This the 12th day of February, 1942.

MRS. BLANCHE PIERCE,
Admx. estate of W. A. Pierce, deceased.
F 19-26 M5-12-19-26

Additional Supplies Of Burlap Bagging Are Made Available

Additional supplies of burlap bags for bagging seed potatoes, peanut seed, and wool have been made available for North Carolina farmers by the War Production Board, according to G. Tom Scott, Chairman of the North Carolina USDA War Board.

Chairman Scott said the original orders for burlap bags for peanut seed and seed potatoes was short of needs and that additional amounts have been made available.

Farmers and shippers requiring bags, he said, should contact their normal suppliers of these items.

The amendment to the Burlap Conservation Order M-47, provides that those wishing to obtain burlap bags for the purposes covered in the amendment provide the bag manufacturer with the following form:

"The undersigned hereby certifies to his vendor and to the War Production Board, that the agricultural bags covered by the annexed purchase order are needed for packing and shipping of (insert here wool, seed, potatoes, or peanut seed as the case may be), and that they are needed by him for such use by him or for distribution to others for use by them; that to the best of the undersigned's knowledge and belief, such bags will be so used within the next thirty days after (insert date receipt of the bags is required.) The undersigned further certifies that the amount of agricultural bags covered by the annexed purchase order, together with all such bags, new and or second hand, now being held by the undersigned or now scheduled to be received by the undersigned on or before the delivery date specified in the annexed purchase order, will not be in excess of the amount required by him for use in the said thirty-day period.

Relief At Last For Your Cough
Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

Alertness Pays

Joseph L. Lockard, whose warning, had it been heeded by his superiors, might have saved Pearl Harbor, is shown as he passed through Chicago en route to officers' training school at Camp Monmouth, N. J. It was Lockard who, at a listening device, heard planes on December 7 which proved to be Japs.

Want to be scared? Try today's Guess Again and let these simple seven questions scare the daylight out of you. Place a mark in the space provided and then check for the true answers and your rating.

(1) The Mannerheim line is: (a) a fierce animal; (b) the border between Russia and Bulgaria; (c) Finland's famous line of defense; (d) the famous line on Southern California's football team.

(2) John Charles Thomas is noted for his ability to: (a) combat Fascists; (b) sing; (c) play baseball; (d) write books.

(3) The plane pictured above is known as an (a) amphibian; (b) glider; (c) air pocket; (d) aircrometer.

(4) The 18th amendment to the U. S. Constitution: (a) gave women the right to vote; (b) put a tax on cigarettes; (c) prohibited the sale of intoxicating liquors; (d) freed the slaves.

(5) A gridiron is: (a) a basketball court; (b) a football field; (c) an instrument for ironing clothes; (d) a kitchen utensil used in the making of waffles.

(6) Col. Charles A. Lindbergh flew the Atlantic in the year: (a) 1920; (b) 1927; (c) 1930; (d) 1931.

(7) The second largest city in the United States is: (a) Boston; (b) Los Angeles; (c) Philadelphia; (d) Chicago.

"GUESS AGAIN" Tally Score Here
ANSWERS
1. (c) is worth 10 points. . . .
2. Add 15 for (b). . . .
3. (a) is a gift at 15 points. . . .
4. Take a historical 15 for (c). . . .
5. 20 points for a correct (b). . . .
6. (b) again for 15 more. . . .
7. (d) a snap for 10 points. . . .
RATING: 90-100, another ghost-breaker; 80-90, you're pretty brave; 70-80, a little scared; 60-70, hey! Your hair's standing on end.

Nitrate of soda, used principally as a side dressing, is somewhat short this year, but it is almost certain that at least 50 per cent of the normal supply will be available possibly more.

Merry-go-Round

(Continued from Page 1)

to 62—a tally which left no doubts about who spoke for the "majority."

