## WHO SHALL WE NAME?

Scotland and Richmond counties are  
to name the two State Senators from  
this district this time. The district  
is composed of Scotland, Richmond,  
Moore and Chatham counties.

By agreement entered into in 1902,  
when this district was formed, the  
naming of the representatives in the  
State Senate rotates, and Chatham  
and Moore having named the repre-  
sentatives in the Senate body before,  
it now falls to the good fortune of  
Scotland and Richmond to say who  
shall represent the district.

Richmond has named one candidate,  
this being Mr. W. N. Everett, of  
Rockingham. Mr. Everett says he is  
not running because he has been per-  
suaded to do so by his friends, but  
simply because he has always had a  
desire to be a member of that body.

The question is "Who shall Scot-  
land name?"

## A TOWN CLOCK.

This paper would like to see the  
proper authorities get busy and put  
a town clock at the court house.

This movement has been started at  
various times, and before enough  
steam and determination could be get-  
ten up to put the project through, the  
promoters, of which we have always  
been one, got tired and let the matter  
die for the lack of—well, it's no use  
to say what—for we all know.

We hope that the hookworm won't  
get us this time though and that we  
can stick to it long enough to get the  
desired results.

We cannot turn the trick unaided,  
and this is your invitation to get  
aboard right now and help along with  
the movement. No, we are not talk-  
ing to the other fellow, but to YOU,  
and more especially to the ladies, who  
are always ready for anything that  
favors civic improvement.

Are you ready? Then PULL—this  
is just what it will take.

Our columns are open and our ser-  
vices are ready.

If we were the Governor of North  
Carolina, we would commute to life  
imprisonment the sentence of death  
passed upon Ida Belle Warren and  
that miserable fellow, Christy, but we  
would feel that we had just been  
honest and that we had spared two  
guilty wretches. We could not say  
no to one begging for life, but we  
would believe right on as we do now,  
that they both deserve the full meas-  
ure of punishment. It may disqualify  
us from ever being Governor, which  
is bad indeed, but the electric chair  
would have to go out of business dur-  
ing our administration if we were the  
chief executive.

At a hearing before the Corpora-  
tion Commission last Thursday, at  
which time the citizens of Maxton,  
Red Springs and other points entered  
protest against the Seaboard-Coast  
Line railroad connection at Maxton,  
the roads agreed to rearrange the  
schedules of their trains so that the  
connection could be made. Heretofore  
it has been quite an uncertain  
matter about the connection at night,  
and should have been remedied.

A new directory just published for  
the town of Laurinburg gives the pop-  
ulation of that town at 5,058, which  
the Robinsons says is even more  
than is claimed. Rather unusual,  
don't you think?

Isn't it strange why a woman will  
pull off her coat to make herself com-  
fortable at the picture show, and for-  
get all about her hat that makes it so  
uncomfortable for those behind her?

## PICTURESQUE SPOTS.

Interesting Paper Read Before Book  
Club by Laurinburg Lady.

The following interesting and beau-  
tiful paper on "Picturesque Spots of  
North Carolina" was read by one of  
the members of a local book club, and  
we are glad that we are privileged to  
reproduce it for our readers. The  
paper follows:

"Our own 'Lumber River' with its  
many curves and overhanging boughs  
dotted with Southern smilax, shall  
be the very first spot to which I shall  
call your attention. John Charles  
McKillop has made it famous in his  
dear, sweet songs, with so much pas-  
sion and real heart music in them.  
Let us cultivate the appreciation of  
the beautiful that is at our door and  
it will add to the joys of life."

"Our mountains have been called  
the Switzerland of America and  
abound in picturesque scenes. The  
grandest view in the State, I guess,  
is to be had from Mount Mitchell. Who  
has ever stood and looked out over  
the clouds and seen the sun-kissed  
peaks of mountain range and not felt  
that this is a grand and beautiful  
world we live in?"

"History Nut Gap with its beau-  
tiful falls and deep pools claim men-  
tion not only for its beauty, but for  
its wonderful bottomless pools. The  
pools are perfectly round, in solid  
rock, filled with clear, limpid waters  
and flow from one to the other and on,  
a babbling brook, telling no secrets of  
the height from which it comes or the  
depth to which it has been."

"I speak of two scenes, I might  
speak of two hundred and have more  
to say. Every one has his or her  
own special favorite spot that is more  
appealing to his own peculiar idea of  
beauty."

