The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known. To the medical fraternity, Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials: Address F. J. CHENEY & CO. Sold by all Druggists, 75c. Toledo, O. Take Hall's Family Pills for constipation.

What the kidney Do

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, head aches, nervousness, hot, dry skin, rheumatism, gout, gravel disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

J. B. Stubbins S. Main st. Burlington N. C., "I used Doan's Kidney Pills, procured at the Freeman Drug Co. and the results were so satisfactory that I have no hesitation in recommending the remedy. I know Doan's Kidney Pills to be a reliable remedy for disordered kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The Family Reading Problem.

To find reading that satisfies one's craving for the bright and attractive and is at the same time perfectly suitable for impressionable young people is at times difficult. The best magazines are admittedly published for mature readers only. The Youth's Companion alone is for all the family. While the editors keep in mind the eager desire of the young for tales of action enterprise and adventure these stories in The Companion are so well written as to fascinate men and women in all stages of life's journey. And this is true not only of the fiction in The Companion but of the entire contents. The articles by famous writers convey knowledge that is useful to the wisest and most experienced as well as to the immature. In short The Companion solves the reading problem for the entire family. It is entertaining and it is "worth while."

Every new subscriber will find it of special advantage to send at once the \$1.75 for the new 1910 Volume. Not only does he get the beautiful "Venetian" Calendar for 1910, lithographed in thirteen colors and gold but all the issues of The Companion for the remaining weeks of 1909 from the time the subscription is received.

Some Needed Legislation.

Philadelphia Press. President Taft's demand for legislation regulation corporate action because prosperity bred dangers, and the "ecstasy of great profits" might lead men and corporations to lawless acts, has met the instant protest of financial and commercial journals. They urge that a time of abounding prosperity is no time for new legislation on business.

The people think otherwise. The opinion of the great mass of business men, producers and wage-earners is with president Taft. The expansion which has carried all records of trade and production beyond 1907 is accompanied with rising price for food and the other necessities of life, which cramp the small income and wage. The consumption of iron and steel rises, but not of wheat. Shares are higher, but cotton cloth, which the masses use, is dearer. The importation of diamonds in September beat the record, but the sale of shoes were disappointing. More people are at work than ever before and wages are maintained, but the purchasing power of the money earned is reduced by high prices.

No law can increase the cotton crop which brings dear cotton, but it might regulate Meat Trust prices for hides. Wheat is dear from causes beyond law, but more economical corporate management might make the transportation and distribution of food less costly. If the watering of corporate stock were prevented the fixed charges the producer and consumer pays for might and would be kept lower.
