I bet Our Family was making whiskey before Eva was born!

—and this is our own Family's Recipe

Those elephants eating peanuts there mightn't be over thirty or forty years old for all I know. Or like as not they'd be a hundred years or so. I'll bet people living to be as old as elephants would know a whole lot! But the next best thing is to learn from the folks that have gone before you—and that's what we've tried to do in our Family—learn from Pa Wilken all he picked up in his 40 odd

years of distilling, just as he learned from Grandpa Wilken what he knew about making fine whiskey. And this personal Family's Recipe of ours has got everything all of us learned concerning making whiskey mild and tasty. Yes sir—everything!
