

"Ah! That's what I'm looking for, Grandma"

Leave it to "Young Hopeful" to know what not only tickles his palate deliciously but what also satisfies his thirst and refreshes his tired little body. It's Pepsi-Cola. A God-send to the thirsty—old and young. No wonder it has achieved such popularity as a delicious, tempting drink that has a joyful taste in every sip.

THE KEY TO HEALTH

is Pure Blood. Get the blood pure and all the ills that follow from impoverished or tainted blood, such as indigestion, nervous dyspepsia, gastritis, rheumatism, eczema, scrofula, etc., will disappear, leaving the body healthy and the mind clear.

Mrs. Joe Person's Remedy is a real blood "purifier," according to hundreds of testimonials from people who have used it successfully during the last forty years. It puts the blood right, then builds the body back into health and energy.

"For eight or ten years I was subject to severe attacks of eczema. Mrs. Joe Person's Remedy made a perfect cure of me," writes Mrs. J. H. Wilkins, Bessemer City, N. C.

Your druggist should have it. If he hasn't, send us his name and one dollar for a large bottle.

Mrs. Joe Person's Wash should be used in connection with the Remedy for the cure of sores and the relief of inflamed and congested surfaces. It is especially valuable for women, and should always be used for ulcerations.

**EAT SNAILS? YES! WHY NOT?
YOU EAT OYSTERS?**

(The Journal of the American Medical Association.)

In the belief that the American people can be educated to see the true worth of the edible snail, which might be grown with profit in the United States, a Government expert has collected some facts bearing on their use.

Rust believes that in the United States snail farming might, with judicious publicity, and in time, become profitable. Whether or not it is advantageous, from the standpoint of nutrition, to attempt to introduce a new food to the American table is a question of individual preference. Almost every one, Rust writes, who has ever eaten well prepared snails, admits their gastronomic worth, from the points both of nutritive value and of flavor, and there are many States where they could be grown and kept fresh until used, and where they would prove a very welcome addition to the somewhat limited menu of the locality.

In the Mississippi valley, for instance, where conditions for their cultivation are almost ideal, they could be grown at practically no cost (either in money, time or labor), and might be used to a great extent in place of oysters, which they greatly

NOW IS THE TIME!

--To Feed Your Cattle--

When the cold winds blow, and the snow sleet and rain descend, put the feed to your cattle. Feed them the best feed to be had. Be good to your dumb brutes. The cow that feeds the family, and the horse pulls the plow, are the best friends. The Automobile won't go without gasoline. The horse cannot go without food. It's an old say, that money makes the mare go, but this is not true unless you invest that money in feed.

How Will You be Rated?

As every man's credit record is of the utmost importance to him, we wish to give every citizen ample notice that they are being rated—prompt pay, fair pay, slow pay and no pay, according to the way they pay their doctor, dentists, grocer, butcher, baker, coal man, rent man, milk man and every one who extends them credit. As this book is used by all business and professional men of Burlington and vicinity as their guide in extending credit we trust you will find it to your interest to call on anyone to whom you may owe money and pay up. If you can't pay all, pay as much as you can, so they can give you as good a rating as possible.

resemble in flavor when properly prepared. Such a practice would be advantageous for the snail is possibly preferable as an article of human consumption. It is cleaner, feeding daintily, as it does, only on the cleanest of vegetable tissues, while oysters, not being able to move about in search of food, must take what comes to them in the water, are sometimes fattened in water impregnated with bacteria laden sewage, and thus, se-

and other diseases. At any rate, we can be prepared to receive the suggestion of the addition of snails to the American menu without the revulsion of feeling which it awakens in many at present. It is more blessed to give than to receive the things you don't want. Fame demonstrates that even the mantle of greatness may become threadbare.

It came upon the midnight clear,
That glorious song of old,
From angels bending near the earth
To touch their harps of gold;
"Peace to the earth, good-will to men,
From Heaven's all-gracious King,"
The earth in solemn stillness lay
To hear the angels sing.
There seems to be quite a difference between a rare man and one who is simply raw.
