NEW YORK THE GREAT-EST EGG-EATING CITY

Millions a Day Brought Into the Market—Iowa the Biggest Egg-Producing State.

When 3,500,000 Iowa eggs arrived in New York one day a week ago a commission merchant of Washington Market became worried. He knew a great deal about eggs, but the fact that 3,500,000 should arrive in one day started him off on a wild spree of figures. He took the figures home with him, dreamed over them for nights and after he had awakened from a dream in which he found himself smothered under a blanket-omlet large enough to cover Manhattan Island he took the subject of eggs seriously.

He talked eggs to his family, his friends and business associates until they advised him to see a doctor. The physician told him to solve the egg problem, which he did. "I was a bit surprised when I found that New York City had received a shipment of 3,500,000 eggs in one day," explained the unfortunate commission merchant. "I wanted to know how many eggs we used in a year, and after a lot of thinking, I calculated that we handle in this city 1,274,000.00 every year. I know that New York is the greatest egg-consuming city in the United States, not because of its size, but New Yorkers have the egg habit. This yearly supply would make a single egg about as high as the Metropolitan tower.

"There was nothing dangerous about my thinking along these lines, until I drifted into the question of hens and the number of eggs laid in the entire United States. Then my troubles started. "I secured official reports, from which I learned that the hens in this country lay 15,523,949,196 eggs every year.

"Nothing dangerous about this until I picked up a case of eggs and found they averaged about two inches long. If I should take those fifteen billion and five hundred odd million eggs and lay them end to end how long a line would they make? That got me to thinking, and it was only a matter of counting to find out that all the eggs laid in the United States if placed end to end would reach 4,923 miles. Why, that would make a line four times from New York City to Jacksonville, Fla.—a regular board walk of eggs, or would go away on to San Francisco and start back to New York again.

"I took the miles of eggs home with me and went to sleep on the liquid amount all these eggs would make. I had a hard time of it and was not satisfied until I found it took eight eggs to make a pint, or sixty-four eggs to a gallon. How many gallons would those eggs make. The answer came—24,265,176 gallons of eggs.

"It was easy enough to learn that a good hen will average 200 a year, so it would require 77,619,745 hen to lay the 15,523,949,196 eggs.

"An average hen weighs about five pounds, so she must lay five times her weight in one year in eggs. If all the hens in the United States were one great hen and that hen were to lay one egg as large as all the eggs laid in one year put together, it would weigh 388,098,725 pounds. I was mad all the way through—madder than a wet hen—when she got on my chest one night and I had a hard time getting her off, and did not until I woke up and found the pillow clutched in my arms.

"But the hen wasn't in it with my dream of the next night, when I discovered that that egg would weigh 1,940,493,623 pounds. Did you ever know of a hen laying an egg five times her own weight? I never did, and when I found that egg rolling down the side of a mountain and I could not get out the way—well I woke up in time to escape being crushed by the egg-shell.

"I went on calculating until I found that an average freight train of forty cars would 2,792,000 eggs—remembering that a car will hold from 350 to 450 cases of eggs. "It would take to haul that train 557 big engines, and if you put the box cars end to end and do not count the engines, you would have a train 25 miles long. "Oh, yes, the doctor tells me I will be all right just as soon as I find out how large an omlet one-half inch thick 15,523,949,196 eggs

TAFT WILL ADDRESS NEW YORK TAR HEELS

New York, Nov. 18.—"A program for the South," will be the general subject of the addresses at the annual dinner of the North Carolina Society of New York at the Hotel Astor, December 7, at which William H. Taft will be the principal speaker.

Announcement to this effect was made tonight by the society, which is arranging for the presence of other speakers of note upon this occasion. Mr. Taft's speech, it is expected, will be of a character to command national attention and of particular interest to the people of the southern states.

The Cotton Outlook.

Wall Street Journal.
By the beginning of November the bulk of the cotton crop is not only picked and ginned, but practically a third of it is sold for the purpose of clearing up outstanding obligations and making purchases for the autumn and winter.

On this account alone the cotton belt has already sold 4,000,000 bales of cotton for which, at the average rate of about \$45 a bale, planters received a gross income of \$180,000,000. The release of so large a fund of quick assets in the payment of debts and for personal expenditures is giving the South, and the industrial and commercial sources from which the South draws its supplies, a stimulus of great value to the country's business.

With the return to the mills of employes laid off during the depression, a new source of demand will come from the trade. Meanwhile the cotton grower has still in reserve the two thirds of his crop, which will probably sell for no less than twice that already disposed of. From the cotton standpoint the outlook is highly encouraging, even though the prices of the raw material are considerably less than they were last year or the year before.

A Comedian's Vagary.

New York Times.
Frank Daniels, the well known comedian, is said to have a most extraordinary fear of death.

If he can possibly back out from attending a funeral he invariably does so. In fact, it is said that he never went to one in his life until his Kirke La Sells, his old-time friend and manager, died, a short time ago.

Then it was absolutely necessary for Daniels to go to the funeral. He did. But he arrived back at his home, in Rye, N. Y., in a state of great agitation and promptly took to his bed.

