### WASHINGTON LETTER.

From our Regular Correspondent.  
Washington, D. C., June 9.—The friends of reciprocity with Canada it now appears are in the majority in the United States Senate. The Senate Committee on Finance will report the Canadian reciprocity on Tuesday. The bill will contain the Root amendment relating to print paper and wood pulp. Other amendments offered by Senators Nelson and Gallinger relating to the duties on foreign products were voted down. In the committee a motion to report the bill favorably was voted down, also a motion to report it adversely failed on a tie vote. The bill therefore will go to the Senate without recommendation. It is the expectation of friends of the reciprocity bill that the Root amendment will be defeated in full Senate. A canvass indicates that there is a majority opposed to the Root amendment, and it is expected that after long debate the bill will pass precisely as it passed the House and in due course receive the signature of the President.

Representative Lewis of Maryland this week introduced a bill to merge the express companies of the United States into the postoffice system with the object of reducing the rate over one-half on small parcels and about one-third generally, and to extend the system to the country districts by help of the rural delivery, which he proposes to extend further. Mr. Lewis says, "There are two main reasons why postal express is necessary—first, the express company service does not reach the country and the farms, and second, the contracts of the express companies give them an average rate of three-fourths of a cent per pound on parcels with the railways, while the government is paying the railways 4 cents a pound for carrying mail. In order to get this comparatively cheap transportation rate for the carriage of parcels, I propose that the express companies' contracts with the railways be acquired by condemnation, on the doctrine of the right of eminent domain, and that bonds be issued by the government to raise the necessary funds." Mr. Lewis fully explained his plan in an address in the House. He showed that the charge for carrying express packages in the United States is sixteen times as much as for carrying freight, while the average in other countries is only five times as much. He said that the express companies were making 50 per cent profit on capital actually invested.

Senator Gallinger of New Hampshire will make another effort to have the Rockefeller Foundation of over one hundred millions of dollars incorporated under a government charter, and a bill has been introduced in the Senate by him for that purpose. The incorporators named are John D. Rockefeller, John D. Rockefeller, Jr., F. T. Gates, S. J. Murphy and C. O. Heidt. It will be remembered that about a year ago Mr. Rockefeller made an effort to donate this immense sum for charitable education, and other beneficent purposes, but that there was objection by someone in the Senate that such an immense sum of money might in time be used for purposes subversive to the government. Senator Gallinger is of the opinion that the language of the new bill which reposes in Congress the right to amend the charter at any time will avoid the objections formerly urged. The great sums of money donated by Mr. Rockefeller, Mr. Carnegie and other multi-millionaires marks an epoch in the history of donations. There is nothing in former to compare with them, either in munificence or in intelligent beneficence.

The Democratic wool tariff bill which has been so bitterly opposed by Mr. Bryan, who is in favor of free wool, is now under debate in the House of Representatives. Victor Murdock of Kansas, the famous insurgent, spoke against it on the ground that it afforded protection to the co-called "worsted trust." He especially attacked the 40 per cent duty on wool cloths which the bill contains, urging that it afforded protection to the monopoly that controls the worsted output. "I cannot see how any man here," said Mr. Murdock, "knowing the worsted trust, knowing its gross and cruel brutality in the fabric field, can back it up while it continues to twist its long, strangling fingers around the throat of the American consumer. I cannot see for the life of me, how any man in the American Congress can aid the worsted trust by putting a

tariff on worsted either as a frankly avowed measure of protection, or under the pretense of a tariff for revenue. The worsted trust has so debased the quality of goods that the consumer buys, that clothing manufacturers have been ashamed to pass the fabrics on the wearers.

### Some Hot Weather Philosophy.

Washington Post.  
It is too hot to work or to think, too hot to plan or to eat, too hot to do anything but drink cooling drinks. What of it? There is a time for all things. Of the wise and good man it was said that to him every season was summer. There has been brought to us the spirit of the east, with its restfulness, its quiet meditation, its swooning languor, its eternal patience. Were those people created inherently different from us? By no means. They are what the climate and the weather have made them. Doubtless they, too, had a thousand hot weather "don'ts" to consider, but they have discarded all. There are but two worthy of being cherished; one is to forget to remember—the other is to remember to forget.  
Hot weather is a good thing, if you only think so, or, better still, if you don't think at all. It breaks the chains of feverish enterprise and sets one free to do nothing. You get inside the spell of Nirvana. You sense the yearning of the Buddhist aspiration to slip as the dewdrop into the shining sea, and have a sympathetic leaning toward the Aigio-Indian who told how, in the land of rice and temples, one gets so he merely twiddles his fingers, and then goes blissfully on until he finally arrives at the perfect state of contemplative beatitude where he forgets to twiddle his fingers! A little more mint, John, in the next one, please.

### With the City Fathers.

At the regular monthly meeting of the Board of Aldermen held June 5th. at the City Hall the regular routine of business was transacted after which the completion of the election of officers came before the board.  
B. M. Walker was elected fire inspector; John King Street Commissioner and with a vote of three to five J. L. Patillo re-elected Chief of Police. Mr. G. L. Amick being his opposer. Applications were scarce for the Chief of Police only fourteen having applied. After the election of Police the resignation of Mr. Jas Zachary night policeman was handed the board stating in a few remarks he and Chief Patillo would not serve together. His resignation to take effect July 1. After the transaction of other matters of minor importance among which the colored dance hall was closed, the board adjourned to a call meeting Tuesday night to consider the granting of license for pool room and bowling alley etc. At a late hour the board adjourned.

**HELLO MR. FARMER**

We are agents for the Milwaukee Binder and we have called on you for your order for Binder, Mower, Hay Rake or such things as you may need in the coming harvest. Well Mr. Dealer you may enter my order for the Milwaukee Binder my neighbor has one he has been using for two years and I find tis the simplest machine on the market. And by far the highest machine I ever saw in the field.  
Well what we have to say about the Milwaukee machine is what we know from experience. We do not try to mislead the people telling them we are General Agents and that our machines are like other machines. No we claim to have a machine in a class to itself. We have proved that in two years time. Sold more than the others all put together. The people in this county are intelligent and they are no longer being led by misrepresentation.  
We are Local Agents for the Milwaukee Binder at Burlington, N. C. and we do not have the General Agent of N. C. with us. And we want to inform the public that no one in Burlington has the personal help of the General Agent. This is a false alarm. Neither does the other people have a machine like ours. We are proud our competitors have acknowledged our machine the best machine on the market. We are glad to know they are such nice fellows.  
Only sold forty-six last year every body well pleased and we feel sure every one will sell one for us this year.  
Nothing to do but call phone 72 and we will be glad to give you all the information you may need along this line. We pay the cash for the goods and we have the labor to do the work and will be a pleasure to have you drop in and see to your own satisfaction that we have the goods that will not pull your stock to death in the harvest field. You have plenty time now to get in line and get the goods of honor and high quality. Dont be deceived by hot air and gass bags they will not push the binder in the harvest field. Come along and get the goods that has proved all we claimed and a great deal more. You will be welcome at all times in the Milwaukee Headquarters in Burlington. We want to see you and talk the matter over.

Your friends.
