The runaway car did not turn over, but the driver was thrown out and slightly injured. His passengers remained in the machine and aside from a severe shake-up were not hurt. A front wheel of the car was crushed. Persons who witnessed the incident consider it almost miraculous that there were no fatal results.

**Monroe Negro Forged Liquor Prescriptions.**

Monroe, Feb. 3.—When the report of the Medical Dispensary was sent in on the first of February, it was ascertained that Dr. H. H. Croft, a negro doctor here, had given an unusual number of prescriptions and when confronted about the matter he began to look over the slips that had drawn whiskey and he found several that were not in his regular writing.

An investigation followed and after getting a few facts together, Chief of Police Laney arrested a negro cement worker here by the name of Eugene Salter, who acknowledges having issued the prescriptions from time to time not only for himself, but for those that were thirsty.

He was arrested and is in jail awaiting a hearing for forgery and obtaining goods under false pretense. Salter has been regarded as an exemplary man of his race and his downfall has created much comment here. The forgery was so complete as to baffle the dispenser.

**AN INCESSANT COUGH.**  
Continued Dropping of Mucus into my Throat.

A severe cough is always a grave symptom. It may not indicate organic disease of the lungs. Even though the cough is a functional disturbance it is of sufficient gravity to demand prompt attention.  
The dropping of mucus from the back part of the nose into the throat indicates nasal catarrh. Sometimes this goes on a long time before the patient pays any attention to it. It is stated on good authority that mucus dropping into the throat in this way is apt to excite catarrh of the stomach. At any rate, the condition ought to be corrected as soon as possible.

Mrs. Beurland, of Frankston, Texas, found after using Parana that not only did the incessant cough disappear, but the dropping of mucus into the throat had also ceased. Read what she says:  
"For twenty-three years I was a constant sufferer from chronic catarrh. I had a severe misery and burning in the top of my head. There was almost a continual dropping of mucus into my throat, which caused frequent sneezing. My entire system gradually became involved, and my condition grew worse. I had an incessant cough and frequent attacks of bilious colic, from which it seemed I could not recover. My bowels also became affected, causing alarming attacks of hemorrhages. I tried many remedies, which gave only temporary relief, or no relief at all. I at last tried Parana, and in three days I was relieved of the nasal catarrh. After using five bottles I was entirely cured."  
I most emphatically recommend the use of Parana to any one similarly afflicted.  
Parana, which is sold in 25-cent bottles, is the only remedy that will cure the
