Of extraordinary interest to North Carolinians each year is the annual report of the Registrar of the University of North Carolina setting forth a general statistical survey of the 800 or more students of the institution with reference to the counties that they largely represent the percent of students from the State, occupations of the parents of the students, and the religious affiliations of the students, etc. The total enrollment in all departments for the session of 1912-1913 is 816, only 52 of this number coming from other States and counties. The State of Florida contributes 13 to this list, and far-off Persia sends 2 students to this institution. The remaining 40 from foreign territory hail from scattering districts of the country, embracing a wide scope of territory from the State of New York to the Lone Star State. Relative to the representation from the various counties in this State sending in or more students to the University, are the following: Mecklenburg heads the list with the figures 38; Orange is a close second with 35; Guilford and Wayne counties tie for honors with 33 each; Johnston is next in rank with 27; Forsyth 23; Rowan 22; Wake 26; Robeson and Rockingham tie with 16 each; Durham 15; Alamance and Buncombe tie with 20 each; Beaufort and Davidson tie with 13 each; Iredell, New Hanover and Granville have 14 each; Union 15; Cleveland 11; Wilson 15; Edgecombe 12 and Cumberland 12. There are ten counties in the State unrepresented by any students this year. According to church affiliation the division of the student body is as follows: Methodist, 257; Baptist, 215; Presbyterian, 143; Episcopal 124; Christian 15; Hebrew 12; Lutheran 11; Moravian 8; Quakers 5; German Reformed 5; Disciple 3; Roman Catholic 3; Christian Science 2; Armenian 1; Saints Holiness 1, no church affiliations 9. The distribution according to the occupation or profession of the fathers of the students at the University is as follows: Farming 261, merchandise 166, law 55, medicine and survey 55, manufacturing 38, ministry 32, teaching 23, public service 10, railroad and shipping 18, banking 14, contracting 14, lumber dealing 14, mechanics 13, real estate 13, traveling 13, tobacco 10, book-keeping 7, brokerage 6, engineering 6, insurance 6, livery 6, printing 5, fishing 4, denistry 3, architecture 2, chemistry 1, minning 1, photography 1, and tanning 1.

President Wilson, when the time comes will be obliged to send a special message to Congress reading something like this, "Dear Congress. If you love me, love my Bryan.
