### DEATH OF GEO. W. KNOTT.

Mr. George W. Knott died at his home in North Kinston Monday morning at 10:30 o'clock following long illness with cancer of the stomach. He was fifty years old and is survived by his wife and four sons and a daughter. He was a brother to the late Henry Knott.

Mr. Knott came here over fifteen years ago from Oxford, N. C., and engaged in the tobacco business. With his brother he operated the Knott Bros. warehouse, one of the largest in the state. He was known to all the tobacconists, and about every planter in this section. He had a reputation for fair dealing and an excellent disposition.—Kinston Free Press.

### COULD YOU CLOTHE AND FEED TWO ON 5c DAILY?

Atlantic City Woman Avers Husband Cautioned Her Against Profligacy on Nickel.

Atlantic City, Sept. 19.—That five cents a day is not sufficient to clothe and feed herself and daughter was the complaint lodged today by Mrs. Emma Beck, of 1118 Arctic Avenue, against John Beck, her husband.

"Each morning he would place a nickel on the table before he left the house to buy his own breakfast. Don't get extravagant now," would be his caution," declared the woman.

Beck was taken into custody and held to await the action of the Recorder tomorrow.

### TRADE MEN FAVOR COMMISSION TO STUDY U. S. TARIFF RELATIONS.

Foreign Consul Considers Resolution Recommending Forming Body to Investigate its Bearing on Commerce and Various Phases of Exports.

New York, Sept. 2.—Consideration of a resolution recommending the establishment of a commission to study the tariff laws of the United States in its relation to foreign trade and the reception of reports on various phases of export commerce, occupied the attention of the National Trade Council here today. The council decided to hold its next meeting in New Orleans early next year.

Thirty-five members of the council prominent in transportation, manufacturing and banking attended the meeting over which James A. Farrell, president of the United States Steel Corporation and chairman of the council presided.

The resolution concerning the tariff declares it to be the sense of the council that the "highest interests of the United States require that the au-

thority conferred upon the President to negotiate commercial treaties should be exercised as to assure American exports reciprocal and equivalent foreign tariff treatment in return for the valuable market here given for foreign products and to obtain the removal of undue discrimination against the products of the United States."

The council is urged in the resolution to establish a tariff commission to include at least five executive business men and one tariff expert, who may or may not be members of the council, "whose duty it shall be to investigate the report to the council upon the efficiency of the present United States tariff system for the promotion of export trade and its protection from undue discriminations by foreign governments." The merchants' marine committee laid plans before the council for better acquainting the public with the necessity for a larger American merchant marine. To this end, Chairman Farrell announced that a fund of \$1,500 had been created, to be distributed through the council in ten prizes of \$150 each for the best essays upon shipping questions by students of colleges and universities, particularly those in the Middle West.

### CALL EXTRA SESSION OF SENATE.

Washington, Sept. 22.—President Wilson is considering the advisability of calling a special session of the senate within the next month and today he asked Senator Stone for his opinion. The senator told the president that he believed a special session should be called.

It was stated at the white house that the president would reach a decision within a week or ten days. Senator Stone said the president did not indicate what decision he expected to reach. Senator Kern, is said to have communicated with a number of senators to learn their views.

The senate has had a special committee working on the proposed revision of the rules since the last session. If a special session is called pending treaties with Columbia and Nicaragua probably would come up for ratification.

### THEODORE ROOSEVELT A CANDIDATE AS REPUBLICAN.

Friends Prepare to Put Name on Primary Ballot for President in Many States.

Washington, Sept. 19.—Col. Theodore Roosevelt is a candidate for the Republican nomination for President.

While the Colonel is having a busy time hunting up in Canada his lieutenants have perfected arrangements to place his name on the Republican ballots in nearly every state possessing the direct primary system. This information reached Washington today from three sources not friendly to Roosevelt.

The first news came from an organizer who has been scouring the West in the interest of the boomlet of Weeks of Massachusetts. He came directly from Minnesota to Washington and sought a conference with the Burton of Ohio supporters. He says he had found indisputable evidence that Roosevelt's name is to go upon the Republican primary ticket in Minnesota.

Quickly following this a Burton emissary arrived from Montana. In that State Burton has the support of the ablest of the old-time Republicans. They are openly for him. But the Burton man, like the Weeks man, had discovered a movement to place Roosevelt's name on the primary ticket.

The third report arrived in the shape of a letter stating that Roosevelt's name was to go upon the Republican primary ballot in Washington and quoting Senator Wesley L. Jones, of that State, as saying the Colonel would carry the Washington primary.

With these reports came rumors that there is a movement in Indiana in favor of Roosevelt.

In addition to all this Republican headquarters here have received word from New Hampshire to the effect that Roosevelt also is to have a place on the primary ticket in that State.

The significance of all this lies in the fact that Minnesota, Indiana and New Hampshire are the first three States to hold a presidential primary next year.

Carranza seems to be the stumbling block as well as the block head in Mexico.—Anderson Intelligencer.