"We can boast of lovely Ocean  
views rivaling any in the States—I  
will not say in the world. Our sea  
coasts abound in lovely stretches of  
billowy sea-blue waves, washing soft,  
white pebbly beaches with covens and  
sounds that are picturesque and in-  
viting. To those who love neither the  
cloud capped mountains or foam  
crested waves, what is more inviting  
than the crystal inland lakes that  
abound in our eastern counties? Lake  
Waccamaw, with its Indian name al-  
most as attractive as its crystal wa-  
ters. And White Lake, said to be one  
of the prettiest. Its waters are very  
pure and the bottom covered with  
white sand, making it possible to see  
fish at a great depth, and giving it  
the name it bears because of the shimmer-  
ing whiteness of its waters."

"The plateaus of our State give us  
pastoral scenes of beauty and at-  
tractiveness. Picture a palatial home,  
vine-covered pergolas, green lawns,  
sloping pastures dotted with mild  
eyed Jerseys and capering blooded  
horses; a stream at the foot of the hill  
where violets grow and water lilies  
bloom. The boat house nearby with  
the little boat rocking on the water.  
This will give you an idea of many  
picturesque homes in our State owned  
by the wealthy citizen. This picture  
will appeal to many, but one quite as  
picturesque, in the vine-covered cot-  
tage, with its rose garden and back-  
ground of whispering pines; the hap-  
py plowman coming to the horse with  
welcoming children and happy house-  
wife to greet him."

"But I must close this paper that  
might tire you if I would let my love  
of the dear old State lead me on. I  
will close with a toast to North Car-  
olina.

"Here's to the land that gave me  
birth—

The dearest land there is on earth,  
Her towering pines wave o'er the free,  
Her mocking birds from tree to tree,  
Make music all the summer days  
And moonlight nights sing notes of  
praise.

Fair roses in her gardens grow,  
Her balmy breezes softly blow,  
Her fields are with King Cotton  
white—

To sing her praise is our delight:  
Dear land, dear home, we think you're  
great.

We love you well, dear Old North  
State."

## HOW FAR IS ROCKINGHAM?

Not So Far That the Statements of  
Its Residents Cannot be Verified.

Rather an interesting case has been  
developed in Rockingham. Being so  
near by, it is well worth publishing  
here. The statement is accurate—the  
proof convincing:

T. E. Covington, Washington St.,  
Rockingham, N. C., says: "My ex-  
perience with Doan's Kidney Pills has  
been most satisfactory. I can recom-  
mend them as a medicine of merit for  
backache, inflammation of the blad-  
der and other kidney troubles. Sev-  
eral years ago, I was annoyed con-  
siderably by my back and kidneys,  
but after taking Doan's Kidney Pills,  
the ailments left and haven't bothered  
me since."

Price 50c, at all dealers. Don't  
simply ask for a kidney remedy—get  
Doan's Kidney Pills—the same that  
Mr. Covington had. Foster-Milburn

## MOORE FACTORIES CAPTURED.

Laurinburg Officers Assist Richmond  
Officers in Looting and Captur-  
ing Two Stills.

Officer D. E. Brown of the city po-  
lice force and Rural Policeman Frank  
Smith, went up to Richmond county  
and joined Sheriff Baldwin, and Deputies  
Brown, Flake and McDonald  
Wednesday afternoon of last week on  
a hunt for liquor factories, and about  
3 o'clock in the afternoon discovered  
and captured two real handsome ones.

The stills were located about three  
miles from Cognac, near the Scotland  
line in the northern part of the county.  
One was 100 gallon capacity and  
one 80 gallon. Both were modern  
and practically new copper outfits,  
and gave evidence that they were do-  
ing "some business." They were  
fixed up, according to surroundings,  
for continuous business, and were  
planted with a view of economy in op-  
eration. Water is said to be a very  
great necessity in the manufacture of  
the fluid, and at one of the plants,  
the water from a cool, clear spring  
way up on the hill side had been piped  
to the still.

The first still was located and of  
course very cautiously approached, as  
it is dangerous to flush the usual  
blockade distiller. When the officers  
were ready to make their raid, they  
discovered that the factory grounds  
were entirely depopulated—there was  
nobody at home. The two Laurinburg  
officers were detailed to remain  
at the still and watch for the oper-  
ators, while the others made further  
search for the other plant.

