

**North Carolina State College of Agriculture and Engineering**  
WEST RALEIGH

Conditions brought about by the world war should remove all doubt as to the value of technical education. Increase of production in all lines is the demand of the times. Let your son equip himself for useful, productive citizenship. Let him have an opportunity to multiply his efficiency in whatever industry he may engage.

State College offers four-year courses in Agriculture, Agricultural Chemistry, Chemical Engineering, Civil Engineering, Mechanical Engineering, Electrical Engineering, Textile Industry, Dyeing, Military Training under U. S. Army officer. Unit of Reserve Officers Training Corps. General government given allowance to partly pay for students. Juniors and Seniors receive pay amounting to over \$100.00 per year. Summer Camp at Flatfish, New York. This year attended by Juniors free of cost. Graduates who take U. S. T. C. course if called into service are assured commissions.

Two hundred and thirty scholarships yielding free tuition to needy boys.

Young Men's Christian Association building which cost \$40,000. Regular paid general secretary in charge.

Strong athletic teams.

Requirements for admission, 11 units—tenth grade work completed.

Numerous Short Courses.

For illustrated circulars, Catalogues and Entrance Blank, write  
E. S. OWEN, Registrar.

**Make His Dreams Come True—Buy War-Savings Stamps**

Last night American soldiers, sleeping in the desolation of France, dreamed of victory—of America safe, free and happy.

They have left the comforts of life to fight the Huns. To help stamp out of the minds of the Huns forever their ideas of world dominion.

You must back them up. Loan your dollars to the Government.

**RED CROSS JOINS IN CARE OF REJECTED.**

Will Aid State Board of Health in Care of Men Returned From Camps or Rejected Because of Tuberculosis.

While the government is preparing through special hospitals to care for all men in service who contract tuberculosis the American Red Cross Society is joining with Anti-Tuberculosis Associations and State Boards of Health in the effort to care for the men called for service who are rejected because affected with the disease. An agreement has just been perfected whereby the Bureau of Civilian Relief of the American Red Cross in the Southern Division, including North and South Carolina, Georgia, Florida and Tennessee, will assume a third of the expenses of providing the proper care and treatment of these rejected as tuberculous, the remaining cost above what can be provided by the family to be divided between State and local agencies.

The initial contact with returned tuberculous soldiers and rejected registrants will be through the Home Service Committee, which will investigate cases referred by the division office, and the reports will be forwarded to either the State Anti-Tuberculosis Associations or State Board of Health. In North Carolina the work will be done through the Bureau of Tuberculosis of the State Board of Health, under the direction of Dr. L. S. McBrayer.

Through this agency an expert examination and diagnosis is to be made and the proper care and treatment outlined. In a majority of the cases it is expected that the patient will be able to arrange to carry out the plan outlined for him. In those cases where he is not assistance of the Red Cross will be added to insure a full opportunity for the recovery of the patient.

The importance of the arrangement may be seen from the fact that already there have been 189 men from North Carolina discharged from training camps because of tuberculosis. More than a thousand others have been rejected for service in this State for the same reason. Of the 189 sent back from camps nine are now at the State Sanatorium for treatment and another is expected to arrive within the next few days. The others will be reached in conjunction with the Red Cross.

**WILL KEEP RECORD OF EVERY PERSON'S PLEDGE.**

People Have a Right to Know Who Are Deserters—Government Must Finance War Through Loans or Taxes.

Attention is being called through a bulletin issued today from State Headquarters for War Savings to the fact that a record will be kept of every person's support to the War Savings Campaign during the week of June 23-29. At this time during the week beginning June 23, every taxpayer will be called on to subscribe his utmost—for himself and the dependent members of his family—to the War Savings loan. A record will be made and kept of his subscription, or his reason for not subscribing. The Government wants to know if there are those who are not willing to support the Government in times like these by subscribing to the most attractive loan that any Government has ever offered its people. In other words, the time has come when the people must either take the loan voluntarily or submit to more drastic measures of financing the war.

The reasons assigned for keeping a record of everybody's support during the War Savings Drive are many. In the first place, people have as much right to know who are deserters at home as to know who are the deserters in the Army. Deserters in the War Savings Campaign are no more due the protection of secrecy than deserters at the post. Furthermore, the Government proposes to deal with those who desert its cause at home as it would deal with those who deserted in active service.

