New Owners Now Operating R. R.

Local Service Will Be The Same As The A and N. C.

SUNDAY TRAINS ARE COMING HERE AGAIN

The Beaufort-Morehead City R. R. Company took over operation of the 3.17 miles of trackage which gives this town and the back country to the east and north railroad service on Sunday morning August 1. On the same day, Sunday passenger train service which was discontinued some time ago was re-instated.

Claude R. Wheatly one of the stock-holders in the new railroad organization and also a director stated that James Fodrie who has been employed by the Norfolk Southern freight station here for several years would be, for the time being, agent of the local B-M. C. R. R. So far there has been no change in the Express set-up here.

Just what changes will be made in the express set-up is not known. It is known that at certain seasons the express shipments from here are heavy and whether the job at the local station, or whether the agency will be transferred to Morehead City could not be determined.

Mr. Lee Winslow of Williamston was a business visitor here early this week.

Tomato growers of Duplin County have just closed an unsuccessful season. Dry weather during the growing season was given as the cause for the poor crop.

Covering The WATER FRONT

By AYCOCK BROWN

THREE DISTINCT types of scrap metal are being exported from the Morehead City terminal, although to the average person it might all look alike as they see it in the piles around the transient sheds. Best class is No. 1 material which includes boiler plates and steel rails. Most of the No. 1 metal has been shipped to Japan as has also the No. 2 product which includes automobile wheels, chassis parts et cetera. We can all cheerfully assume that the scrap metal going to Japan will be used in construction work and for the making of toys which will be displayed on American chain store counters around Christmas time? Only a pessimist would assume that the metal following its slow trip to the 'land of

IN WASHINGTON
WHAT IS TAKING PLACE BY
Put R. Rumley
UNITED STATES SENATOR

The economic map of the country looks much better than it did a year ago. Improvement has been more rapid in some sections than in others. But the general level of business, industry and agriculture is higher than it was when the Congress convened last January for what has been one of the longest sessions of the last fifteen years.

Evidence of the widespread improvement in our national economic structure is found in the uncertainty surrounding the legislative course to be followed before Congress adjourns. There are many precedents for the present situation. In times of emergency, when there is great

Railroad Directors Have Meeting Today

Directors of the Atlantic and North Carolina Railroad are having their annual meeting on Atlantic Beach today. President H. P. Crowell of the railroad stated this morning that the probable course of business during the day would be election of officers and a new attorney, possible changes in the by-laws and financial reports. A tremendous increase from operation has been noted during the first five months of this year as compared with the first five months of 1936. For several months the 'Old Mullet Line' has been operating in black figures, due to the new business resulting from the establishment of Morehead City Port Terminal.

C. D. Jones Company Has Largest Melon

The largest watermelon brought to Beaufort so far this season was an 85-pounder which was displayed at C. D. Jones Company early this week. The melon season is now at its peak. In Newport Sunday roadside dealers were selling large ones weighing up to 40 pounds at two for 25 cents. Cantaloupes from the same dealer averaging 50-percent ripeness were selling at 25 cents per dozen. The huge melon displayed at C. D. Jones Company was raised on a Russell's Creek farm. The name of the farm owner was not obtained. If any farmer wants publicity through these columns, any large melon reported will be given a write-up.

Carteret Fair Booklet To Be Published Soon; Fair To Begin Oct. 11

The American Legion sponsored Carteret Fair Catalog and Premium list is scheduled to be published at an early date, it was stated today by an official of the corporation. The Premium List is being revised for the fair this year, so that premiums for products of Carteret county will be large enough to encourage exhibitors to save their best for exhibition, it was stated.

