 will be upon statute books with hin a
feew days, and this new law, which
will pobably afterwird beome
known as the tarift of 1909, will be be a full redemption of all Republican
pledges notonly made in the platform but by candidates during the cam
paignof last year. Even if the so
called Aldrich bill as amended by the Senate were to be amopded with-
put any changes the new law would show substantial redaction over the
present tariff, but the bill as it will dily be a compromise between the
House bill and the Senate bill, and vell. The tarift question should be
losed in the near future for
years OUR GREENSBORO IETTER.

## over the Dingley law, not only in the number of decreases in rate, but

 in the average rate per cent of dutiescollected. At the same time it must ie understood that the object of at
tariff law is firs to raise revenue and that it is an intended to obtain, if
possible, an increase of revenue
tbrough the new law. This will be gained by increase of duty upon 'ux-
aries and perhaps through increase ties upon other articles. The claim has been made by cer-
tain leaders in Congress as well as many Republican papers, that there
has been no tariff revision down-
ward Such a statement is untrue because even were the Senate amendments adopted the bill would stil
show a material reduction over th present law. There have been de
creases made in somewhat over fou hundred articles while increase largely luxries, A reduction ha

At the close of the sermon on last
Sunday morning in St. Athanasius
Episcopal church the following an
nouncement was made by the Rec-
tor Rev. Edward L. Ogiby.
I take great pleasure in announc-
ing the fact hat a location for the
new Church building hasbeen secur-
ed. The lot fronting on Davis street
known as the White property has
beenn purchased and work has been
begun, that will continue until the
new chureh is completed. This is
an ideal location, being in the cen-
tral part of fhe town on high ground,
fronting on a wide street, the main
thoroughfare East and West and
connecting in the rear with our gres-
ent large and valuable grounds.
I heartily congratulate our con-
gregation on the splendid prospects
before them. The fact that this fine
lot has been secured and work act-
ually begun should arouse every
member of this Parish to take active
part in furthering this much needed
Full opportunity, will be given to each and every individual membe
share in the work as it progresse your willingness by consulting with men and you will find your part t
$\qquad$ present property and grounds before
the whole work is completed-there fore the earnest and hearty co-oper
ation of each and every member i ful conclusion
There 18 no real reason why our
Parish should not take its proper
place among the leaders in the Christian work of this community, excep the failure of its members to rise up
to their duty and take advantage of he great privileges offered them as Kingdom of Goi. -
