The children of Burlington are doing the can can just now.

I got 39 cans, how many cans can you get?

TO THE VOTERS OF BURLINGTON

We are told that the school house is the temple which we erect to the God of childhood. The school room is the home of the child during the most important hours of the most important years of its life. The school roof, the school house and the school grounds constitute the best index to the degree of civilization and to the ideals of the community.

As are the school and the school house, so will be the home, the city, the State and the Nation. For every community the motto should be: "For our schools, health, comfort and beauty."

We appeal to you in the name of Him who said, "Suffer little children to come unto me and forbid them not," to go to the polls on election day and cast your ballot for the children of our town—the future citizens of a Bigger, Better Burlington. The voters of Burlington are a God-fearing and a God-serving people, therefore put your christianity to some practical use—in building an up-to-date, sanitary, well heated, well lighted and well ventilated school house, you are using your religion in a practical way.

So, go to the polls on June 8th and cast your vote for the children—the future citizens of Burlington.

Mrs. W. H. CARROLL.

JAPAN HOUSE VOTES FOR MILITARY DEVELOPMENT.

Tokio, Japan, June 1.—The Government's policy of military development was approved by the House today, in an exciting session.

By a vote of 232 to 131 the House adopted the provision for an increase in the standing army of two divisions, or about 24,000 men. It then approved the entire budget, including the naval program, which provides for construction of three submarines and eight torpedo boat destroyers.

Italy will find that war is no "monkey" business.

SEVEN JOYOUS DAYS OF CHAUTAUQUA.

From June 30th to July 6th, will be Chautauqua Week—a week full of series of entertainments and lectures of an even higher quality than previous.

Some of the world's famous short orators will be given. Among many delightful features will be "Song Our Grandmother Sang," given in costumes of the American period of 1850. This music will be under Signor Pasquale Colangelo, the world's famous orchestra. The organization is versatile to a marked degree and the programs offered will be varied and filled with enjoyable surprises.

The Chautauqua is especially favored by having Mrs. Yarnall as its superintendent. She is a woman of brilliant attainments and extensive experiences.

You are to have the privilege of hearing one of the world's greatest preachers, Dr. S. Parkes Cadman, the noted Brooklyn divine, in one of his most famous lectures, "Life in Modern Babylon."

Dr. Cadman is not only a great preacher himself, but he comes from a race of great preachers who have indelibly stamped the ablest of English's clergy. He was born among the Shropshire hills of England, coming to America twenty-six years ago, and now, in his fifty-first year, he is at the height of his powers, possessed of endless physical and mental vigor.

His lectures are vital messages in the truest sense, and his coming to any Chautauqua platform is an event of marked importance, one that is never forgotten by those fortunate enough to sit under the charm of his wonderful oratory and keen logic. This man has often been compared to Henry Ward Beecher, possessing the same remarkable intuitive and practical knowledge of human nature and the same broad sympathy. Undoubtedly those qualities—as was the case with Beecher—have constituted one of the main elements contributing to his marked success in all things he has undertaken.

Dr. Cadman has declined the presidency of several colleges, but is special lecturer at Yale, Amherst, Harvard and many other universities and colleges, and is in constant demand in many parts of the United States for special work.

He has served his age splendidly, and the metropolitan papers and best magazines of the country have paid frequent and deserved tribute to his talents. He is magnetic in personality, thoroughly entertaining at all times, and his lecture alone will be worth the price of a season ticket.

MR. E. M. LONG WITH CITY DRUG COMPANY.

Mr. E. M. Long, who for the past several years was connected with the Hico Milling Co., and previous to that was a successful merchant in the county, has taken an interest in the City Drug Co., and can now be found at that place serving customers in their drug wants. The drug business is a new line to Mr. Long, but he being a versatile citizen is fast adapting himself to his surroundings and now seems as much at home as if he had grown there. With his addition to the business, it is expected that the concern will grow even faster than it has in the past.

Won't you please loan me a can? I need one to get my ticket to the movies.

This is a cut of the proposed graded school building for which you are asked to vote a forty thousand dollar bond issue, its a beauty, but are you willing for the fellow who drew this picture to receive two thousand dollars out of the bond issue for this picture, it is said there are also plans with it, but there are no plans that can be made that will permit such a building as this to be built for the remaining thirty-eight thousand dollars, we would be glad to have the opinion of our own contractors and tax payers upon this proposition.

