This is to notify our friend, Mr. Bob Gibson, of Gibson, R. F. D. No. 1, that on Monday, Weather Prophet J. L. Peele, of the Sneed's Grove section, was in Laurinburg. Mr. Peele asked us to say that the fact that he had made no report as to the slaughter of big hogs in his neighborhood was no indication that there would be no good reports from that section, for he had them coming soon. He explained that as the people of that section had only been killing pigs that he did not think it worth while to make mention of them, but said he "You tell Bob I said he had just as well get ready to kill that one that he says is as big as a mule."

After the delightful hour in the hall, the lodge in a body, went to the Busy Bee Cafe, where a bountiful oyster supper was served, and all who were the devotees of King Nicotine paid him homage, for cigars were plentiful and for all.

It was an occasion when men felt the stock of real brotherhood going up.

CALOMEL SALIVATES AND MAKES YOU SICK.

Acts Like Dynamite on a Sluggish Liver and You Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tonic acts better than horrid calomel your money is waiting for you.—Adv.
