The Republican party will adhere strictly to the lines of conservatism which has always distinguished it from Socialism and anarchy. It will give the people a platform that will be endorsed.

Last time when Bryan and Kern went about over the country and Taft was talking to his few people—he didn't cavort like William did nervous folk thought that Bryan was certainly getting out the crowds. These wondered if he wouldn't be elected, and many people bet on it.

Taft had more than a million votes to spare—and so will the Republican party have this year—provided the people think Grover Cleveland got in a couple of times—but that was an accidental happening, and why all this flapping and crowing and abusing each other that we see in the Democratic camp is more than we can understand.

Put it in your pipe and smoke it—take it from us—the Republican party is the party that will win hands down—no matter which one of the candidates now spoken of is nominated. The republican party has done great things. It has done essentially great things and the Taft administration has been remarkable for many things accomplished.

Who Should Conserve Lent?

"It is for the use of every one in whose breast burns the desire for true manhood or womanhood. It is for every one who recognizes Jesus Christ as the representative of our race, and who is willing to follow His example. Every man is prone to mistakes in life, to errors in thinking that ought to be adjusted, to temptations yielded to that ought to be overcome, to habits—bad habits—that ought to be corrected. How are these results to be accomplished? Will any one reach them by going on in the same old round of occupations, by continuing in the same paths of pleasure, by thinking the same thoughts and doing the same things? Never. We must demand a halt, shake ourselves loose from our surroundings, look carefully about us, search more deeply our hearts, examine with greater scrutiny our lives, "take our bearings," and break each cursed habit that brings us regret or shame, and make a new start. Yes, we must keep Lent, every one of us, or signal a fail in life. The Church may lead the way; but it is the privilege of every man and woman to follow. Lent is not "Church bound"—its aims are as broad as humanity and as world-wide as truth."