Note: Two undercover factors were responsible for this vote, which probably did not reflect the general sentiment of the country. One was a tremendous pressure drive by the A. F. of L. and C. I. O. in the district of each congressman. This was particularly effective with Republicans, who, with their eyes on next fall's congressional elections, are very political-minded. Second, was the failure of the farm bloc to support the bill because it feared labor reprisals against the parity and other boodie grabs which the farm bloc is after. The bloc has been counted on to kill the 40-hour week, but the laborites served blunt notice that if the bill was passed, labor would ax the farmers. Result, the farm bloc ran for cover and the bill went into the ashcan.

WHAT THE DOCTOR ORDERED
The other day Harry Hopkins had a visitor in the person of Aubrey Williams, head of the National Youth administration, who has been one of his closest friends for many years.

"Harry," said Williams, looking around the room in the naval hospital, "how many bottles of medicine have you got there?"

"About 18," replied the lend-lease administrator.

"About 18 too many," commented the National Youth administrator. "And how many doctors have you got?"

Hopkins told him. "Well, Harry, what's the use of your fooling around with all these doctors and all this medicine," said his friend. "You know that the more doctors you have the more this whole thing gets on your nerves. Now there's only one doctor who really knew what ailed you, and that's Andy Rivers out at Mayo's in Rochester. Why don't you have Dr. Rivers come East and get you fixed up?"

Harry Hopkins acted on his old friend's advice, sent for Dr. Rivers, and now is out of the hospital.

He says he has forgotten about medicine and doctors, and feels better than he has in months. Furthermore, Dr. Rivers has told him that without any question he can recover entirely.

NEW G.O.P. CHAIRMAN?

It's very shush-shush, but in certain inner Republican circles there have been secret pow-wows on replacing Rep. Joe Martin as national chairman.

The hard-working little Bay Stater wanted to quit last year, but party chiefs decided that the wisest course would be to persuade Martin to stay for the sake of harmony.

Now some of the strongest advocates of his retention are after his scalp. The hostile fire is from two sources.

One is from Mid-West leaders, sour on Martin, (1) for his failure to give them recognition in national headquarters; (2) for his secret financial wooing of Pennsylvania oil millionaire Joseph Pew and Pennsylvania steel millionaire Ernest Weir.

In the farm belt the two big-money contributors are political dynamite and the Mid-West G.O.P. chiefs can't understand why Martin is palling around with them. So they feel the time has come for one of their group to be named either national chairman or executive director.

FRENCH PROBLEM

When you get them out of official earshot, exiled members of the old French cabinet now in Washington, are very suspicious of what the Vichy government is doing in Martinique and Guadeloupe.

Guadeloupe is a less publicized French island near Martinique, and certain coded messages have been intercepted indicating pro-German activities on both islands. Suspicion is strong that Guadeloupe is being used as a submarine refueling base for Nazi submarines operating in the Caribbean.

BROODERS

Home electric brooders tested operation with the U. S. Department by Purdue University in cooperation with the U. S. Department of Agriculture proved highly effective as pig-savers.

FLAXSEED

The Argentine government plans greatly increased domestic crushing of flaxseed to ease somewhat the surplus created by the large 1941-42 crop, the record carry-over and the reduced European market.

ANSWERS
To Timely Farm Questions
Question: What soils are most satisfactory for peanut production?
Answer: Well - drained, fine, sandy, or very fine sandy loams have proven most satisfactory. The heavier soils, such as silts, and clays, or soils high in organic matter are not usually satisfactory. This is due to the mechanical difficulty of digging and to the fact that the heavier soils produce large tops usually associated with the poorly filled nuts.

Question: What is the most economical way of securing more milk from cows?
Answer: Through liberal feeding, says Extension Dairyman John Arey, especially roughage. This includes pasture, hay, and silage. Quality roughage is the cheapest source of feed for dairy cows and should be made the basis of the daily ration. One to two acres of good pasture should be provided for every mature cow. Legume hay being higher in protein than grass hay, is the best milk producing hay.

Question: Can rubber articles be dry cleaned?
Neither rubber nor rubberized articles should ever be dry cleaned.