But as nothing seemed to be the matter with him, he gradually plucked up courage and decided to arise, as usual, the next day. His valet asked him whether he desired to put on the clothes which he had worn the day before.

"What?" exclaimed Daniels, horrified. "Wear those things I had on at the funeral? Never! Throw them away—burn them up! I never want see them again!"

And his previous agitation returned to such an extent that he almost decided not to get up that day at all.

Months Which Record Our President's Births

No man has never yet been elected President of the United States who was born in the month of September. Mr. Taft will be the first chief executive to have September for his birth month. Mr. Bryan was born in March, which gave four Presidents—Madison, Jackson, Tyler, and Cleveland. The birth month of other Presidents were; January, William McKinley; February, Washington, William Henry Harrison, Fillmore and Lincoln; April, Jefferson, Monroe, Buchanan and Grant; July, John Quincy Adams; August, Benjamin Harrison, October, John Adams, Hayes, Arthur and Roosevelt; November, Polk, Taylor, Pierce and Garfield; December, Van Buren and Andrew Johnson.

will make. "My time was not all wasted, for I did learn that Iowa furnishes more eggs than any other State in the Union, with Ohio and Illinois coming second and third, while New York is ninth on the list."

George Washington's Rules of Civility.

It is a misfortune for all American boys in our schools today (writes Own Wister in "The Seven Ages of Washington") that they should be told the untrue and foolish story, of the hatchet and cherry-tree, denied the immense benefit of instruction from George Washington's authentic copybook. As a boy of fourteen, he copied the precepts, and they entered like leaven into that young lump of strength. In later years Washington was entirely aware of the great influence for good exerted upon his character by the "Rules of Civility":—

Be not immodest in urging your friends to discover a secret.
Wear not your clothes foul, unript, or dusty.

Sleep not when others speak. Sit not when others stand. Speak not when you should hold your peace, walk not when others stop.

Superfluous compliments and all affectation of ceremony are to be avoided yet when due they are not to be neglected.

Read no letters, books, or papers in company, but when there is a necessity for the doing of it you must ask leave. Come not near the books or writings of another so as to read them unless desired. Look not nigh when another is writing a letter.

Speak not of doleful things in a time of mirth.
Talk not with meat in your mouth.

Labor to keep alive in your breast that little spark of celestial fire called conscience.

Notes and Notions.

In the nation's homes are smiles
In the farmyards woe and wailing;
Spirits of mankind grow high,
Those of turkey kind are falling;
The one is eager counting joys,
And the other, trouble summing,

For the days are growing short—
And Thanksgiving Day is coming.
Lots to be most thankful for
By the present times are rounded;
Questions why not to rejoice
Are you all sides propounded.

Taft has won the anxious day,
And Prosperity's just humming.
Work is plenty all around,
And Thanksgiving Day is coming!

Neither side in Maryland
Their election bets are paying,
Both the loans are safe and sound,
Past all hope of narrow saying.
Trade the energetic times
Everywhere are busy drumming;
Little hats are to be worn—
And Thanksgiving Day is coming!

It's Sales that Makes a Business Flourish

Advertising creates a demand, but it requires quality to maintain it.

Our Business Has Flourished

through several years. Is not that proof enough to you that you find quality in our goods? Actual merit alone has increased this trade and will continue to do so.

Burke Furniture & Undertaking Co.

HOW A WOMAN IN N. C. STARTED IN BUSINESS WITH ONLY ONE DOLLAR

She is now independent and cares not how bad times are. Can be done by others.

A woman in North Carolina started in business with only 1 dollar and now has an income of more than 200 dollars a week.

One day she saw an advertisement in a monthly story paper "WICKE'S SWISS HERB TEA" stating that it was the BEST REMEDY ON THE MARKET for all Kidney, Liver and Stomach Troubles and while she had been troubled with all these complaints for more than 7 years, she wrote to the Manufacturer for a 22 cent package, which she used careful according to the directions. After one week she found that all her complaints had left her and she told the people, who had known her as a very sick lady, what she had used. All who saw the wonderful change in her condition, asked her to get them a package and she sent one dollar to the Manufacturer of the Tea and asked him to send her as many packages as she could afford for the one dollar.

She got 8 packages which she sold at 25 cents each, which gave a profit of one dollar on her investment, and 25 sample packages, which she distributed to other people and asked them to try this wonderful Herb Tea.

A week later she went to all these people again and asked them if they had tried the Tea and what they thought of it, and to her surprise she got an order for a package from every one of these, they all said "Tea is wonderful." She at once sent for 100 packages and kept on distributing samples and sold them all in a weeks time, and then she sent for 500 packages and now she has 50 other ladies and men working for her, selling "Wicke's Swiss Herb Tea" from house to house, and North Carolina has never been in so healthy condition as she is now; they for a Doctor is only in rare cases or accident. A Druggist offered her the other day \$10,000 for her Agency, but she declined his offer.

Anyone, who has a little push and energy can do as well as she at while there are a few Agencies still open, we advise all who want to build up an independent business, to write to H. FELDSTEIN, 137 Myrtle Ave., Brooklyn, N. Y., and send him a Money Order for one or more dollars to secure the Agency of their town. Write today if you want to build up your own business and be independent.