Soon after this, and while Officers  
Brown and Smith were crouched be-  
hind a log, a colored man came up to  
the still. He carried a shot gun, and  
as soon as the opportunity offered  
itself, the officers covered the negro  
with their guns and placed him under  
arrest. He declared that he was not  
interested in the still; that he had  
been rabbit hunting and just came by.  
To support his story, he produced a  
rabbit which he had in his pocket.

The officers naturally did not take his  
word for the matter and continued to  
hold him. Pretty soon he began to  
make them propositions, and finally  
proposed that if they would let him  
go free that he would show them  
where the other one was located,  
which he did. It was about a mile  
away and proved to be the property  
of his brother-in-law. Like the first  
one, there was no one at home, but  
the owner, or the supposed owner, was  
located in a nearby cabin, and when  
captured, was making or repairing a  
still worm.

Both parties together with the  
stills were carried to Rockingham.

The officers found about 1,000 gal-  
lons of beer and only one gallon of  
liquor at both places. At the negro  
cabin where one was captured, they  
found a barrel of sugar, seven bags  
of meal, one bag of malt and one bag  
of rye meal—all of which it is said,  
is used extensively in the manufacture  
of the "Sandhill Dew."

## Sells Mill Property.

Fayetteville, N. C., Feb. 28.—The  
deeds have been signed and recorded  
for the formal transfer of the cotton  
mill property at Hope Mills, seven  
miles south of Fayetteville, to the  
newly organized "Rockfish Mills, In-  
corporated," a Rocky Mount corpora-  
tion, from the Eastern Mills Com-  
pany, which a few months ago bought  
the property from the Hope Mills  
Manufacturing Company. Organiza-  
tion of the Rocky Mount corporation,  
its incorporation under the laws of  
the State and the sale of the cotton  
mills have been heretofore announced.

The Eastern Mills Company is com-  
posed of Messrs. A. J. McKinnon, J.  
F. McNeil and W. J. Beattie, Jr. This  
company bought the mills a few  
months ago when they were sold at  
auction. It is announced that one of  
the four mills, No. 2, will be started  
up in 30 days and the other three as  
soon as they can be renovated and put  
in first class working condition.

## Deserving Folks.

## May Oppose Page.

Lexington, Feb. 28.—The Davidson  
County Republican Convention today  
instructed their delegates to the Con-  
gressional convention to vote for ex-  
Sheriff P. E. Brown, of Wilkes, for the  
nomination for Congress to oppose  
Congressman E. N. Page, and pledged  
the support of the county to R. H.  
Biesicker, of Lexington, and H. F.  
Seawall, of Carthage, as delegates to  
the national convention.

EVER SALIVATED BY CALOMEL?  
HORRIBLE!

Calomel is Quicksilver and Acts Like  
Dynamite on Your Liver.

Calomel loses you a day! You know  
what calomel is. It's mercury; quick-  
silver. Calomel is dangerous. It  
crashes into sour bile like dynamite,  
cramping and sickening you. Calomel  
attacks the bones and should never be  
put into your system.

When you feel bilious, sluggish,  
constipated and all knocked out and  
believe you need a dose of dangerous  
calomel just remember that your  
druggist sells for 50 cents a large  
bottle of Dodson's Liver Tone, which  
is entirely vegetable and pleasant to  
take and is a perfect substitute for  
calomel. It is guaranteed to start  
your liver without stirring you up in-  
side, and can not salivate.

Don't take calomel! It makes you  
sick the next day; it loses you a day's  
work. Dodson's Liver Tone straight-  
ens you right up and you feel great.  
Give it to the children because it is  
perfectly harmless and "doesn't gripe."

The Supreme Court has affirmed  
the judgment of the lower court in  
the case of Ward, administrator, vs.  
Morhead Seafood Company. A man  
died after eating mullets put up by  
the company and it was alleged that  
he was poisoned by the food. Suit was  
brought for damages by his adminis-  
trator and the jury gave \$5,000 dam-  
ages. This the Supreme Court affirms.

The Piedmont Dispatch says: Nel-  
son Tyson, an aged and well-known  
colored man who lived near town, died  
February 20. He was supposed to  
have died on the 19th, and was pre-  
pared for burial, but he revived suf-  
ficiently to pull a sheet and a quilt  
off him, and lived again until the next  
day, so we are informed by a trust-  
worthy colored man.
