The various sections of our county was well represented at this term of Court. We venture to say that the people of Carteret are the most orderly people in the State. Our court records stand as a positive proof of the above assertion. Our people who were in attendance upon Court, were quiet, orderly and peaceable. We neither saw nor heard of any disturbances whatever during the week. Judge Phillips complimented the people of Carteret on being law abiding citizens.

I used, instead, three bottles of Electric Bitters and seven boxes of Salve. The sore healed, and my leg is now sound and well." Judge Phillips then proceeded to charge the Grand Jury.

The judges charge was plain and explicit. About one hour was consumed in the judges charge. J. L. Hancock was then sworn by the clerk as the officer of the Grand Jury.

The following Attorneys were present:—Thos Busbee of Raleigh, Judge C. R. Thomas, Henry R. Bryan, Clement Manly, C. R. Thomas Jr., O. H. Allen, State Solicitor. Mr. John D. Davis, our efficient Superior Court Clerk, was on hand as usual, and in our humble opinion has a worthy successor to the late James Ramsey. The small criminal docket of this county, is attributed to prohibition. The old adage is a true one, "when liquor is in, the wits are out." Our court adjourned in session at two o'clock, having adjourned on Tuesday afternoon, having been in session but two days. This speaks well for the people of the good old county of Carteret.

NEWS OF A WEEK.

October 21st. The President and his wife were entertained in a royal and hospitable way in Atlanta. There has been no case of yellow fever in Palatka, Fla., since the death of one Tampa refugee. The city is exceptionally healthy. The outlook at Tampa is brighter than ever. One death occurred yesterday. The Marine Hospital has sent six acclimated nurses from Savannah. The Alabama State Fair is in full progress and all is ready for the reception of the President. The weather is very bad, rain is falling and the wind is from the east. A severe storm is prevailing in New Orleans. Many fences and trees have been blown down and the sugar cane on the plantations along the line of Morgan's railroad has all been blown down flat. Mr. Charles Bullis, of Worthington, Minn., has sold the original ordinance of secession, issued by the state of Virginia, to George H. Treawell, Commander G. A. R., of Albany, N. Y., for \$1,000. The President's special train, which is expected to leave Montgomery, Ala., at 1 o'clock today will make no stops between there and Washington, except possibly fifteen minutes at Asheville, N. C. There have been five new cases and two deaths from yellow fever at Tampa, since the last official report. The Minneapolis Tribune makes a public apology for the Cleveland editorial which reflected on Mr. and Mrs. Cleveland. The freight and passenger train collided on the Richmond & Danville R. R. yesterday morning, killing two persons and wounding several very seriously. Neglect is assigned as the cause. October 22d. The cases of the Chicago Anarchists were brought before the United States Supreme Court yesterday in open session, and Gen. Pryor, of counsel for the condemned men, presented the points upon which they rely in their application for writs of error. The Presidential party reached Asheville about 10 o'clock yesterday morning, and were escorted through the city in carriages; they remained half an hour. Chicago was in a high state of excitement Thursday night, in consequence of a threatened demonstration for the release of the condemned Anarchists; large bodies of police were thrown around the county jail, and other precautionary measures adopted to suppress any lawless movement. The Protestant Episcopal Church Congress, which has been in session at Louisville, adjourned yesterday. Detroit had the first snow storm of the season yesterday. Palatka is indignant over the continuance of quarantine, no yellow fever being in the place. Thirteen new cases and three deaths from yellow fever are reported from Tampa, Fla. October 23d. Hon. E. W. Washburn, ex-Minister to France, died in Chicago last night. There has been thirteen cases and five deaths in Tampa from yellow fever since last reports. The United States Supreme Court has decided to hear further argument in the anarchists' case next Thursday. Attorney General Hunt has been notified to be present in behalf of the State of Illinois. President Cleveland's visit to the South, was one continued ovation. Wherever he and his lovely wife went, they were received with open arms. They made one stop in North Carolina at Asheville. The people turned out en-masse to welcome them. Longline President Cleveland and his lovely wife. October 25th. The National Committee of the Woman's Foreign Mission Society of the M. E. Church is in session at Lincoln, Neb.; the collection for the past year amounted to \$109,000, an increase of \$23,000 over the previous year. A furious gale and snow storm prevailed on the lakes Sunday, and it is feared that the loss to shipping will be heavy. In the U. S. Supreme Court, yesterday, Chief Justice Waite read the formal order in the Anarchists case, which provides for a hearing on Thursday next of the argument upon the petition for a writ of error. Ex-President Davis, en route to Macon, was magnificently received at Montgomery yesterday; one hundred guns were fired and thousands of people welcomed him. A Tampa special report twenty-three new cases of yellow fever and two deaths yesterday; the disease is spreading in the better part of the city. Cotton 9 cts. Peanuts 60 to 80 cts. Rice 80 to \$1.00. Spts Turpentine 32 cts. Rosin 80 cts. Tar \$1.15. GOOD RESULTS IN EVERY CASE. D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for Consumption, did so and was entirely cured by use of a few bottles. Since which time he has used it in his family for all Coughs and Colds with best results. This is the experience of thousands whose lives have been saved by this wonderful Discovery. Trial bottles free at T. B. Delamar's Drug Store Large Bottles \$1.00. The advantages of a reliable, safe and efficacious Family Medicine, is incalculable, and when such is found, the blessing is thus happily expressed. "EUREKA." I have been using Simon's Liver Regulator myself some five years or more, and my family also, and can testify from experience to its virtues. I never recommend a medicine unless I know it to be good. In a ministry of twenty-five years I have often felt the need of such a medicine when I found it. I exclaimed, "Eureka."—Rev. J. P. Harper, proprietor of the "Christian Visitor," Southfield, N. C.

