Public Health Dept. of W. C. T. U.

Edited by MRS. R. L. BOYD, Supt.

The word typhoid means a stupor-like fever. The disease was clearly separated from typhus fever, a disease which resembles it somewhat, in the forties of the last century. This latter disease, typhus fever, is now almost extinct. The cause of typhoid fever is a small germ called the typhoid germ. This germ was discovered by Eberth in 1880. Typhoid fever is one of the most wide spread of the infectious diseases. It occurs in the tropics and in far northern and southern latitudes, at sea-level and in the mountains, in the city and in the country, and practically wherever man may go and local conditions do not prevent the dissemination of the disease. A temperature of 80 to 95 degrees does, by increasing germ growth and more particularly by bringing flies increase the number of cases of typhoid. With the summer come flies and typhoid. Dr. Osler's saying, "Typhoid fever is the best index to the sanitary intelligence of a community," is axiomatic with sanitarians. We lose 35,000 lives every year in the United States from typhoid fever; in addition we have 350,000 others sick on an average of six weeks apiece. Certainly the typhoid problem is a grave concern for our country to grapple with. But what does it mean, not to the country, State or community, but to you, just YOU? We speak now to the man whose bonds of sympathy with the general mass of humanity are so few, so short, and so attenuated that he is con- for himself and family only; his public spirit finds its fullest ex- pression in his unuttered pray- er: "God bless me and my wife, My son John and his wife, — Us four and no more."

And what is the least you can do in the fight? "Knowledge is power," is the power that puts to flight this unseen foe, the typhoid germ, which in six years kills more people than were killed on both sides during the four years of civil war; and which causes the loss of \$350,000,000 to the United States every year. Equip yourself for your part in this fight with the knowledge of how the disease picks off its vic- tims, and how it may be prevent- ed, and then, according to your circumstances use this knowl- edge. A germ, the BACILLUS TYPHOSUS, causes every case of typhoid; and without it no case would ever occur. There are a number of epidemics clearly trace- able to milk, sometimes to water. Remember, that when the fly leaves the places of filth to enter the kitchen or dining room to light on your food he does not wipe his feet. Remember again, that in the open privy—the chief loaf- ing place of the fly between meals—the germs of typhoid fever and other intestinal diseases are deposited. Typhoid fever is a preventable disease. For every case of this disease, for every death from this disease, some one is respon- sible. — (State Board of Health.)

Paint Lick Sick Lady
Paint Lick, Ky.—Mrs. Mary Freeman, of this place, says: "Before I commenced to take Cardui, I suffered so much from womanly trouble, I was so weak that I was down on my back nearly all the time. Cardui has done me more good than any medicine I ever took in my life." You need not be afraid to take Cardui. It is no new experiment. Composed of gentle-acting, herb ingredients, it has been found to safely relieve headache, backache and similar female troubles. Try it for your troubles.

The Dominant Note.
Philadelphia Record.
"The late John G. Carlisle," said a member of the — club, "was very fond of music, and it annoyed him inexpressibly at the opera to see the inattention of the fashionable part of the audi- ence."
"One night I found him sup- ping here and asked him where he'd been."
"I've been to the opera," he replied.
"What did you hear," said I.
"I heard," said Mr. Carlisle, "that the Van Vans are going to get a divorce, young Knicker- bocker-Smith has married a Lon- don barmaid and Mrs. J. W. Hard up is gradually pawning her jewelry."

Of Great Importance to the South.
Knoxville, Tenn., July 5.—The Southern Railway will make an attractive exhibit showing the agricultural, forest, and mineral resources and manufactured products of the Southeast at the Ap- palachian Exposition to be held at Knoxville, September 11 to October 1, 1911. This exhibit will contain handsome displays of cereals, cotton, tobacco, leg- umes, vegetables, and fruits and especial attention will be given to forest products and manufac- tured specimens of woods. The exhibit will show in a compre- hensive way the possibilities and advantages of the Southeastern states and should prove a power- ful advertisement for the section as large numbers of visitors from points outside the Southeast are expected at the exposition. At the same time the exhibit will serve the very useful pur- pose of calling the attention of the people of the South to the great opportunities which exist in their own country. This is a feature which the management of the Southern Railway consid- ers of the highest importance as nothing can have a more power- ful effect in discouraging emi- gration from the South to less favored sections than a thorough knowledge of the South and the many reasons which make this the best section of the country in which to live and prosper.

Terrible Picture of Suffering
Clinton, Ky.—Mrs. M. C. Mc Elroy, in a letter from Clinton, writes: "For six years, I was a sufferer from female troubles. I could not eat, and could not stand on my feet, without suffering great pain. I had lost hope. After using Cardui a week, I began to improve. Now I feel better than in six years." Fifty years of success in actual practice, is positive proof, furnished by those who have used it, that Cardui can always be relied on for re- lieving female weakness and disease. Try Cardui, today, now!

