Hospital Auxiliary Suggested By Reader
 "Other localities have hospital auxiliaries, why not Beaufort?" writes a reader of this newspaper to its editor. It is a question well worth consideration. There is need for such an organization, and Beaufort does not lack the public spirited people who would help such a cause.

Yesterday was National Hospital Day. And this is a good time to remind the people that they have a hospital in their community. There is little praise sung for the local institution despite the fact that the institution is not a money maker. There are any number of cases admitted where the patient is unable to pay, and no one pays, resulting in a losing business from year to year for its operators. An auxiliary could help remedy that situation. It is true that Potters Emergency Hospital does not accept patients who are unable to pay—but no emergency case is refused admittance. In Potters Emergency Hospital the patient gets careful attention. The nurses there know their business and no finer group of physicians can be found in any small town hospital. Beaufort needs a larger and more adequate hospital—and the Town needs a Hospital Auxiliary.

The Lowest Form Of Sportsmanship

The lowest form of sportsmanship in Carteret has appeared under Beaufort datelines during the past week. Reports reaching Game Warden Leon Thomas last Sunday were that two or more men in automobiles were using the state road through the Open Grounds as a deer stand. The story reaching the Game Warden was that these men had set fire to the Open Grounds, so that the flames would drive the baby fawn from the brush onto the road. Once on the road, the alleged poachers were said to use high powered field glasses to spot the fawns and then a high powered rifle to slaughter the little fellows. That is the most unsportsmanlike activity a poacher could possibly do. It is good news to know that Game Warden Thomas has suspects on his list and that he may round up the alleged poachers of fawns at an early date. The magistrate who lets a fawn poacher off with a light fine should not be a magistrate.

Flower Growing Becomes Big Business
 Flower growing in Carteret county has reached the big business stage. It is hard to estimate how many thousands of dollars will be realized by the small group now engaged in flower farming in this coastal county—but it will amount to many thousands. Already there are daily shipments of various species via American Railway Express from the local railroad station. As the gladiolus start blooming it will not be unusual to see up to two express car-loads of flowers leaving daily. Already at the station even before the flower season is well underway one notices each day many hampers or baskets of flowers awaiting shipment. The bulk of this business, one might say all of this flower growing, is carried on by residents who are not natives to Carteret county. Men from other states have come here and shown the old time farmer that a small acreage devoted to flower culture is a profitable enterprise. Citizens of the county should, when they write their friends in distant towns, cities or states, tell about the flourishing flower industry. Citizens should also write about the famed truck farming area, a million dollar industry in this coastal county usually termed as a seafood center by those who do not live here. Boost your sports fishing, and your commercial fishing, but also boost your truck farming and your flower farming. That will help to further develop our outstanding county of Carteret.

It Is Possible To Get A "Gulf Stream Special"

It is possible to get a "Gulf Stream Special" to operate between New York or Washington and thence to the famed fishing area of the Carteret coast. By a "Gulf Stream Special" we mean Pullman service between the northern cities mentioned and into Morehead City or Beaufort. The Pullman Company would readily agree to install such a service if the prospects were good for operation at a profit. Many of us have friends who live in northern cities who travel to the Carteret coast by rail once or several times each year. It is a hard trip. Leaving New York at 2 o'clock in the afternoon a route frequently used is via Washington to Goldsboro and then change to A and N.C. This schedule places the Pullman traveler in Goldsboro at the ungodly hour of 5 o'clock

in the morning. There is a two hour layover and then two and a half or three hours more by Atlantic and North Carolina day coach. It is not an attractive trip to anyone—yet dozens of people make it every year. Many of those making the trip to the Central Carolina coast are bound for Ocracoke Island and the fine fishing found there. Many others are learning that the fishing is just as good right here in local waters for the same kind of fish. And a few anglers have learned that in the Gulf Stream off Cape Lookout is game fishing that is just as good as that found in Florida, Bimini or anywhere else. The real fishing out there is still to be exploited. There are many anglers of an exploiting nature living in New York and other northern cities who would come here if they knew they could make the trip in comfort. If and when they come it is more than likely they will be coming for Gulf Stream fishing. So why couldn't we tell the world about our Gulf Stream fishing and get the Pullman Company to install sleeper and buffet service direct to Carteret county from the cities of the North. If you have friends who travel from Northern cities to our

Central Carolina coast ask them to demand Pullman service to our section. Such a service would be attractive too, to we who live on this end of the line. Many of us when we go to New York or Washington would prefer boarding a Pullman here at home in preference to traveling a hundred or two miles to board one in some city on the main lines. And when and if the Pullman Company decides to start such a service—let's urge them to call it the Gulf Stream Special in honor of our biggest advertising feature. You know perhaps that we in Carteret are closer to the Gulf Stream than any other mainland area north of southern Florida. Its inner edge at this season is only 20 miles off shore.

STATE OF NORTH CAROLINA DEPARTMENT OF STATE CERTIFICATE OF DISSOLUTION

TO ALL TO WHOM THESE PRESENTS COME—GREETING:
 Whereas, it appears to my satisfaction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all stockholders, deposited in my office, that the BEAUFORT REALTY & INVESTMENT CORPORATION a corporation of this State, whose principal office is situated in the town of Beaufort, coun-

ty of Carteret, State of North Carolina (J. F. Duncan, Incorporator, being the agent therein and in charge thereof, upon whom process may be served), has complied with the requirements of Chapter 22, Consolidated Statutes, entitled "CORPORATIONS," preliminary to the issuing of this Certificate of Dissolution:

NOW THEREFORE, I, Thad Eure, Secretary of State of the State of North Carolina, do hereby certify that the said Corporation did, on the 11th day of May, 1937, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my office as provided by law. IN TESTIMONY WHEREOF, I have hereunto set my hand and af-

fixed my official seal at Raleigh, this 11th day of May, A. D. 1937.
 THAD EURE,
 Secretary of State.
 Filed May 12th 1937 at 2:44 P. M.

It's Our Family's Whiskey, Neighbor

A LITTLE OLD-FASHIONED PLEASURE FOR THE OLD TIMERS . . . Every once in a while, Tim Stiles trots that old talking machine up to our house and gets us to playing it. He'd sit all night listening, if he had his way!

Our Family's Whiskey brings you sweet memories of the good old days!

Of all the folks making whiskey, I don't suppose there's a one that believes in the modern way of doing things more than us Wilkens. I mean to say the modern way of keeping everything just epic and span—and all that. But in other things, like good old Family Recipes, we got a feeling the grand old-fashioned way of doing things can't be beat.
 Our family has been distilling since the year 1886—and this is our own Family's Recipe!

Harry E. Wilken

THE WILKEN FAMILY
