What The Kidneys Do.

Their Unceasing Work Keeps us Strong and Healthy.

All the blood in the body passes through the kidney once every three minutes. The kidneys filter the blood. They work night and day. When health they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

J. B. Stubbins, S. Main St., Burlington, N. C., says: "I used Doan's Kidney Pills, procured at the Freeman Drug Co. and the results were so satisfactory that I have no hesitation in recommending the remedy. I know Doan's Kidney Pills to be a reliable remedy for disordered kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Gets Married and Good Job.

Governor Hadley told the other day how he happened to select Henry Andrae for penitentiary warden: "One day Henry and I were out sleigh riding, an old negro driving. We passed the penitentiary and the mansion provided for the warden. I asked Henry if he ever had thought of being warden. He said he didn't know that he had."

"Well, do you think you could fill the bill?" I asked.

"Yes," replied Henry, "I could."

"But," I said, "there is one vital objection to your appointment."

"Henry looked somewhat puzzled and not a little disappointed. I pointed over to the warden's mansion."

"You're not married, Henry?" I reminded him.

"Hol! Is that the objection?" he asked. "Just then the old darkey drove over a rough place and the sleigh turned over. We were dumped out in the snow. I got up sputtering snow, but Henry disregarded the accident altogether. He looked me in the eye and said: 'I'll fix that right away, Governor.'"

"And Andrew did fix it, for the ceremony took place the other day."

How Consumption Can Be Cured.

Authorities of every kind have finally agreed that the outdoor treatment is the only reliable treatment for the Great White Plague. Impure, confined air interferes with the function processes of the lungs. The carbonic acid gas is not properly replaced by oxygen, the great life-giver, which cannot be absorbed in proper quantities. In endeavoring to cultivate the habit of living out of doors, it may be difficult at first to maintain warmth. One will not be benefited when seriously suffering from cold. The body should be kept warm and comfortable, but this does not mean that one should indulge in coddling. One should slowly but surely inure the body to what might ordinarily be regarded as exposure.

When taking the out-door treatment, do not forget the necessity of securing all the oxygen you can through the aid of deep-breathing exercises. If you expand the chest on each occasion as much as you can without pain or discomfort, there is no possible chance of your being harmed. The expansion of the lungs should always begin in the abdominal region and gradually extend up to the chest. When a breath is taken in this manner, the air is carried down to the lower parts of the lungs and gradually, as the chest fills and expands thereafter, all other parts of the lungs are expanded and strengthened.—From June Physical Culture.

The Black Hand.

Philadelphia Record.

A charitably disposed official of the municipal government at Washington tells of an interesting exchange of views between two urchins at a dinner given to the newsboys of the capital by popular subscription.

As the lads were waiting for their desert they placed their grimy hands side by side on the tablecloth.

"Mine is dirtier than yours!" was the claim made by one boy.

"Maby it is," said the second newsboy; "but you don't want'er fergit you're two years older'n me!"

Can't Convict a Woman.

Ohio State Journal.

Mr. Fowler, former collector of the port of New York, speaking of compromising with crime, says it is absolutely necessary in cases of smuggling where woman are accused since it is impossible to convict a woman when the United States it is impossible to convict a woman when the United States is the complainant.

A jury will swear to decide according to the law and the evidence but when it comes to a woman smuggling in silks, dresses, furs and gloves, the law and evidence are scattered to the wild winds. There are two considerations relating to this matter; first, there is a manly little conscience, prevalent among people, that it is not very wicked to smuggle goods into this country. We have even heard men boast of their success in thus trampling upon the law. They speak of it as a joke and describe their sneakery as if it possessed a flavor of virtue.

And when women smuggle, it is regarded as the surest of human rights. It is one of her prerogatives. That is the doctrine of the jury; and so, as Mr. Fowler says, the best way to do is to compromise, for then the government gets its money, and the woman gets punishment, but saves her reputation.

Rich Men's Gifts Are Poor.

beside this: "I want to go out record as saying that I regard Electric Bitters as one of the greatest gifts that God has made to woman, writes Mrs. O. R. Rinevault, of Vestal Center, N. Y., "I can never forget what it done for me." This glorious medicine gives a woman buoyant spirits, vigor of body and jubilant health. It quickly cures Nervousness, Sleeplessness, Melancholy, Headache, Backache, Fainting and Dizzy Spells; soon builds up the weak, ailing and sickly. Try them, 50c. at Freeman Drug Co.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
