GREAT MAJESTIC RANGES

ONE WEEK
ONLY

SEPTEMBER 7th to 12th

ONE WEEK
ONLY

Save \$8.00

As a special inducement during our demonstration week only, with every MAJESTIC RANGE sold (prices always the same) we will give free one handsome set of ware as illustrated here. Every piece of this ware is the best of its kind. Not a piece that is not needed in every kitchen. It cannot possibly be bought for less than \$8.00. This ware is on exhibition at our store. DON'T FAIL TO SEE IT.

Which Shall It Be?

DO YOU intend to continue laboring, burning valuable fuel and destroying high-priced food with that old worn-out cook stove. You KNOW that old stove eats up a lot of fuel each year. You KNOW you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a while—you know it costs considerable for yearly repairs. Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputation—

THE GREAT MAJESTIC Malleable and Charcoal Iron RANGE.

YOU make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos—parts being malleable can't break—has a movable reservoir and an oven that doesn't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (breads, meats, etc., all over with a morning), heats water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsight unseen;" you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have it's many exclusive features explained—find out why the MAJESTIC is 300 per cent stronger than other ranges where most ranges are weakest.

MAJESTIC RANGES ARE MADE IN ALL SIZES AND STYLES

ON-LEGS IF DESIRED

MAJESTIC NEVER-BURN COOKER-

CHILDREN SOUVENIR DAY 100 TANGO HOOPS FREE

Tuesday, between 3 and 5 p.m.
The first 100 boys and girls who present to THE MAJESTIC RANGE SALESMAN at our store, between 3 and 5 p. m. TUESDAY, written answers to the following questions, will receive a "TANGO HOOP Souvenir" FREE.

- 1—What range is your mother now using?
- 2—Do you know anyone needing a new range? Who?
- 3—Why should the GREAT MAJESTIC RANGE be in every kitchen?

\$1.00 ARTICLE FREE

The one giving neatest and best answer to the last question may select any \$1.00 article from our stock, in addition to the SOUVENIR.

Don't be discouraged if you are not one of the 100 to get a Tango Hoop Souvenir. You will get a MAJESTIC PUZZLE CARD. Something for all the boys and girls.

Don't fail to get one of these Tango Hoops. It's a new and wonderful toy—amuses the old as well as the young. The Hoop dances forward, hesitates and returns to the operator. Children, it's great, and will be the talk of the town.

Be sure to have your answers ready to hand in at our store TUESDAY AFTER-NOON, between 3 and 5. They must be written answers—OTHERWISE YOU WILL NOT get a souvenir.

Special All during this week a special demonstrator direct from the MAJESTIC FACTORY will be glad to show you "ALL ABOUT RANGES"—show you why the MAJESTIC is the best range on earth at the price.

Come, If You Intend to Buy or Not

EDUCATION lies in KNOWING THINGS—KNOW why the oven of a range is heated—KNOW how the water is heated—HOW the top is heated—WHY the MAJESTIC uses so little fuel—KNOW how a range is made inside and outside. This education may serve you in the future. DON'T OVERLOOK a chance to KNOW THINGS shown by one who knows. COME.

Don't Overlook The Date. This Is a Special Invitation To You And Your Friends And Neighbors

Scotland Hardware Co., Wagram, N. C.

SOME GAME OF BALL.

Laurinburg Defeated Rockingham 25 Years Ago 52 to 33.

The Rockingham Post has found copies of "The Rocket," a newspaper published in Rockingham twenty-five years ago, and for the past week's clippings taken from it have appeared in the Post. Such items are always read with great interest by those who recall incidents that far back. In the current issue the Post reproduces an article that tells of a baseball game that was played in Rockingham between the Laurinburg and Rockingham teams, and is as follows:

"We did kinder promise, out of consideration for the feelings of the 'Junior Blues,' to say nothing of the game of baseball played here last Thursday between the 'Junior Blues' and the second nine of Laurinburg. But we must say enough at least to commend the Laurinburg boys for their gentlemanly and courteous demeanor while here, and to express the hope that they may come again, both in the capacity of ball players and as 'private citizens,' for they are a clever set of young men.