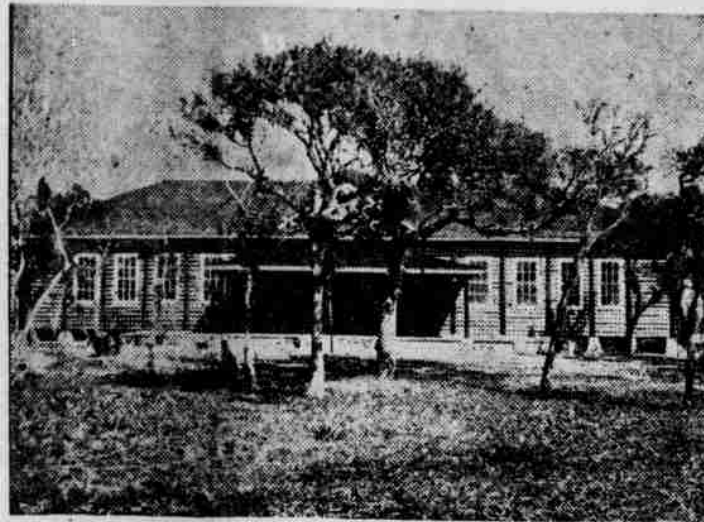

The advertising for this booklet has been placed in the hands of the American Legion Auxiliary and they are now busily engaged in selling space. Mrs. William H. Bailey is in charge of ad sales. It is necessary to sell these ads to finance the publication of the booklet, and advertisers last year found it a good medium. The circulation of the booklet will be 1,500 or more.

Mutiny On The Mari?

When a ship's crew refuses to follow the orders of their skipper on the high seas it is called mutiny. Whether this is true in the case of a vessel moored to a pier while in port is not known, but it is definitely known that the Spanish crew aboard the S. S. Mari of Bilbao, do not favor the idea of sailing under any flag except a Spanish flag, when the ancient vessel clears Morehead City Port Terminal with a cargo of scrap bound for Glasgow, Scotland, sometime in the near or distant future.

The Spanish vessel was sold a few days ago to the Phoenix S. S. Company Ltd., of London. Since the announcement of sale was made there has been talk around the terminal waterfront about the Spanish crew's views on the transaction. Capt. Luis Aquia, master of the vessel, has gone to Washington to see the representatives of his government and get advice, according to reports early today. Mutiny on the high seas was once a crime punishable by death. Whether that holds good in this modern day and in a neutral American port is not known. It is not known even, whether the Spaniards have mutinied yet or not—it is all waterfront gossip.

BEAUFORT COMMUNITY CENTER

Carteret WPA Offices In Above Building

Carteret county WPA business will be conducted from an office located in the left wing of the above Community Center Building in the future. The office was moved from the Courthouse Annex a few days ago. It was necessary that the offices be moved because requirements now for WPA projects are that the local adminis-

trative personnel be located nearest the principal project. Principal WPA projects in Carteret at present are Gulf Stream Golf Club and East Front Street Extension. Carteret WPA officials having offices in the above building are Tom Kelly and Philip Ball. Administrative Annex building.

JACK NEAL WILL SUCCEED RUMLEY

Stated Late Today That He Would Accept Post On Beaufort Board

Jack Neal, prominent young Beaufort business man will succeed Capt. James Rumley as a member of the Town Board of Commissioners. He advised the Beaufort News, just as we were going to press today that he would accept the post made vacant by the resignation of Capt. Rumley who has served for six years, but has resigned, due to the fact that he no longer lives within the corporate limit.

Mayor George W. Huntley stated last night that Jack Neal was the unanimous selection of the present board which is composed of L. C. Davis, Graydon Paul, E. H. Potter, and John White. If Mr. Neal is given the assurance that the Town Board will operate on a business like basis instead of political machine, he will more than likely accept the post. The present set-up of commissioners have definitely stated that they expected to operate on business lines and for the betterment of Beaufort instead of on a political basis. Jack Neal was selected for the post because he has proven that he is a keen business man, the type of citizen who is best suited to fill the post. No other person has been under consideration for the post, left vacant by the resignation of Mr. Rumley.

Opportunity to Give Books and Magazines

Several WPA Reading rooms and library projects are being started in communities of Carteret county at the present time. If you have old books or magazines which you would like to donate for this purpose, same will be called for if Miss Sara Rumley, supervisor of the project is notified. If unable to reach Miss Rumley by telephone, your message, that you have donations of books and magazines to make, will be received and delivered through the Beaufort News office.

