### A Sick Man

Writes Dr. Hartman About Kidney Disease.

A gentleman writes me: "I was greatly interested in your article describing the Kauffman case of serious disease of the kidneys. The description of his case exactly outlines my condition. I am sure if Peruna cured him as you say, it would cure me also. I am losing flesh rapidly and the doctors say I have every symptom of Bright's disease of the kidneys. If you think I would be benefited by Peruna I will certainly try some as the doctors have practically given me up, the same as they did him."  
In reply I wish to say, first, that I never make any promises as to what Peruna will cure. No physician can make positive statements of that sort. I can say this much, however, if I were in your place I should certainly give Peruna a trial. I know of no other remedy that would be so likely to be of use to you in your present condition as Peruna. Take a tablespoonful before each meal and at bedtime. Continue this for two or three weeks and then if there is anything you wish to ask me further write me and I will give you my letter prompt attention.

If I find that the Peruna is not helping you I will be perfectly frank and tell you so, for I would not have you take Peruna unless it was really helping you. But it has rescued so many cases of kidney disease that I am quite confident you will find it exactly suited to your case.  
Kidney disease begins with catarrh of the kidneys. Peruna is a catarrh remedy. Unless the destruction of the kidneys is already too great Peruna relieves the catarrh and the cause of the kidney disease is removed.  
I shall anxiously await a report of your case. Remember, all letters are sacredly confidential. I never use any one's name or address without his written consent. My correspondence is absolutely private. PERUNA IS FOR SALE AT ALL DRUG STORES.  
SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.

### 11,000 FEDERAL JOBS TO BE DISTRIBUTED AMONG DEMOCRATS

Washington, Nov. 27.—"Want ed: 11,000 good Democrats to fill 11,000 positions on the payroll of Uncle Sam. Apply to Woodrow Wilson, 1600 Pennsylvania avenue, after March 4, next."

President-to-be Wilson probably will not insert this "want ad" in the newspapers, although he might, for there are practically 11,000 federal offices which are filled by appointment of the president. With the shifting of the administration in the White House from Republican to Democratic hands, it is expected, will come a change in practically every one of these places.

If the jobs carry an average salary of \$3000 a year, and that estimate is regarded as conservative, this will involve the distribution of \$33,000,000 of federal pie. President Wilson can reward quite a multitude of hungry party workers in this distribution, but he can also cause a lot of heartburns for those who are not successful in the scramble for the pie.

After President Wilson has made his selections for these 11,000 places he might look over the roll of about 400,000 other employees of Uncle Sam and determine how many of these he desires to replace. Most of this vast army of workers, however, are under the civil service regulations, and to replace them with men of different political faith would probably mean the cutting of some pretty sharp corners and juggling with the law.

Since election day there has been much studying of the federal payrolls to determine just how great will be the shift among officers and employees. The Republicans have been trying to estimate their losses and the Democrats have been figuring how far their hunger for federal pie will be satisfied. Their studies have brought to light a document published less than two years ago, showing the number and status of federal employees. And that

document throws some interesting sidelights on what will happen after March 4 next, when the Democrats take control of the federal administration. According to the figures published at that time, contained in a message from the president to the senate, there are 9846 appointments made by the president by and with the consent of the senate. In addition to those, there are 903 appointments made by the president in which the concurrence of the senate is not necessary. This means appointments by the president to the number of 10,839. In the period that has elapsed since the time of this compilation some changes have, of course, been made.

Many of these appointments carry with them high salaries and much prestige; the majority are postmasters. In the state department there are 441 appointments in which the consent of the senate is necessary and 94 which the president fills without asking the leave of the upper branch of congress. These, of course, are in the main diplomatic and consular places and vary in importance between the ambassador to Great Britain and the consul to an interior town in Africa.

### About Parcel Post.

The Act creating the Parcel Post is briefly as follows, Fourth class mail is extended to include everything not now included in other classes, provided the packages do not weigh more than eleven pounds nor measure more than 72 inches in length and girth combined, and further provided they be not of shape or character to injure other mail or to spoil before delivery in a reasonable time. This is practically the whole bill as to rates. It is easy to regulate the size and weight of parcels but not easy to decide what may be too perishable for each distance or too dangerous to other mail. These questions are puzzling a special commission, which in conference with Senator Bourne the author of the bill, is now trying to settle such details.
