**DR. THACHER'S
LIVER AND BLOOD
SYRUP**

When you're clogged up by CONSTIPATION, jaundiced by a torpid LIVER, devitalized by poor BLOOD or soured by DYSPEPSIA your case calls for Dr. Thacher's Liver and Blood Syrup—an old physician's famous prescription, in successful use for 68 years as an all-around family medicine.

"From His Heart"
Mr. E. J. Heicher, of Shell Bluff, Ga. says: "I am going to give you a testimonial that's from my heart. I would not be without DR. THACHER'S LIVER AND BLOOD SYRUP in my home and will try my very best to get it into every home in my locality. I take it and my wife and children take it whenever we see even the least indication of a coated tongue, since we know that the tongue is the thermometer of the stomach."

Mischievous Maggie.
A tame magpie was once observed to be gathering some pebbles in the garden, and solemnly dropping them in a deep hole which had been made to receive a post. As each stone dropped the magpie gave a triumphant chuckle, and searched for another stone. Examination showed that a toad was at the bottom of the hole, which can only point to the fact that the bird was stoning for amusement.

Aspirin and Quinine.
A Spanish physician has found as the result of a year's experience that the combination of aspirin and quinine is undrinkable and may be dangerous. According to the Scientific American's account of the investigation, the catalytic action of aspirin in the stomach changes the quinine to a poisonous derivative called quino-toxin. The poison is said to cause death, though the Spanish investigator records no fatal cases.

Dreaming of the Wind.
To dream of the wind blowing signifies opposition and illness. If it blows your hat away, it's a sign you will want to go away because of a shortcoming of yours. To dream of hearing the wind blow foretells illness of someone very close to you. If you are caught in a gust of wind, you will have some harrowing experience very soon. To dream of seeing a windmill is a sign you will have a loss.—Chicago Herald and Examiner.

Tests of a Good Thermometer.
In order to ascertain whether a thermometer is correct or not, it is first plunged into melting ice and then into boiling water; the level of the mercury should indicate upon the scale exactly 32 degrees and 212 degrees Fahrenheit. When inverted the mercury should fall with a sudden click and fill the tube, thus showing the perfect exclusion of air.

Odd Wedding Arrangements.
A young professor of physical culture married a beautiful and athletic pupil of his in the suburbs of Paris. The couple appeared before the mayor in tennis costume, and after the ceremony the wedding party sat down to breakfast on the banks of the Seine. Hardly was the coffee finished than, on a given signal, the whole party retired and reappeared in bathing costume. Later the couple started on a bicycle tour for a honeymoon.

Variety in Breads.
Variety in breads is more important when the lunch must be carried than at other meals because of the danger of monotony. Wheat bread, whole-wheat bread, corn, rye, or oatmeal breads; nut, raisin, and date breads, beaten biscuit, rolls, crisp baking powder biscuit, or soda biscuit, and toast, zwieback and crackers may be used in turn to give variety.

Peculiar Companionship.
The greedy shark, which devours everything living or dead, never touches the beautiful pilot fish, which is always in its company. Equally odd is the companionship between the hideous and venomous rattler and the "white-oak snake." There does not seem any explanation for this friendship.

Something Doing Then.
If only more millionaires had the imagination of poets, sighs a Florida editor, what a wonderful world this might be! But wouldn't it be a still more wonderful world if more poets had the incomes of millionaires?—Springfield Republican.

Opening of The Third Series
FOR THE SALE OF STOCK
In The Building and Loan Association

The directors of the loan association wish to call the attention of the people of Beaufort and vicinity to the fact that on Saturday August the 7th the third Series for the Sale of Stock will begin, and to request that every citizen of Carteret County subscribe to a number of SHARES of Stock before the Series closes. Not only will they find it a profitable investment, but by subscribing to shares of stock they will be aiding in the development of Beaufort and vicinity. Already during the past twelve months our Association has assisted in the construction of 10 New Homes and the improvement of many others. Now is the time for the people of this County to invest their savings in one of the best propositions known. which is not only a good investment, but at the same time tends towards the upbuilding of their County.

It is very gratifying to us to announce to the people of Carteret County that already our loans have reached the total of \$ 20,000.00

Don't fail to come in the water's fine

Cannot Praise this Remedy too Highly
THE WAY ONE LADY FEELS AFTER SUFFERING TWO YEARS
Judging from her letter, the misery and wretchedness endured by Mrs. Charlie Taylor, R. F. D. No. 1, Box 144, Dillon, S. C., must have been terrible. No one, after reading her letter, can continue to doubt the great healing power of PE-RU-NA for troubles due to catarrh or catarrhal conditions in any part of the body. Her letter is an inspiration to every sick and suffering man or woman anywhere. Here it is: "I suffered two years with catarrh of the head, stomach and bowels. Tried two of the best doctors, who gave me up. I then took PE-RU-NA and can truthfully say I am well. When I began to use PE-RU-NA, I weighed one hundred pounds. My weight now is one hundred and fifty. I cannot praise PE-RU-NA too highly, for it was a Godsend to me. I got relief from the first half bottle and twelve bottles cured me. I advise all sufferers to take PE-RU-NA."
As an emergency remedy in the home, there is nothing quite the equal of this reliable, time-tried medicine, PE-RU-NA. Thousands place their sole dependence on it for coughs, colds, stomach and bowel trouble, constipation, rheumatism, pains in the back, side and loins and to prevent the grip and Spanish Flu. To keep the blood pure and maintain bodily strength and robustness, take PE-RU-NA. You can buy PE-RU-NA anywhere in either tablet or liquid form.

Many.
There are people who, instead of listening to what is being said to them, are listening already to what they are going to say.—From Impressions.

The Balsam Fir.
Canada balsam, as the balsam fir is sometimes called, is one of the beautiful evergreen trees. The needles of this tree, which are a deep glaucous green above and a lovely silver color below, are about three-fourths of an inch long.

Superstition and the Moon.
There are still some places where people believe a felon on the finger is caused by having pointed the finger at the moon, and that some headaches are caused by having one's hair cut while the moon is in crescent.—F. H. Chasley in "Stories for Talks to Boys."

Progress.
Throughout the whole web of national existence we trace the golden thread of human progress toward a higher and better estate.—James A. Garfield.
