

KIRBY TOWNSHIP FARMERS CLUB

(Continued from page one.)

name of the man who sells it.

One of the most striking things related by Dr. Knight about this little country was the fact that there are 21 State supported Agricultural Colleges there and when these students complete the course they go back to their little farms and put into practice what they have learned. They are also careful picking their students for these colleges. No boy is allowed to enter who has not had at least three years of practical experience on the farm.

Farming in Denmark is just as much a business as any other line of industry. There is not a Danish farmer today who does not look for expert advice. Dr. Knight thinks there are too few farmers in North Carolina who are willing to take expert advice about farm problems. We do not have enough respect for expertness. The difference is the Dane has become educated and respects knowledge no matter what it is about. The children in Denmark go to school six days to the week for forty weeks. Dr. Knight thinks agriculture in North Carolina will never be put on the basis it should be put on until we are educated. Why, he said there are more automobiles in North Carolina than there are books in our libraries. Our agriculture must go hand in hand with our school system.

While they are strictly an agricultural people, the average farm being 16 acres in size, they do not live by bread alone, they are great lovers of music, art and literature. A person is not allowed to teach school in Denmark who cannot sing or play simple compositions on the piano. You do not go into a home, hardly, but what every member of the family can play and sing and draw. Their walls are literally lined with drawings both in the home and in the schools. Every child in Denmark is taught that the most important lesson to learn in Agriculture is cooperation and Dr. Knight says it is no use for us to try to build an agricultural development with an uneducated citizenship. The Danes learned their lesson long ago; we have not learned it yet. We have not kept pace, we do not read enough. The Doctor said he saw on the table in one little farm home in Denmark more magazines than there are in some whole counties in North Carolina. The schools of Denmark did it. He lamented the fact that no one taught him to love to read when he was growing up.

The Danish Government enables thousands of people to buy their own farms. It works through the cooperative associations, the school system, the

agricultural colleges, in any way the people can be benefited.

Dr. Knight thought the way we have handled cotton and tobacco in North Carolina has all but ruined us. Diversity and cooperation has been the solution for adversity in Denmark and what it has accomplished for the Danes it could do for North Carolina. They are the gentlest people in the world, perhaps the most highly cultivated and most highly developed. Dr. Knight said the Dane's idea of Americans is that they have a pocket full of money and no education. Think of a country one-third the size of North Carolina having 300 daily newspapers. Besides all these papers and their numerous magazines, the Danish people borrowed from the public libraries in Denmark last year 6,500,000 books. "The Danes learned through adversity the necessity for cooperation," said Dr. Knight, "are we going to be stricken down, are we going to wait until destruction and ruin are staring us in the face to save our soul?"

Dr. Knight thought if we had more farmers club in North Carolina like the one he was addressing we would not have to fear for the ultimate outcome. We have our church clubs, our political clubs and in cities our business clubs, but in the country our farmers have been unwilling to come together for mutual aid and the upbuilding of community progress. He thought that our boys would love the farm beautiful and would not want to drift into the city when we had something beautiful on it and he hoped the movement which has begun in Kirby Township would spread over Northampton county and over North Carolina, until every rural community in the State will have just such a club for no doubt but that it is the beginning of a new day for rural conditions in North Carolina, for the idea of doing things individually has gone and we must do them now collectively and cooperatively.

The next meeting of the Kirby Township Farmers Club will be held in the school auditorium at Milwaukee June 25th, at 3:00 o'clock in the afternoon. To address the club at this time they have the promise of Mrs. Jane S. McKimmon, State Home Demonstration Agent, probably one of the most widely known and talked of women in the South.

TO THE DEMOCRATIC VOTERS
OF NORTHAMPTON COUNTY

In a district of sixteen thousand voters scattered among a population of one hundred and fifty odd thousand, extending from the mouth of the Roanoke River opposite Edenton to within thirty miles of Raleigh, it is physically impossible for any candidate to come in personal contact with all the voters, and consequently I will not be able to see but few of the citizens of your county and ask them to vote for me for Solicitor. Therefore, I address this open letter to you and hope that you will consider same a personal appeal to YOU for YOUR support and influence, and I will also gratefully thank you to speak a word to your neighbors in my behalf.

I have spent my entire life of forty years within one mile of Northampton and for eighteen years I have been appearing in the courts of your county. My record is an open book to you—you know me well—and I sincerely hope that I have so conducted myself, both as a lawyer and citizen, as to have gained your confidence and support. I call your attention to the fact that outside of my own county, the people who are nearest to me and who have had the best chance to observe me as a lawyer and as a citizen are strong for me: the people of Colerain, Powellsville, Aulander, Woodland, Potocasi, Milwaukee, Conway, New Town, Pendleton and Severn, surrounding my entire county, are practically solid for me and I refer you to them, any of them, should you yet be in doubt.

I am going to win if the people of Northampton will stand by me, but I will be defeated unless I get a substantial majority in your county. I have been over the counties of Halifax, Warren and Vance, and find that my strength there is about as much as any one could expect with a candidate on that side of the river and amply sufficient to nominate me, provided I receive a reasonably solid vote in the counties of Northampton and Bertie. Therefore, you have the power to either nominate or defeat me. I am at your mercy. I appeal to you to support me.

Sincerely,
STANLEY WINBORNE.

No Worms in a Healthy Child
All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILD TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Administrator's Notice

Having qualified as administrator of the estate of Sabina Wheeler, deceased late of Northampton County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Conway, N. C., on or before the 24th day of May, 1927, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This 24th day of May, 1926.
C. H. BARNES, Administrator
of Sabina Wheeler, deceased.
By R. Jennings White, Atty.

Notice of Resale of Valuable
Land and Property

Under and by virtue of the power and authority conferred upon the undersigned mortgagee by an order of the Clerk of the Superior Court of Northampton County, and that certain mortgage deed executed by G. C. Davis and his wife Mattie M. Davis, and dated February 11th, 1924, and registered in the office of the Register of Deeds of said County in book —, page —, default having been made in the payment of the indebtedness thereby secured, the undersigned mortgagee will resell by public auction to the highest bidder for cash at the Court House door in Jackson, N. C., on Monday, the 31st day of May, 1926, at 12 o'clock M. the following described land and property situated in Kirby Township, Northampton County, N. C.

1. That tract of land known as a piece or parcel of land sold to G. C. Davis by W. T. Bridgers and bounded as follows: On the north by the lands of J. E. Taylor; on the west by the lands of E. W. Martin; on the south by the public road leading from Conway, N. C. to the Old Deberry Mill; and on east by lands of D. R. Davis, and said to contain 60 acres, more or less.

2. One twenty horse power engine; one twenty-five horse boiler; one standard saw mill equipped with carriages and all necessary parts for operation; also saws and all attachments and everything for necessary operation.

The said land and property is being resold because the bid of the prior sale of same has been raised as is provided by law in such cases. The bid for the land above will start with the raised bid of \$1575 00. The bid for the personal property above will start with the raised bid of \$210 00.

This May 15th, 1926.
