Then as a matter of form. not that it makes any material difference, Congress passed a Resolution at 1:04 P. M. acknowledging that a State of War exists between this nation and Italy.

-OUTBREAK OF WAR-

At dawn last Sunday (December 7, 1941) our bases in the Pacific were attacked by the armed forces of Japan. That Empire declared that a State of War existed between Japan and the United States. Pearl Harbor in Hawaii, said to have been one of the strongest fortified military posts in the world, taken by surprise, suffered heavily as result of attack according to first reports. On Monday, December 8, Congress declared War against the Empire of Japan 33 minutes after President Roosevelt's address to Joint See DEC. 7-8 Page 8

The new battle cry of America is "Remember Pearl Harbor" where our country was attacked without warning by Japan last Sunday morning. With our Nation at War with the aggressive Axis Powers, it is our duty to stand ready to serve. In addition to enlisting in military forces, we can help by giving every cooperation to civilian defense, by con-

called upon, and by purchasing U.

Washington, D. C. BRITISH DIPLOMACY

The British barring of Russian Ambassador Litymoff from an airplane en route to the U.S.A. has increased Washington whispers that it is about time the British did something to clean up their moribund diplomatic service and cut out snubs to people who are trying to help them.

It has long been the belief of Americans, too polite to mention it, that the British embassy in Washington can make more mistakes to the square inch even Hull's state department—and many of the state department's mistakes come from trying so ardently to ape the British

For years the British embassy has sat on its hilltop, well removed from the bustle of Washington, and looked with slightly disdainful amusement upon the hoi polloi of congress. An invitation to the Britsh embassy in those good old days was considered by the dowagers as better than an invitation to the White House.

But those good old days, unortunately both for the dowagers d the embassy, are gone, never return. However, the embassy pears completely unaware of that t.