COMMUNICATED.

EDITOR RECORD:—On the night of the 18th inst., at a corresponding hour when long years ago the ghost of Hamlet's father was loafing around the royal garden of Denmark, your reporter might have been seen promulgating the depot at Morehead awaiting the arrival of the train that was to convey him to the fair at Raleigh. At sharp 2 o'clock a. m., we boarded the train, armed with a Union clad ticket as long as an old fashion well sweep and proceeded on our journey. No living occurred to mar the serenity of our trip and after breakfast at Goldsboro, where we were permitted to shake the hands of several old friends our train pulled it to the depot at Raleigh at about 10 o'clock.

The sky was overcast with murky clouds and the patterning draps were falling fast as we boarded a hack for the Yarbors. That excellent house being all ready over run, we were compelled to look for other quarters and succeeded admirably in pitching our tent beneath the hospitable roof of that clever gentleman, Rev. Mr. Braslow. We remained three days in Raleigh, during the whole of our stay the city was wrapped in gloom, parted with mud and saturated with water. The floods came, the wind blew and the rains decended, but not for one moment did the sun break through the clouds to lend a ray of cheering influence to the damped spirits of the huge mass of humanity that surged and splashed through the sticky mire. The streets reminded one of an enormous bread bowl filled with yellow meal stirred to a soft pottage. It is needless to tell you that our Sunday go to meeting breeches sustained irreparable damage, but we had come to see the fair and were determined to make use of the time without regard to the price of broad-cloth. The fair was a success notwithstanding the inclemency of the weather, of course the races had to be called off, but the exhibit was in many respects ahead of anything ever seen before. One feature especially attracted the attention of your correspondent, viz; the Editors Lunch Department. I just wish you could have been there. Of course I did not take anything stronger than tea, but there was plenty of good things on hand, and the Governor of N. C., was there too, you know Governor's generally drink something stronger than tea.

But the prettiest thing I saw while in Raleigh was a pretty girl whom I chanced to meet wading around in the Fair grounds' up to her boot tops in mud. Indeed the fascination was so great I could not forego the pleasure of escorting her to the theatre where we were given a superb rendition of that thrilling drama, "The Hidden Hand" played by Miss Cora Van Tassel as Capitola Black and an excellent company of actors.

The committees of our various counties along the line of the A. & N. C. R. R., met at the Yarbors House on Wednesday 19th, F. M. Simmons Chairman and Aycock Secretary. The object of the meeting was to take some action looking connection of the C. F. & Y. V. R. R., with the A. & N. C. R. R. The committees waited on the Governor and urged him to sanction a lease of the A. & N. C. R. R.

Two of our young men, Messrs. C. M. Higgins and T. B. Delamar, went before the N. C. State Board of Pharmacy for examination and came off with flying colors. Your reporter stopped in Goldsboro two days on his return from Raleigh and enjoyed a pleasant visit among relatives and friends.

But there is no place like old Beaufort if she is a hundred years behind time and right glad we were to set foot on her sandy soil after splashing around in the yellow mud a week or more.

OUR NEW YORK LETTER.

[From Our Regular Correspondent.]
New York, October 22d, 1887.

Mrs. James Brown Potter, New York's theatrical debutante, arrived in the city last Saturday on the steamer LaChampane. Among the other passengers was Signor Campanini, the famous tenor. Campanini is said to have completely recovered his voice. This popular singer will make a tour of the United States giving the Italian Opera with his excellent company. On his arrival he was surrounded by one hundred musicians from the various orchestras in the city who wished to honor the greatest tenor in the world.

Mrs. James Brown Potter's debut is looked forward to as a great society event. The seats for the opening night were sold at auction by John Draper, the well known auctioneer. The whole house on the opening night will net about \$3,000. The choice of proscenium boxes was sold to a Wall Street broker for \$200. The total for the boxes was \$967. The orchestra seats sold for \$20 down to three according to their location. It is needless to say that the audience will be very select.

