**Cardinal Gibbons Endorses Tuberculosis Day.**

Cardinal Gibbons, the highest authority of the Roman Catholic Church in America, has expressed his approval of Tuberculosis Day, which is to be observed by the churches of the United States on or about April 30th, and of the general organized anti-tuberculosis campaign, according to a report of an interview made public to-day by the National Association for the Study and Prevention of Tuberculosis.  
The interview was granted by His Eminence to H. Wirt Steele, Executive Secretary of the Maryland Association for the Prevention and Relief of Tuberculosis and Dr. Charles O'Donovan, one of the leading physicians of Baltimore. Mr. Steele and Dr. O'Donovan explained to the Cardinal the object of Tuberculosis Day, namely that it was an effort to secure a simultaneous and systematic presentation of the educational side of the tuberculosis campaign in all the churches of the United States on April 30th or on some other day in the week preceding or the week following that date. The Cardinal expressed his entire sympathy with the plan of the Tuberculosis Day movement, and endorsed the program both of the Maryland Association and of the National Association.  
Following the interview, Cardinal Gibbons also sent a letter to Mr. Steele in which he expressed formally his approval of the anti-tuberculosis campaign as conducted in the United States at the present time. The letter is as follows:  
Baltimore, Feby. 23rd, 1911.  
My Dear Mr. Steele:—  
I have read with keen interest the pamphlets you sent me, which tell of the triumphs already achieved in the warfare against tuberculosis.  
My wonder has been aroused by the simplicity of the arms used in this warfare—namely—rational living and cleanliness—which are within the reach of all.  
I shall follow with special interest all your efforts in this splendid propaganda against the terrible disease, and hope the results of your labor will be commensurate with the zeal, the energy, and self sacrifice which you and your fellow-workers are devoting to the work.  
I can remember well the ravages made by yellow fever in days gone by, but rejoice to see that the medical fraternity have conquered it.  
I trust that you will be equally successful against tuberculosis.  
With best wishes, I am  
Yours faithfully,  
(Signed) J. Card. Gibbons.  
The National Association has prepared an outline for a tuberculosis lecture or sermon especially adapted for clergymen who will speak on Tuberculosis Day, and also other literature will be sent to any clergyman applying for it at the office of the National Association, 105 East 22nd Street, New York City, or at the headquarters of any state or local association in the United States.
