Messrs. Lambert Morris, Tom Salters and Alvin Harris of Atlantic spent

Miss Lewis Will Give Canning Demonstration

Miss Dixie Lee Lewis

A meat canning demonstration will be given in the Home Economics Department of the Beaufort Graded School Monday, Feb. 17th, at 10:30 A. M. Miss Dickie Lee Lewis of the Educational Department of Ball Bros. Co., manufacturers of glass jars and pressure cookers, will give the demonstration.

Miss Lewis is a Home Economics graduate of Maryville College, Maryville, Tenn. She introduced the canning of meat by both pressure cooker and water bath methods. She has given much time and thought to the study of meat canning both as a source of better food and as an economic measure to the farm home. She understands the need of the farm family and the problems in canning that the average farm woman must meet.

Through her demonstrations in can-

ning each step is made simple. Women are taught to use the equipment found in their homes for their meat canning, thus eliminating the cost of expensive equipment. Her message of "good faith with the least effort and at lowest cost" appeals to the housewife of today.

All women who are interested in meat canning are cordially invited to attend this demonstration which is being arranged by the Carteret County Federation of Home Demonstration Clubs.—Miss Helen Dry.

Farmers Conference To Be Held In High Point

RALEIGH, Feb. —The program of the State-wide farmers' conference and seed exposition to be held in High Point, February 12 and 13, has been planned to be both educational and entertaining.

National authorities will speak on the present agricultural situation, educational exhibits will be displayed, competitive exhibits of various seeds will be held along with seed judging and crop identification contests.

All these things will be interesting as well as informative, said W. H. Darst, professor of agronomy at State College and director in charge of the conference and exposition.

There will also be a special entertainment Wednesday night known as the "Farming Shindig," he pointed out. Prizes will be awarded the best odd time fiddler, the best individual entertainer, the best group entertainers, the best family singers, and for the best singing game of four or more couples.

Nationally known speakers on Thursday's program include: Dr. C. A. Cobb, director of the AAA cotton division; Dr. C. C. Taylor, assistant chief of the Land Utilization Administration; Dr. Morris L. Cooke, chief of the Rural Electrification Administration; and Dr. H. E. Bennett, chief of the Soil Conservation Service.

Wednesday's program will include addresses by W. H. Darst; Dr. G. K. Middleton, seed specialist at State College; and L. G. Willis, soil chem-

Honor His Memory

Woodcut of Lincoln

Republicans throughout the land will start shooting their guns at Lincoln Day Banquets next Wednesday. W. C. Meekins, chairman N. C. Republican Executive Committee, urges everyone to listen in to speeches by various party leaders on that night.

Selection of the winner will be determined by his production as shown by his record books; by his participation in all club and community activities; by his leadership activities; by the story of his 4-H club experiences and by his high school record.

The four-year scholarship is worth \$320 and the 100 county awards will cover expenses at the annual 4-H club short course, Mr. Harrill said.

The conference and exposition, to be held in connection with the second annual conference of the North Carolina Crop Improvement Association, will be in the Junior High School building, High Point.

Ideal Club Member To Get Scholarship

Raleigh Feb. 25—The outstanding 4-H club member in North Carolina for 1936 will be awarded a four-year scholarship to the North Carolina State College.

In addition, one such club members from each of the 100 counties will be awarded a free trip to the annual 4-H short course to be held at State

College during the summer. "These valuable scholarships have been offered through the State College agricultural extension service by the Chilean Nitrate of Soda Educational Bureau," announces L. R. Harrill, State club leader, who says these awards should do much to promote the objectives of real club work among the farm boys of the State.

Mr. Harrill says the awards were made possible through the interest of A. G. Floyd, former State College student and manager of the Chilean Nitrate Bureau for this State. Any regularly enrolled club boy is eligible to compete but any previous winner may not compete except in the case of county winners who may strive for the state scholarship. Winner of the State award must be eligible and make application for entering college during the fall following making of the award; otherwise the scholarship will be given to the first alternate or revert to the scholarship fund at the College.

Selection of the winner will be determined by his production as shown by his record books; by his participation in all club and community activities; by his leadership activities; by the story of his 4-H club experiences and by his high school record.

The four-year scholarship is worth \$320 and the 100 county awards will cover expenses at the annual 4-H club short course, Mr. Harrill said.

Only FORD OWNERS can look ahead to these Economies

NO Ford car ever built costs less for upkeep than the Ford V-8 for 1936.

But when, after thousands of miles of trouble-free service, you may require a new part, the liberal Ford Exchange Service keeps the maintenance costs at rock bottom.

Ford has made the costly, old-fashioned jobwork engine "overhaul" a thing of the past.

When the time comes for an engine "overhaul," the modern Fordway allows you to exchange

your Ford V-8 engine for one that has been reconditioned at the factory by the same men, machines and methods used to manufacture the original assembly—and there is no extra charge for labor.

This exchange service applies not only to the engine but also to other parts—including \$4 which are not listed here.

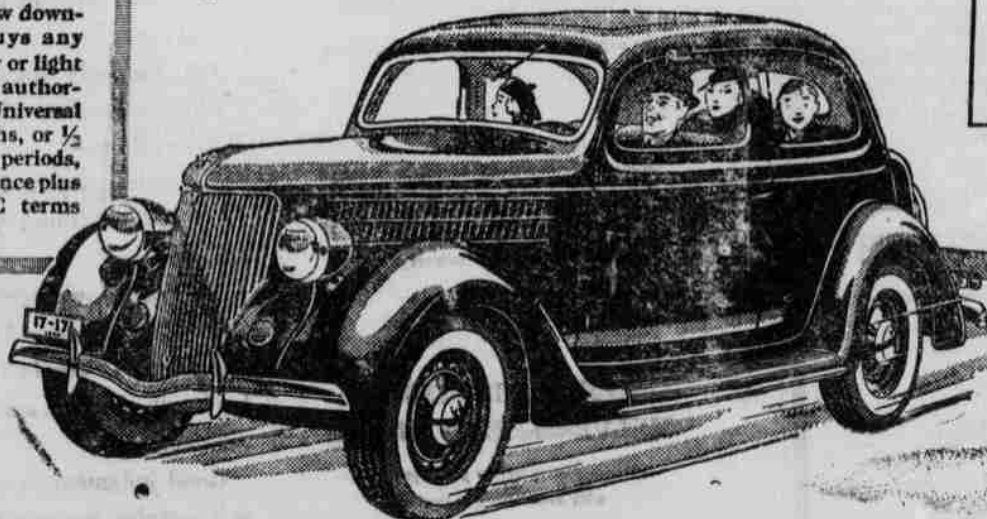

Get the facts from your nearest Ford dealer and learn of this extra economy which only Ford owners enjoy.

FORD PRICES FOR EXCHANGE OF FACTORY RECONDITIONED UNITS	
 Factory Reconditioned V-8 Engine \$56.00	 Ford V-8 Distributor Assembly \$2.00
 Ford V-8 Carburetor Assembly \$1.85	 Ford V-8 Clutch Disc Assembly \$2.75
 Shock Absorber Assembly \$2.25	 Ford V-8 Fuel Pump Assembly \$1.65
	 Ford V-8 Generator Assembly \$4.75

at Nearest Ford Branch

\$25 A MONTH after usual low down-payment, buys any new Ford V-8 passenger car or light commercial unit under new authorized Ford finance plan of Universal Credit Co. 6% for 12 months, or 1/2 of 1% a month for longer periods, figured on total unpaid balance plus insurance. Attractive UCC terms on used cars also.
