MAKES GOOD RECORD

Building And Loan Association Is Helping To Build Up Beaufort

The annual meeting of the stockholders of the Beaufort Building and Loan Association was held Thursday evening in the rooms of the Old Topsail club. The report of the Secretary showed that the association is in good shape and making very satisfactory progress.

Two series of stock have been issued and another series will be offered on the first of August. The association has outstanding loans amounting to \$15,150, and has assisted in building ten houses since its organization and also in making improvements to several others. The association is undoubtedly contributing a great deal to the development of Beaufort and is also making money for its stockholders.

At the meeting Thursday evening officers and directors were elected as follows:

President G. W. Huntley, Vice president W. P. Smith, Secretary and Treasurer G. W. Duncan Directors; A. F. Doane, J. H. Dill, G. W. Huntley, U. E. Swann, M. C. Holland, J. A. Hornaday Jr.; and W. G. Mebane. The finance committee is composed of A. F. Doane, J. H. Dill and W. P. Smith.

New Pullman Service

Travelling Passenger Agent R. H. Hamilton of the Southern Railway was here last week in the interest of his company. The Southern has arranged to put on a sleeping car service between Goldsboro and Asheville which will be quite a convenience to the people of the two sections of the State.

Modern Democracy

The Democratic party has evidently abandoned the fundamental principles laid down for it by its founders. Jefferson, Madison Monroe and the other elder statesmen of the Democratic-Republican party laid great stress upon the rights of individuals and of the States that formed the Union. Latter day Democrats have but little regard for the matters.

From the beginning there has been a tendency in this country to increase the power of the Federal Government at the expense of the States. Rightly or wrongly the Democrats of the past stoutly opposed this tendency. Now they if anything are more willing than any others to strip the States of their powers and under the tutelage of President Wilson great strides have been made in this direction.

It was Thomas Jefferson who said "Peace, commerce and honest friendship with all nations, entangling alliances with none." Now a Democratic President would ally the Union with a horde of nations big and little and entangle our nation in all of their disputes and wars.

GRADES FOR POTATOES

Information Of Interest To Growers Regarding Grading And Packing

The potato grades as recommended by the Federal Bureau of Markets will be the legal standard for North Carolina again this season. The grades themselves have not been revised but the regulations governing grading, marking, and packing have been changed to some extent. The most important features of the revised regulations as provided for under sections 4, 5, and 12, Chapter 325 of the Public Laws of 1919 are as follows:

1. Potatoes not graded in conformity with the legal grades must be marked "NOT GRADED".

2. All packages must be marked to show name of party under whose authority they were packed, together with his address, the variety and accurate grade of contents.

3. In all packages the potatoes in the face or shown surface shall fairly represent the size and quality of the contents throughout the package.

4. The regulations with regard to inspection service remain unchanged. Copies of grades and regulations may be secured by addressing The Division of Markets, Box 285, Raleigh, N. C.

Growers of early potatoes will welcome the announcement that daily market reports will be issued from Washington, Beaufort County, again this year by the Federal Bureau of Markets. These daily reports covering the movement of the crop from important producing sections as well as the jobbing prices on the leading markets, will begin immediately and continue throughout June. Interested parties may secure these reports by addressing the Market News Office, Washington, North Carolina.

WILL WIDEN BRIDGE

Many Road And Bridge Matters Taken Up This Week By Commissioners

The board of County Commissioners put in two days of steady work at their regular monthly meeting here this week being in session Monday and Tuesday. Those present were Chairman Wallace and Commissioners Lewis, Piggott and Taylor.

An important decision made by the board was that of widening the new North River bridge making it sixteen instead of ten feet wide.

Several delegations of citizens came before the board in regard to road matters. C. R. Wheatly representing citizens of Stacy asked that a certain route be adopted in the eastern part of the county. E. H. Gorham presented a petition signed by a considerable number of citizens asking that a bridge be built across Newport river at Ovster Rocks. Citizens of Marshallburg came before the board in advocacy of a road in their section. The board promised to take all these matters under consideration.

Chairman Wallace said that an agreement had been reached with Onslow county to repair Stella bridge. An order was passed to have Guthrie Brothers do the work at the rate of \$10 a day.

Hancock and Davis were allowed \$5000 on Smyrna bridge Guthrie Bros. presented a bill for \$1686.58 for work done on Horlowe canal bridge and same was allowed. Supervisor Thomas recommended that old road machine be sold and this was ordered done the price being \$50. Commissioner Lewis reported potatoes from the county farm amounting to \$250 had been sold. Bids for installing lights and water in the county home were opened and Gaskill-Mace Company were the successful bidders the price being lights \$125 and water works \$917.12. The matter of employing a county auditor was referred to a committee. A large number of bills were audited and the reports of the sheriff treasurer and county welfare officer heard and adopted.

Red Squirrels.
The red squirrels are found most abundantly in woods of chestnut, hickory or oak trees. These little squirrels do not lay up by any means as much of the other varieties. In summer time they make excursions to the fields and orchards. Apple seeds are a favorite delicacy.

PRIMARY VOTE LIGHT

Abernethy Carried Carter et In Saturday Contest, Morrison Carries County

Notwithstanding the strenuous efforts made by some of the candidates and their friends the vote in the primaries on last Saturday was rather light. The total number of votes polled by both Democrats and Republicans in the county will not exceed 1500, while probably twice that many persons were entitled to vote. Chas. L. Abernethy carried the county by a majority of 139 over Congressman Brinson. Cameron, Morrison beat Gardner by a small majority and Horton running for Superior Court Judge cleaned up his two opponents. The vote from Portsmouth and Davis had not been received up to noon yesterday and the figures, given below are for the county leaving out those two precincts. The totals are as follows:

In Kamchatka.

Petropavlovsk is the principal city of Kamchatka. Its population is about 1,500. The country offers for sale fish caviar and furs (especially sable bear furs). In 1913 the peninsula had 700,000 reindeer. Flour, salt, tea and sugar are greatly needed. In midsummer great quantities of salmon are caught.

Mr. House And Miss Hendricks Wed

Mr. and Mrs. Joseph House arrived here Sunday evening from Marshall where they were married Saturday at noon. The marriage took place at the home of the bride who was Miss Elizabeth Hendricks, daughter of Mr. and Mrs. J. A. Hendricks. The marriage was a quiet home affair and was witnessed by relatives and intimate friends. Mr. Hendricks is a prominent lawyer and well known citizen of Marshall. Mrs. House is a niece of Mrs. C. L. Duncan of Beaufort and has many friends here. Mr. House is the manager of the Beaufort Drug Company. He came here shortly after the war from his former home in Scotland Neck and has made a large circle of friends and acquaintances since coming here. The young couple are making their home at the Manson House.

Died In The Surf

While in bathing at Atlantic View Beach last Sunday afternoon Debernier Debnam met with a sudden death. The young man and woman companion were well out in the surf when he was stricken with heart failure. He was brought out on the shore and every effort was made to revive him but without success. Mr. Debnam was a resident of Kinston where he was employed in a bank. His parents live at Selma.

Secrecy in Government.
Secrecy used to say that, although no man undertakes a trade he has not learned, even the moment, yet every one thinks himself sufficiently qualified for the hardest of all trades, that of government.—Bellegrove.

This was a former spelling of Beaufort, which was all worn in the past place by men.