THE PEARL OF DAYS, ITS PERIL.

(By Rev. D. H. Tuttle.)

The Lord's Day is the Pearl of Days. A Love-line of divinely tendered rest and spiritual recreation running through the Bible from end to end. Have you tasted of its strength giving sweetness? Are you shortening and saddening your life by stealing God's day? Are you putting the Lord's Day in peril by your example? Are you using your legs, your horse, your bicycle, your motorcycle, your automobile to run down Sunday? Are you trying to put God's authority under your feet? Under your wheels? Look out! This law of God like all others is persistent; not easily overthrown, but permanent for all time. God, nature, Bible, thought conscience, and a great national organization stand for it steadily—they will not let up in exhortation and warning.

The Lord's Day has two classes of enemies: The first are open and avowed, and are the lawless and covetous. Those who regard no law of God or men, and those whose greed for money is their main motive for running their business seven days in the week. The second class are those who profess respect for the Lord's Day, yet indifferent and inconsistent in their practical relationship to it. This second class are very largely church members and is by far the most dangerous. If the church membership of the United States was sincerely loyal to God it could save, not only the Lord's Day but any other religious institution that they wished to save. Every professing christian; every good citizen owes it to himself, his posterity, his country and his God to stand by the day given of God to physical rest and spiritual worship. For the people of the world to slow up one day in seven in this time of break-neck speed for pleasure, money and—well nothing, and use that day for nerve-calming, blood-coating, and soul meditation would bring blessings of every kind to every heart and home. Experience, observation and science all teach us that not only the machinery of the human body, but other machinery will last longer by getting one day in seven for

rest and cooling. Who will begin this much needed work for humanity?

Why not at your home? Organize your family into a "Lord's Day rest and working club?" Get your neighbor to organize. Read Isaiah 58: 13, 14, with Luke 6: 1-9.

P. S.—See the Burlington News of this week for a Bible study on this same subject. Will you look forward to next Sunday in the spirit of these words:

Another six days work is done;
Another Sabbath is begun:
Return my soul enjoy the rest.
Improve the day that God has blessed.

O, That our thanks and thought may rise;

As grateful incense to the skies;
And draw from Christ that sweet repose

Which none but he that feels it knows!

This heavenly calm within the breast
Is Christ's pledge of glorious rest
Which for the church of God remains,
The end of cares, the end of pains.

In holy duties let the day,
In holy comforts pass away;
How sweet a Sabbath thus to spend,
In hope of one that ne'er shall end!

NEW ORLEANS JITNEY BUS DRIVERS ARE ARRESTED.

Several Violated New Law Which Require Big Bond.

New Orleans, La., June 1.—Several jitney bus drivers, including one woman were arrested here today for alleged violation of a city ordinance regulating all passenger-carrying vehicles operated on New Orleans streets. It provides that owners shall give an indemnity bond of \$5,000 for each vehicle and went into effect today. An organization of jitney bus owners will contest the law. Each of the 535 cars of the New Orleans Railway and Light Company began operation today under a bond of \$5,000 and the total amount of the company's bond is \$2,675,000.

REVIVAL MEETING IN PROGRESS.

The revival services which began at the Methodist Protestant church last Sunday are in progress this week. Owing to the excessive rains and the unfavorable condition of the streets, the attendance has not been as large as it would have been had there been fair weather.

Rev. A. G. Dixon of High Point, who is assisting the pastor, is giving the people plain, simple and soul-stirring sermons. He is a very able and pleasing speaker, and his manner of presenting the Gospel creates a lasting impression on his hearers.

Two services are being held each day, at 9:30 in the morning and 8:00 in the evening. The meeting will probably continue through all next week. A cordial invitation is extended to the public to attend all the services, and the singers of other churches are especially invited to attend and take part in the song services.

TRYING TO RELEASE AMERICAN GOODS.

London, June 1.—Efforts are being made to settle the case of the American ship Ogeeschee, which was seized when homeward bound from Bremen with a general cargo.

The Judge Procurator of the prize court has informed the American Consul General, Robert P. Skinner, that if the American claimants of various parts of the cargo will present papers, proving that they actually owned the goods before March 8, the British Government will not compel these owners to take legal action to recover their property, but will release the goods without further proceedings.