October weddings are running up among the hundreds. Each day many happy couples in society are united and cards are out for like events for weeks to come.

The large balls will hardly begin before December. The theatres are in full blast and are presenting many excellent attractions: Tevesina Tira, a fascinating young lady violinist has made a very favorable impression upon the New York public in her concerts at Chickering Hall. The town will be agog now until Lent comes.

Account of the miserable and disgraceful condition of our streets many people have returned to the country rather than live in a live a city whose streets are turned up from the bottom and breathe an atmosphere heavy with the odor of escaped gas. However by November 1st, all the best people will be in town again and another season of gaiety will begin. No wonder that many people prefer to run away from society with its ever tiresome teas and receptions that seek rest and quiet in the sunny South.

The anarchists held another meeting in Union Square to denounce the action of the police at their meeting the week before. The police commissioners, captains and a large force of policemen were present and listened to the fiery speeches that were hurled against them and smiled at their wholesale denunciations of the force.

Now that the election day is drawing near the torch light processions are increasing. Whole regiments of uniformed enthusiasts bearing torches parade the streets headed by a powerful lunged reinforced brass band and bearing transparencies inscribed with the names of their favorite candidates. But fortunately torch lights and lasso ball uniforms do not elect them.

P. T. Barnum, the great show man, announces his intention of dispensing with the clowns, hereafter the circus rings of the Greatest Show on earth will be minus the clown. We hope sincerely that Mr. Barnum will not dispense with the lemmings and peanuts that are so necessary to the small boys happiness.

An elevator now carries passengers up to the elevated rail way station at 116th street. The road is very high at this point and the elevator does away with a very tiresome climb.

A school house building in the course of construction in east 115th street collapsed completely and killed seven men. Inspector Martin of the building department has been declared guilty and has been dismissed. The foreman of the work has been arrested. Poor material and gross neglect was the cause of the disaster.

Work has been stopped for the winter on the spires of St. Patrick's Cathedral. The spires although only half completed make a very fine display of architectural beauty.

Extraordinary precaution is taken with all ships arriving in this port from Southern Italy now. All vessels from the cholera infected districts should be thoroughly cleansed and disinfected before they are allowed to come up to the docks of the city. It is reported that our countryman, Mr. Buffalo Bill will take his Wild West show to Rome and occupy the Colosseum. How is this for American enterprise! The last time it is said that the huge Colosseum was used was about 500 years before Columbus discovered America.

A Hoboken ferry boat and a river tug collided in mid stream on Friday. The ferry boat got the best of the collision. The tug immediately sunk. The crew were rescued. On the ferry boat a general rush was made for life preservers and when the boat came into her slip in Hoboken the passengers in their hurry rushed on shore into the streets, some getting several blocks away from the river before they discovered that they were still wearing the life preservers.

Numerous little catch penny machines have made their appearance in public places of late. Most conspicuous among which is the weighing machine which is found at all rail road stations and in the corridors of many hotels, both of the city and country. It consists of a pair of platform scales on the high back of which is a dial that indicates your weight. The

SCALES WILL NOT OPERATE UNLESS A FIVE CENT NICKEL IS DROPPED IN THE SLOT. ANOTHER IS A GRIP TESTING MACHINE THE HANDLE OF WHICH WHEN GRASPED IN THE HAND WILL INDICATE ON THE DIAL THE STRENGTH IN YOUR HAND AND FINGERS. THIS ALSO REQUIRES A NICKEL BEFORE OPERATING. AND STILL ANOTHER IS THE PROPERTY OF A WELL KNOWN MANUFACTURER OF CIGARETTES. WHEN A NICKEL IS DEPOSITED IN THIS VENDING MACHINE A LITTLE DRAWER CONTAINING A PACKAGE OF CIGARETTES COMES OPEN. THE MACHINE IS A DOUBLE BARREL AFFAIR AND CONTAINS TWO POPULAR BRANDS OF CIGARETTES. THIS VENDER IS NOT SO WELL MADE AS THE WEIGHING MACHINE. A HEAVY "WHITE" CENT OR A CIGAR LIGHTER WILL OPEN THE DRAWER. THESE MACHINES ARE PLACED IN STORES, MOST FREQUENTLY IN SALOONS, THE PROPRIETORS OF WHICH RECEIVE TEN PER CENT OF THE PROFITS.

A press view was given yesterday at the American Art Galleries of the books, pictures, bric-a-brac, and other literary and art treasures belonging to the late Henry Ward Beecher. They will be sold at auction sale on November 8th for the benefit of the estate. Mr. Beecher was an enthusiastic collector and among his bric-a-brac will be found many valuable and equally interesting specimens.
