Entered as second-class matter May 20, 1908, at the post office at Burlington, North Carolina, under the Act of Congress of March 3 1879

Wednesday, June 12, 1912.

Some one has truthfully said Colonel Roosevelt is only sore because he isn't running the steam roller.

Within the next two weeks the great battles which are now waging will be practically settled and the National Committeemen will have nominated the Republican nominee at Chicago for the race. On June 25th at Baltimore the Democrats will decide the same sad fate and the contest will have dwindled down to a two handed race taking for granted no one bolts. During this time several candidates will have felt the thorns that cluster around the nomination rose, the juicy plum with its sweetness and lustre will have been practically clinched.

The Burlington High School Magazine No. 3 Volume 1 is fresh from press. It like the other two numbers of the Volume is full of pithy saying, graduating theses, local mentions of former students and shows excellent taste on the part of the Editorial staff in full. The school days of the boy and girl are typically set forth. The best productions of members of the various classes show an endeavor to excel. The entire numbers of the volume are a credit not only to the students but faculty.

We feel proud of such an excellent production gotten out at home by home talent.

If the charge made is true that modern college education is making the American girl mannish, and depriving her of the gentleness and loveableness which makes the influence of womanliness so strong upon life, is demands serious attention. There is nothing in the higher education itself which demands the sacrifice of womanly attributes, and if college girls really think it necessary to imitate their brothers in rough-and-ready manners and in the sacrifice of essential feminine qualities, they are getting a totally erroneous idea of the standard of them, and should be disabused of such false ideas and impressed with the harm such notions are doing to the cause of genuine education and equality of educational opportunities.

It would not matter whether it is going to be Taft, or Roosevelt, or both, if the Democrats could only manage to lose Billy Bryan on the way to Baltimore. Will they be able to do it? Thunderation! Just think of the trouble that would be saved the party and the whole country!

Charlotte Observer.
How wisely the above is spoken. It is generally conceded by all wise heads that Billy Bryan can never be elected President this is conceded by both parties alike. But, in the dim and distant we have a vision that if Billy is not watched and that exceedingly close he will give trouble in the Baltimore convention.

If only Billy could be lost, what a consoling thought. But, this silver tongued orator must be reckoned with and we are not predicting but will not be alarmingly surprised if Billy captures the Baltimore convention and grapples the nomination from the hands of those who have waged the fight. Billy can not be President but he is hard to lose.

Lorimer Looks Pleasant.

Washington, June 5.—The Lorimer case was temporarily put aside in the Senate today while Senator Kern, who is making a two days' speech against Senator Page for a speech on the education bill.

Mr. Lorimer left his seat on the Republican side and crossing the aisle to Senator Kern shook hands with him across Senator Chamberlain's desk.

"I suppose," said Senator Chamberlain, "that you think each of us who is going to vote against you is a devil of a fellow?"

"Not at all," returned Senator Lorimer with a smile. "I don't think so at all."

For five minutes the three members chatted gaily. Lorimer's face wreathed in smiles.

Senator Dixon Shouts Defiance

Chicago June 7—Senator Dixon at the Roosevelt headquarters issued a statement tonight, excoffiating members of the national committee.

"Until the roll was called on the ninth Alabama district," says the statement, "I was not prepared to believe that a majority of the national committee was prepared deliberately to murder the Republican party."

"The convention might as well know the truth. Three minutes before the roll was called on this contest, Senator Murray Crane of Massachusetts walked over to Mr. Stevenson of Colorado, who holds the proxy of Senator Scott of West Virginia, and said to him 'We simply cannot afford to go on record in this case against seating the Roosevelt delegates; the case is so plain the country will not stand for it.'"

"Mr. Stevenson replied: 'We have to do it. Of course there is no justification in fact, but if once we establish a precedent we will have to yield in other cases.'"

"The theft was cold-blooded, premeditated and deliberate. With the record of the roll-call of the ninth Alabama congressional district, I now deliberately charge that a majority of the national committee in violation of their sacred trust as trustees of the Republican party in fear and hatred of Theodore Roosevelt, have entered into an agreement among themselves to unseat all and every Roosevelt delegate regardless of right."

"In his bitterness at being repudiated by the Republican voters Mr. Taft has now determined if possible to wreck the party rather than permit it to win with Colonel Roosevelt as its candidate. But the national committee is not the national convention as will be seen."

The Value of Good Roads.

(From The Mount Airy News)

The great value of living on a good road is illustrated in a striking way by the trouble and expense men put themselves to by building on the roads. Often a man is seen to build far from his cultivated lands that he may be out where he can see the public and in a way keep in touch with the world. The man who lives on a road where many people are passing has great opportunities for keeping informed that the man who lives in an isolated position does not possess. There are many men who would not live on a farm back in a field away from any public highway if you make them a present of the farm.

In the light of these facts it is surprising that men want damages when citizens ask for a change of the roadway on a farm in order to make a better road. The facts are that but very few men do ask for damages. Most men are glad to give the land.

A California man shot a woman because she would not marry him and an Ohio citizen shot one because she did. There is no pleasing some people.

His Bald Head Saved Him

Bath, Me., June 7.—Capt. A. mos Pinkham, whose schooner, the Cora Green, was lost off Seign Sunday night, today arrived home from Boothbay Harbor, where he was taken in the schooner, James Young, which came in collision with his craft. The schooner began to sink so quickly that he lost \$68 in money, a watch and chain and \$75 worth of navigation equipment.

Capt. Pinkham was the last to leave the vessel, jumped overboard as she went down. He grasped a rope and was carried beneath the waves. He came to the surface semi-conscious but the cook of the James Young saw his head in the water through the darkness and caught him as he was sinking.

"Lucky I was baldheaded," said Capt. Pinkham.

Art of keeping Still.

(From The Kansas City Star)

A woman well known for her talkativeness, called upon her family doctor a few days ago and was instructed by the doctor to show her tongue. After waiting a few minutes she exclaimed:

"Well, doctor, why in the world don't you look at my tongue if you want to, instead of writing away like a newspaper editor? How long do you expect I am going to sit here with my mouth wide open?"

"Just one moment more, please," said the doctor. "I only wanted you to keep still long enough for me to write this prescription."
