### PECAN PLANTING SEASON CLOSES WITH MARCH

Raleigh, N. C., March 2nd.—Those who contemplate planting pecan trees about the house or in the orchard this year should be sure to get the trees set before the end of March advises H. M. Curran, Forester of the State College Extension Service. This means that only a few weeks are left in which to make planting for this year.  
 Thousands of trees have been set in North Carolina this winter as a result of the campaign put on by the extension forces for a million pecan trees in eastern Carolina. The movement has the backing of the North Carolina Pecan Growers' Society of which W. N. Roper of Raleigh is Secretary and this organization has arranged for trees of suitable varieties to be held for late spring planting. The trees are being sold at lowest possible prices because of the campaign.  
 Mr. Roper and Forester Curran state that those who wish to plant trees this year should take advantage of the low prices secured through the Society and write either to the local County Agent or to Mr. Curran for securing those trees that will be needed now.

Many persons in North Carolina gathered from trees growing about their homes and gardens quantities of pecans ranging in value from a few dollars to several hundred dollars. Three trees in eastern Carolina produced 285 pounds of nuts and forty-five trees in another section produced 4,000 pounds.  
 "Plant pecans now," advises Forester Curran. "The crop is too valuable to delay a whole year in harvesting nuts from your own trees."

### PEANUT GROWING.

Editor of The Beaufort News:  
 I am mailing to your address copy of "Farmers Bulletin No. 1127. Peanut Growing for Profit" that will be of interest to you to read, and am so much impressed with this subject, have mailed to Mr. Pearce the RFD carrier, and also to Mr. Swann at Beaufort Banking and Trust Co., a bundle each, of these bulletins, for distribution.  
 Carteret County is especially adapted to this crop, as has been proved on a small scale for feeding to hogs, and if the farmers would enter this among their diversified crops, for a cash crop, they would be well pleased.  
 If any person should wish to see a copy of this bulletin, same may be found by seeing Mr. Swann at his Bank, or by request from the U. S. Department of Agriculture, which of course you know.  
 These copies are secured through the courtesy of our Congressman from First District, and having more than we need, my next thought was for the people in whom I am so much interested in Carteret County. Trust same may be of interest.  
 Yours very truly,  
 W. R. WHITE,

## HONEY GIVES A MOST EXCELLENT FLAVOR

Honey May Be Substituted for Sugar in Any Favorite Recipe.

(Prepared by the United States Department of Agriculture.)  
 Cakes made with honey keep soft for months, as does honey icing. Honey is slightly acid and better results are obtained by using baking soda rather than baking powder in recipes which contain it. It may be substituted for sugar in any favorite recipe, replacing cupful for cupful. As a cupful of honey contains, besides the equivalent of a cupful of sugar, one-fourth cupful of water, use that much less liquid than is called for in the original recipe.  
 Here are some honey recipes tested by the bureau of home economics of the United States Department of Agriculture.

**Honey Icing.**  
 1 cupful granulated sugar 1 egg white  
 1/2 cupful water  
 Boll together the sugar and the water for a few moments and then add the honey, taking precautions to prevent the mixture from boiling over, as it is likely to do. Cook until drops of the syrup keep their form when poured into cold water, or to about 250 degrees Fahrenheit. Beat the whites of the eggs until stiff, and when the syrup has cooled slightly pour over the egg, beating the mixture continuously until it will hold its shape. This frosting is suitable for use between layers of cakes, but is rather too soft for the top. It remains in good condition and soft enough to be spread for many weeks and, therefore, can be made in large quantities for use as needed. After eight months such icing has been found to be in good condition and soft enough to eat.

**Honey Drop Cakes.**  
 1/2 cupfuls honey 1/2 teaspoonful soda  
 1/2 cupful butter 1/2 cupful sugar  
 1/2 teaspoonful cinnamon 1/2 cupful water  
 1/2 teaspoonful cloves 1 cupful raisins, cut in small pieces  
 1 egg 1/2 cupfuls 1/2 teaspoonful salt  
 1 1/2 to 2 cupfuls 1 teaspoonful baking powder  
 Heat the honey and butter until the butter melts. While the mixture is warm add the spices. When cold, add part of the flour, the egg well beaten, the soda dissolved in water, and the

**Butter-Honey Cake.**  
 1 1/2 cupfuls honey 1 1/2 teaspoonfuls soda  
 1/2 cupful butter 1/2 cupful sugar  
 8 egg yolks 1/2 cupfuls flour  
 5 cupfuls flour 1/2 cupfuls orange flour  
 2 level teaspoonfuls ground cinnamon 1/2 cupfuls water (water may be substituted)  
 1/2 teaspoonful salt Whites 3 eggs  
 Rub together the honey and butter, add the unbeaten yolks and beat thoroughly. Add the flour sifted with the cinnamon and the salt, and the soda dissolved in the orange-flour water. Beat the mixture thoroughly and add the well-beaten whites of the eggs. Bake in shallow tins and cover with frosting made as follows:

**Orange Frosting.**  
 Grated rind 1 1/2 tablespoonfuls orange juice  
 1 teaspoonful lemon-juice  
 1 egg yolk  
 Confectioners' sugar  
 Mix all ingredients but the sugar and allow the mixture to stand for an hour. Strain and add confectioners' sugar until the frosting is sufficiently thick to be spread on the cake.

**Soft Honey Cake.**  
 1/2 cupful butter 1/2 teaspoonful cinnamon  
 1/2 cupful honey 1/2 teaspoonful ginger  
 1 egg 1/2 cupful sour milk  
 1/2 cupful flour 1/2 cupful soda  
 1/2 cupful salt  
 Rub the butter and honey together, add the eggs, well beaten, then the sour milk and the flour sifted with the soda and spices. Bake in a shallow pan.

**Honey Cookies.**  
 1/2 cupful honey 1 teaspoonful allspice  
 1/2 cupful sugar 1/2 teaspoonful salt  
 2 1/2 cupfuls flour 1/2 cupfuls finely chopped candied orange peel  
 1/2 teaspoonful soda 1/2 pound walnut meats, finely chopped  
 1 1/2 teaspoonfuls cinnamon  
 1 teaspoonful cloves  
 Sift together the flour, spices and soda and add other ingredients. Knead thoroughly, roll out thin and cut with a biscuit cutter. These cookies are very hard.

**Severe Pains in Side**  
 "I HAD had quite a bad spell and sickness," writes Mrs. Emma Patrick, of Caney, Ky., "and it was an effort for me to go about my home. I had a very severe pain in my left side that almost took my breath at times. I lost my appetite. I grew thin, pale and lifeless. I fell off till I only weighed about 115 pounds. Pain, in certain parts of the body, is a sure indication of female complications. The treatment needed is not the use of narcotic drugs, but—  
 rested better. I kept taking it and my skin and flesh took on a more healthy color. I felt stronger and, as the nervousness left me, the pain in my side was less severe. After taking nine bottles, I eat anything, go anywhere and feel fine. I weigh 16 pounds and am thin, pale and lifeless. I feel that I owe it all to having used Cardui."  
 "Cardui was recommended to me and by the time I had taken one bottle I saw it was what I needed. I ate more and"
