Landmarks of Typewriter Progress Remington (Visible Models 10 and 11)

Such are all the recent developments of the

Among these developments are:
The Built-in Decimal Tabulator—which makes the decimal tabulating mechanism an integral part of the typewriter.
The Tabulator Set Key—which eliminates all hand setting of the tabulator stops.
The Column Selector—which determines, by the stroke of a single key, the exact point on each line where the writing is to begin.
The Adding and Subtracting Remington (Wahl Mechanism)—which combines in one typewriter, and in one operation, the functions of the adding machine and the adding machine.

Every one of these new developments is an evidence of the perpetual leadership of the Remington Typewriter. Illustrated booklet descriptive of all recent Remington improvements, sent on request.

His chief interest probably lies in the proposed penetration of the interior of Brazil with a party of fellow naturalist under auspices of the American museum of natural history, but the earlier part of the six months which he will spend in South America will be devoted to addresses upon American democracy, which has been invited to deliver before universities and other bodies.

A trip into Patagonia to visit an out of the way mission and two crossing of the continent to Santiago de Chile and back to Buenos Ayres will be other features of his journey.

Those who are in the colonels' party include Mrs. Roosevelt and Miss Margaret Roosevelt, who will make the round trip on the Van Dyck; Anthony Fiela, the Polar explorer, who has charge of the expedition's equipment; C. K. Cherry and Leo L. Miller, naturalists of the American museum of natural history; Frank Harper, Colonel Roosevelt's secretary and the Rev. Father John Augustine Zahn, provincial of the order of the Holy Cross, a former field companion of the colonel.

The naturalist will start into the interior shortly after their arrival in Brazil, to be joined by the colonel after he has finished his lectures, which will be in December. It will probably be April before the party returns to civilization.

The steamer Van Dyck on board which Col. Roosevelt and party sailed Saturday for South America carries 300 tons of choice New England and Canadian apples to be sold in Buenos Ayres. Although the colonel could buy the same apples at Broadway fruit stands at five cents or less apiece he will find that the apples will cost him 20 cents in the Argentine capital where select North American apples are highly valued. The apple shipment is carried in the same compartment from which the first shipment of Argentine beef to this country was unloaded here recently.