The two particular features of which a record will be made and kept as a result of the drive of June 23-29 will be the amount of the pledge made by every taxpayer, or his excuse for not pledging, or if his pledge is not in keeping with his ability, and further, for his failure to attend the schoolhouse meeting on Friday, June 22, to which he has been summoned under the proclamation of the President of the United States.

**ALCOHOLIC DRINK IS FOE TO HEALTH.**

Its Elimination Declared to Be One of Greatest Factors for Promotion of Public Health.

That the elimination of alcoholic drink would be the greatest single factor in the promotion of the public health was the declaration of Dr. Arthur Dean, Beran, the newly elected president of the American Medical Association, in his inaugural address to the more than five thousand members of the Association in annual session recently at Chicago. The sessions of the annual meeting were devoted largely to discussions of problems of health which have been accentuated by the war.

Dr. Beran was heartily cheered when he called upon the 125,000 members of the American Medical Association to fight for prohibition.

"There can be no doubt," he said, "of the injurious effects of alcohol drinks on both the physical and mental well-being of our population. There can be no doubt that the greatest single factor we can control in the interests of the public health of the nation would be the elimination of alcoholic drink."

"In the slow evolution of civilization many great wrongs persisted for centuries because people had become so accustomed to them that they were accepted as matters of course. They became so entrenched that it required centuries of education or a revolution to extirpate or right them."

"Government by autocratic power and divine right without the consent of the governed has been tolerated. Slavery with its horrors was defended. The unequal rights of woman went unquestioned."

"Among these great wrongs, too

Old people who are feeble and younger people who are weak, will be strengthened and enabled to get through the demanding heat of summer by taking CHICHESTER'S PILLS. It purifies and cleanses the blood and builds up the whole system. You can see that its strengthening, invigorating effect.

Secretary McAdoo says: "The progress of the war demands constant and increasing sacrifices." What are you sacrificing in order to buy War Savings Stamps?

**CONVICT CAMPS IN FILTHY CONDITION.**

Inspector for State Board of Health Finds Unusually Bad Conditions in Forsyth County.

Though the department of health of Forsyth county is among the most efficient in the State the county has two convict camps that rank among the worst, according to the reports just received from an inspector of the State Board of Health. The department of health, under the direction of Dr. A. C. Bulla, is making a remarkable record in the promotion of the public health work in the county but has been unable to induce the members of the board of county commissioners of the county to carry out the rules and regulations for the governing of camps for convicts as adopted by the last session of the General Assembly.

The inspector for the State Board of Health who has just visited Forsyth county scores the two camps there at 60 and 68, the highest score for a camp, where the regulations are fully carried out, being 100. Dr. Bulla, the county health officer, is quoted by the inspector as saying that he has condemned the existing conditions months ago, and has been trying to get the camps cleaned up without results.

The inspector states that at camp number two he found flies in swarms as a result of the insanitary conditions, stables near the camp, beds dirty, no wash basins, no towels, no privy, and a bucket of excreta standing exposed to the flies at the entrance to the sleeping quarters at five o'clock in the afternoon.

The State Board of Health is calling public attention to the conditions mentioned because of the bearing upon the general health conditions. Forsyth county is spending a considerable sum of money each year on health work, yet the conditions in the camps are such that much of the good accomplished through months of effort can be destroyed in a few days. The men in the camps are not only needlessly exposed to contagious diseases by such filthy conditions, but spread of such diseases beyond the confines of the camps is invited.

**A GOOD FRIEND.**

A good friend stands by you when in need. Laurinburg people tell how Doan's Kidney Pills have stood the test. Mrs. J. C. Cole of Mill St., Laurinburg, endorsed Doan's three years ago and again confirms the story. Could you ask for more convincing testimony?

"For five years previous to my taking Doan's Kidney Pills, I suffered everything with my kidneys," says Mrs. Cole. "For weeks at a time, I would be down in bed and my kidneys caused me a lot of distress by acting irregularly. My back ached almost constantly and nights I couldn't sleep it pained me so. Mornings I could hardly get out of bed and my head ached and I felt dizzy. Nothing I took did me any good until I started using Doan's Kidney Pills. The first box gave me relief and four boxes helped me wonderfully." (Statement given March 29, 1918.)

On May 23, 1918, Mrs. Cole said: "I gladly recommend Doan's Kidney Pills again. I have never had any trouble with my kidneys since Doan's cared me. I advise others suffering from kidney trouble to give Doan's a trial and what I said in my former statement still holds good."