Taft's Increasing Influence.
[Philadelphia Inquirer]
The demagogic style is the most immediately effective, but experience shows and observa- tion attests that the impression which it creates is not enduring. Mr. Bryan spoke to immense crowds wherever he went and what he said was invariably ap- plauded. Yet he was repudiated at the polls. Henry Clay and James Gillespie Blaine were among the most popular men and ablest orators of their day, yet they never attained the presiden- cy, and it needed only a single reverse materially to impair, al- most to destroy, the incompara- ble prestige of Theodore Roose- velt. But President Taft, with his consistent appeal to reason rather than sentiment, is grow- ing in strength every day, and his public utterances command a constantly increasing tribute of in- fluence, admiration and respect. His calm judicial, argumentative addresses not elicit the kind of response by which a different kind of oratory is customarily at- tended, but they satisfy and con- vince the consideration which they invite, and persuasively il- luminate and elucidate the sub- ject which they discuss. He has spoken three times on his president trip, on currency reform, on international arbitra- tion and on Canadian reciprocity, and no one with an open mind can have read his remarks on these several occasions without being impressed with their poise, their pertinence, their dignity and their force. The President is not an emotional speaker, but he is what is better, a lucid and logically convincing one, and there can be no question what- ever that the qualities of leader- ship with which he is endowed are commanding among the Amer- ican people an ever-swelling volume of appreciation.

Stopped Those Pains.
Timberville, Miss.—Miss Ger- trude Gutlin of Timberville writes: "I did not know anything could stop those womanly pains, from which I suffered for two years, until I tried Cardui. I had been troubled with various female ailments, but they were cured in a little while, thanks to Cardui." Cardui is especially adapted for use by ailing women. It relieves headache, backache, dragging feeling, irregularly, nervousness, misery and womanly weakness. It is safe. It is reliable. It does the work. Will you try it? Please do.

A review of the past month will show that there has been no curtailment in the June Bride in- dustry.

Campaign Against Hookworm Disease.
The North Carolina Campaign against hookworm disease is mak- ing steady progress. The num- ber of cases of the disease re- ported as treated by physicians has grown during the past twelve months from 3,250 to 21,000; the number of doctors treating the disease from 183 to 597; and the number of people microscopical- ly examined for it in the State Laboratory of Hygiene from 500 to 23,312. Seven thousand two hundred and seventy-six of the latter number were found to have hookworm infection, and 2543 showed others of the eight intes- tinal parasites. Though some of these were found quite frequen- tly the hookworm infections were found three times as frequently as all the others combined. Thirty-one per cent. of the 23,312 ex- amined showed hookworm in- fection. Of the number exam- ined, 1,000 were State troops, 1,000 were orphans, 1,000 children in the State schools for the blind, deaf and dumb, and the reforma- tory. Nearly 1,000 insanes have been examined. The other 19,000 are largely made up of public school children taken at random.

Spit, Quit, Fit.
Hines, Ala.—In a letter from this place, Mrs. Eula Mae Brad- ley says: "I used to spit up all I ate. I was tired and sleepy all the time. My head ached, and I could hardly drag around. Since taking Cardui, this has entirely quit, and now I feel quite fit." Mrs. Bradley suffered from ner- vous indigestion. Cardui builds up the nervous system, and strengthens the womanly consti- tution. That's why Cardui helped Mrs. Bradley and why it will help you. Try it.

Progressive Counties Take Up the Fight.
The opening this week of three dispensaries and one hospital for the free examination and treat- ment for hookworm disease marks a new development in the campaign against hookworm dis- ease. Even though 21,000 vic- tims of the disease have already been treated it has been found that many sufferers who have the disease fail for one cause or another to seek treatment. As the expulsion of the worms and the cures which follow treatment afford the best means for dispell- ing such apathy, the need of temporary dispensaries for the free examination and treatment of the disease has been great. Having reached the limit of funds available for North Carolina, the Hookworm Commission of the State Board of Health laid the situation before the officials of several counties. Though a large number of the counties asked for the dispensaries offering to pro- vide the financial aid, they begin in only four counties, as only four physicians to direct the coun- ty campaigns are available. The four counties securing the first dispensaries are Robeson, Samp- son, Columbus, and Halifax. It's not so hard to be reasonably sick if you don't have to be nurs- ed by any of your relatives.

ELON COLLEGE
(CO-EDUCATIONAL)
The College of Alamance County.
Preparatory, Music, Art, Expression and Commercial Depart- ments. Four Courses leading to degrees. Special Normal Courses for Teachers, approved and endorsed by County Superintendent Fleming and State Superintendent Joyner. Every Modern Convenience Steam Heat. Electric Lights. Baths Sewerage. Terms moderate from \$132 to \$187 per session of ten months. For Catalogue or other information, ADDRESS, W. A. HARPER, President, Elon College, N. C.

PLANOS,
The sweet-toned lasting kind. Let's talk it over, we handle the kinds that will please you in the years to come—and that saves us trouble to because we guarantee them. What make do you prefer? We can usually furnish it. Cash or easy payments. We tune and repair pianos also, or trade for old ones. Of course you know we sell Organs and Machines also.
Ellis Machine & Music Company.
Burlington, : : : North Carolina.

LAST CALL.

We have spent two weeks soliciting subscriptions for \$20,000.00 of the Guaranteed Stock of the Holt Engine Co. with a result of \$8,000.00 subscribed.

The people of Burlington want new industries, but want the other fellow to do the sowing, with the reaping left to them. The Merchants of Burlington who will receive the largest reward have taken eight shares. Very encouraging indeed to stay and continue the canvass.

Real property has depreciated 40 per cent in selling price. How do you expect Mr. Property owner to regain this loss unless you in- crease the demand by bringing in new citizens.

We will start with about 25 experienced machinists and increase the number with the increase of the demand for the products of the plant. If you will invest with absolute security and assist in reclaiming our town, by taking stock, call on us at once and get all the details.

This is the last song and dance. You can help yourself by keeping us. If this amount is not taken here the plant will be located elsewhere where gifts are freely tendered us.

Very Truly,
Holt Engine Company.,
2nd floor of the First National Bank Building.