"CAST YOUR NET ON THE OTHER SIDE OF THE BOAT"

Being The Views of the Fishermen In The Controversy Over Beam Trawling and Purse Seining

By EARL DAVIS

There has been quite a bit of controversy for the last few days over the subject of beam trawling and purse-seining food fish on the North Carolina coast. There are no people more interested in the outcome of that act of the Conservation Board than are the people of Harkers Island. These folks have lived from fishing since it was settled. They are not able to go into the fishing game in a big way nor more than are the other communities of most of our state. They feel they are aware of part of what is the trouble with fishing as it is done down this way.

Having been told for years past that the way to get representation in the Fisheries Board was to go there in a goodly number, they did so at the meeting just past. They intended no violence and have never done that way about any act of the Board no matter how much it was against them. It is their belief that a lot of people have the wrong idea concerning ocean fishing and those ideas may be the small fishermen's downfall. Beam trawling is a successful method for a few folks but terrible for the small boats.

County Board Adopt Budget

Highlights Of Board Meeting

Chairman will not receive \$600 per annum as set up in tentative budget.

Plan discontinuance of Recorder's Court, if that court fails to make expenses after a reasonable time.

Cleveland Davis tells board what Harkers Islanders are not getting from Welfare Department. Board will investigate.

Motion made awarding Twin City Times the publication of delinquent taxes—two or three weeks after Chairman W. P. Smith had already turned same over to the Morehead City Daily and after they had good part of list set up.

J. O. Anthony, probably a distant descendant of the famous Mark, appointed as permanent County Farm Agent.

Many beer licenses awarded. Several applications turned down chiefly the applications of certain Morehead Bluffers.

Tax Rate For Current Year Will Be \$1.80 If Johnson Okays

SMITH WILL GET NO \$600 YEARLY SALARY

By J. W. STEWART

The County Board of Commissioners met on Monday and Tuesday of this week. The most important event of their meeting was the final adoption of the tentative budget as set up at their last meeting and the setting of the tax rate at \$1.80. Both of these will have to have the official sanction of C. W. Johnson, head of the local government commission. There were a few changes in the budget as set up at the last meeting. The amount of \$600 listed for the salary of the chairman of the county commissioners was stricken out, since the board was informed by the county attorney that the salary of the chairman and the other commissioners was fixed by special statute and thus could not be changed except by an act of the legislature. On this matter only three members made in the allotment for clerical help in the offices of the Register of Deeds and the Clerk of Superior Court, each office being allowed \$85 per month for all clerical help, were in favor of his salary, the other two members were for a lower figure. George Lewis, keeper of the County Home had his salary raised to \$85 a month. The salary of the tax collectors assistant could not be raised as it was set by a special statute.

The commissioners likewise gave notice to the Judge and Solicitor of

Fishing And ALL OUTDOORS

By AYCOCK BROWN

CERO ARE RUNNING in Cape Lookout Bight according to the reports of fishing guides here. Capt. John Dickinson, master of the cruiser "Idle-On" reported that one party he had out this week landed Seven Cero in less than 30 minutes. In his party (they were from Pennsylvania) were two or three youngsters and the Cero they landed were almost as long as their captors. Of course there was considerable difference in the weight. DOWN IN FLORIDA they are called "Kingfish." In some sections they are known as horse mackerel. If trolling near a harbor is your favorite type of angling, Cero are the fish you should seek. They have plenty of fight and when you have landed a 20-pounder you have not

TIDE TABLE

Information as to the tide at Beaufort is given in this column. The figures are approximately correct and based on tables furnished by the U. S. Geodetic Survey. Some allowances must be made for variations in the wind and also with respect to the locality, that is whether near the inlet or at the heads of the estuaries.

Formal Opening Of Red Star On Aug. 9

The Red Star Service station at the corner of Front and Orange Streets will be formally opened on Monday, August 9. This new Service station, featuring Texaco products is under the management of J. O. Barbour, Jr. His operators are Gray Hassell and David Beveridge, two of the most popular young men of Beaufort. On Monday the first 10 customers served will receive complimentary theatre tickets. Each person served on Monday will be eligible for winning one of three prizes offered and mentioned elsewhere in this edition in a quarter page advertisement. If anyone is in doubt about the high class service at this new service station, they should drive up and see how quickly their windshield is given a cleaning.