"As to the ball game, it was poorly played on both sides. The

game was called about 4:30 o'clock, with Laurinburg to the bat. Mr. T. C. Guthrie umpired the game, and if there was any dissatisfaction this writer failed to hear of it. Nine innings were played, and the score stood 33 to 52 in favor of Laurinburg. It is generally conceded, even by the captain himself, that bad management on his part had much to do with the defeat of our team. As long as Lee Everett was in the pitcher's box and Tom Leak, Jr., behind the bat, the 'Junior Blues' held their own, but when another battery was substituted in the third and again in the ninth inning the Laurinburg team had a soft snap, making 14 runs in the 3d and 18 in the 9th inning.

"The Laurinburg boys are splendid batters, excelling our boys in that particular, but as fielders our boys rather beat them.

"Thursday evening the Laurinburg team and visitors were given a reception by the 'Junior Blues.' It was held in the Academy Hall, and was quite a social gathering."

John L. Sullivan, the former champion of champions, says Jim Corbett did not knock him out; it was Jim Jams that did the trick.—Southern Pines Tourist.

NOTES GOOD FOR CASH.

Warehouse Receipts With Notes Will Get the Coin.

Washington, D. C.—Notes with a maturity of not longer than four months, secured by warehouse receipts for cotton or tobacco, will be accepted by the Treasury Department from national banks as a basis for the issue of additional currency which may be used to help farmers pick and market their cotton and tobacco crops.

These notes, according to an announcement from the department, will be accepted at 75 per cent of their face value and must be presented through currency associations provided under the Aldrich-Vreeland law. In making this announcement, Secretary McAdoo declared that there is adequate power under existing law to issue enough currency through national banks to meet any reasonable demand, and reiterated his statement that it is "not necessary to extend the note issuing privilege to State banks." He pointed out that he has power to issue one billion dollars of additional currency if required.

CURRENCY AS NEEDED.

It was explained that since the

law gives discretion to the Secretary of the Treasury this currency will not be issued unless officials are convinced it is not to be used for speculative purposes but for harvesting and carrying crops. Banks, it was said, will be relied upon to see that the warehouse receipts are accepted which are issued by reliable warehouse men, and that cotton and tobacco stored there is protected by insurance and injury by the elements.

"The banks and the assets of all banks belonging to the currency association," said Mr. McAdoo, "will be jointly and severally liable to the United States for the redemption of such additional circulation and a lien will extend to and cover the assets of all banks belonging to the association and to the securities deposited by the banks with the association pursuant to the provisions of law, but each bank composing such association will be liable only in proportion that its capital and surplus bear to the aggregate, capital and surplus of all such banks.

NO NEED TO SACRIFICE.

"This plan ought to enable the farmers to pick and market the cotton crop if the bankers, merchants and cotton manufacturers

will co-operate with each other and with the farmers, and will avail of the relief offered by the Treasury within reasonable limits. Such co-operation is earnestly urged upon all those interests. The farmer cannot expect as high a price for cotton this year because of the European war, yet he should not be forced to sacrifice his crop.

"The banker and the merchant should not exact excessive rates of interest and the manufacturers should replenish their stocks as much as possible and pay reasonable prices for the product. If this is done, and it can be done if every one displays a helpful spirit, a normal condition can be restored and there ought to be no serious difficulty in taking care of the cotton problem."

A Careless Clerk.

John Maness, head clerk at the Rockingham, is \$32 short in his personal funds as a result of leaving the office safe unlocked last Thursday night. At some hour during the night some one entered the hotel, and finding the safe open, took his pocket book. Strange to say, the hotel funds for the day, which were also in the safe, were unmolested.—Rockingham Post.

The Worth of an Education.

The average educated man, which means a four year's high school education, gets \$1,000 a year. Working forty years, he makes \$40,000 for a lifetime. The average day laborer gets \$1.50 a day for three hundred days in a year, if he is lucky. In forty years he earns \$18,000. The difference, \$22,000, equals the value of an education. To acquire this earning capacity requires twelve years at school, of one hundred and eighty days each, or two thousand one hundred and sixty days. Divide \$22,000, the value of an education, by 2,160, the number of days required and your quotient will be a little more than \$10, the average pay per day for the boy who does the four years of high school work.

Beside What Was Killed.

One day last week Mr. B. L. Mangum, of Chesterfield county, S. C., killed a large moccasin, and when he chopped the snake in two Mr. Mangum had the surprise of his life when forty-nine little moccasins, each from ten to twelve inches in length, came wiggling out of the mother snake.—Monroe Enquirer.
