gill, Pearl McKinnon  
and Lula and Eugenia Cassidy.

From 148 to 93 pounds.

One of the most remarkable  
cases of cold, deep-seated on the  
lungs, causing pneumonia, is that  
Mrs. Gertrude E. Fenner, Marion  
Ind., who was entirely cured by  
the use of the Minute Cough  
Cure. She says, "The Coughing  
and straining so weakened me  
that I ran down in weight from  
148 to 93. I tried a number of  
remedies to no avail until I used  
the Minute Cough Cure. Four  
bottles of this wonderful remedy  
cured me entirely of the cough,  
strengthened my lungs and re-  
stored me to my normal weight,  
health and strength." Sold by  
W. L. Fields.

**Early Mice**  
The famous little pills.

**We are in the Ring to Win.**

dermined.

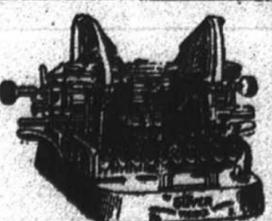

**GAYLORD'S  
STORE IS HEADQUARTERS FOR  
DRESS GOODS.**

GEO. O. GAYLORD is always on the lookout  
for bargains and especially in buying  
goods that he can sell cheap. We are  
showing 4 colors in cotton Etamine. It  
makes a cool, strong and serviceable dress.  
It is 32 inches wide and worth 18c. a  
yard. Our price is only 10c. We are also  
showing three colors in silk striped cash-  
mere. They were goods formerly retailed  
at 50c. a yard. We are selling them for  
18c. a yard. We have also two colors in  
voile, a gray and a tan, which you see in  
our window, goods that were sold at 50c.  
I picked them up at a bargain, and I am  
selling them at 15c. a yard.

We have 10 pieces of fine lawn, in two colors  
only, pink and blue, that we were selling  
for 10c. and which we now want to close  
out at 5c. a yard.

**GEORGE O. GAYLORD,**  
WILMINGTON, N. C.

**ARE  
YOU  
SATISFIED  
WITH  
YOUR  
TYPEWRITER  
EQUIPMENT?**

Try an "OLIVER" and your troubles will cease.

**J. E. CRAYTON, GENERAL AGENT.**  
CHARLOTTE, N. C.
