LIVER TROUBLE

Louisiana Man Tells How He Keeps "Up and Going."

"It doesn't matter how strong and healthy we think we are," says Mr. W. S. Reynolds, of Arcadia, La., "every once in a while, in order to keep up and going, we have to cleanse the system and take a little something for the liver."

"My old standby is Black-Draught. I have used it off and on for 20 years."

"I get bilious and have a bad taste in my mouth. My head feels dull. I just don't feel like getting around and doing my work. I know it isn't laziness, but biliousness, so I take a few doses of Black-Draught and, when it acts, I get up feeling like new, full of pep and ready for any kind of work. I can certainly recommend it."

Black-Draught liver medicine is made from pure, medicinal roots and herbs and contains no harmful, habit-forming mineral drugs. In an easy, natural way it helps cleanse the system of poisonous impurities and tends to leave the organs in a normal, healthy condition.

Loaded With Sunshine

COOL COMFORT IS KEYNOTE OF LATE SUMMER STYLES

WHEN August comes leading in the burning sun of late summer, women demand clothes that are cool and comfortable—and that look all of that. In fact, they insist more upon a cool appearance than upon actual cool quality in their apparel, as witness those small, white felt or white kid hats that are popular. Felt hats are not cool, but they are soft and comfortable and light ones look cool—which combination of good points has spelled success for them.

Plain linen is a time-honored fabric that has maintained its place because it looks cool in summer frocks, and because it launders perfectly. But open-work linen looks cool and is cool and a frock of it is presented herewith, as an ideal garment for the hottest weather. The picture shows it to be simple in design, bordered with scalloped pieces of plain linen down the front, each scallop serving to carry a pearl button and simulated buttonhole. A front panel of crepe de chine has a neck-to-hem plaiting at each side of a strip of plain linen down the front, adorned also with small pearl buttons. Plain and openwork linen in any light color, with white linen in bindings and accessories, will develop this frock successfully.

The small hat of silk with sectional crown and narrow turned-up brim, is of the collapsible kind that can be folded or flattened, to put in a suitcase. The last chapter in millinery's summer story deals with the career of this bit of practical and beautiful headwear, which is so accommodating and becoming. It is as light and cool as it is pretty. As to the footwear that supports this hot weather costume, it plays its important role perfectly—white silk stockings, light brown or gray kid pumps—nothing could be more cool and comfortable.

Exercise care in selecting beef cattle for finishing this winter, advise livestock workers at State College. Finished steers command a higher price than do cows or a cheaper grade of cattle, even if they are just as fat.
