

Baby Hands.

Fondly clasped together,
Round the mother's neck,
What a pretty picture
Baby hands do make!
But baby hands don't always
So innocently appear;
For often full of mischief
Baby fingers are.

For example, see them
At the supper table,
Doing all the mischief
That do they're able.
Smash! there lies a teacup
Shattered on the floor;
Or see milk from the pitcher
Prematurely pour.

Twisting now the handle
Of the rattle box,
Or with it giving pussy
Agonizing knocks;
Jerking mother's earrings,
Pulling father's hair,
Or scratching Johnny's eyes out,
What a roguish pair!

Crack! there goes the mirror!
What won't he next destroy?
Who gave the child the hair brush?
'Tis no baby's toy!
Goodness! did you ever!
There the inkstand goes!
Just as I expected,
Now look at your clothes!

Now perched in the window,
Patting against the pane,
For just in sight is father,
Coming up the lane.
Always making mischief,
Heeding no commands,
Till in baby slumber
Bound are baby hands.

A PROFESSIONAL CONFESSION.

The Unusual Experience of a Prominent Man Made Public.

The following article from the *Democrat and Chronicle*, of Rochester, N. Y., is of so striking a nature, and emanates from so reliable a source, that it is herewith republished entire. In addition to the valuable matter it contains, it will be found exceedingly interesting.

To the Editor of the *Democrat and Chronicle*:
Six: My motives for the publication of the most unusual statements which follow are, first, gratitude for the fact that I have been saved from a most horrible death, and, secondly, a desire to warn all who read this statement against some of the most deceptive influences by which they have ever been surrounded. It is a fact that to-day thousands of people are within a foot of the grave and they do not know it. To tell how I was caught away from just this position and to warn others against nearing it, are my objects in this communication.

On the first day of June 1881, I lay at my residence in this city surrounded by my friends and waiting for my death. Heaven only knows the agony I then endured, for words can never describe it. And yet, if a few years previous, any one had told me that I was to be brought so low, and by so terrible a disease, I should have scoffed at the idea. I had always been uncommonly strong and healthy, had weighed over 200 pounds and hardly knew, in my own experience, what pain or sickness were. Very many people who will read this statement realize at times that they are unusually tired and cannot account for it. They feel dull and indigestible pains in various parts of the body and do not understand it. Or they are exceedingly hungry one day and entirely without appetite the next. This was just the way I felt when the relentless malady which had fastened itself upon me first began. Still I thought it was nothing; that probably I had taken a cold which would soon pass away. Shortly after this I noticed a dull, and at times a neuralgic, pain in my head, but as it would come one day and be gone the next, I paid but little attention to it. However, my stomach was out of order and my food often failed to digest, causing at times great inconvenience. Yet I had no idea, even as a physician, that these things meant anything serious or that a monstrous disease was becoming fixed upon me. Candidly, I thought I was suffering from Malaria and so doctored myself accordingly. But I got no better. I next noticed a peculiar color and odor about the fluids I was passing—also that there were large quantities one day and very little the next, and that a persistent froth and scum appeared upon the surface, and a sediment settled in the bottom. And yet I did not realize my danger, for, indeed, seeing these symptoms continually, I finally became accustomed to them, and my suspicion was wholly disarmed by the fact that I had no pain in the affected organs or in their vicinity. Why I should have been so blind I cannot understand.

There is a terrible future for all physical neglect, and impending danger always brings a person to his senses even though it may then be too late. I realized, at last, my critical condition and aroused myself to overcome it. And, Oh! how hard I tried! I consulted the best medical skill in the land. I visited all the prominent mineral springs in America and traveled from Maine to California. Still I grew worse. No two physicians agreed as to my malady. One said I was troubled with spinal irritation; another, nervous prostration; another, malaria; another, dyspepsia; another, heart disease; another, general debility; another, congestion of the base of the brain; and so on through a long list of common diseases, the symptoms of all of which I really had. In this way several years passed, during all of which time I was steadily growing worse. My condition had really become pitiable. The slight symptoms I at first experienced were developed into terrible and constant disorders—the little twigs of pain had grown to oaks of agony. My weight had been reduced from 207 to 130 pounds. My life was a torture to myself and friends. I could retain no food upon my stomach, and lived wholly by injections. I was a living mass of pain. My pulse was uncontrollable. In my agony I frequently fell upon the floor, convulsively clutched the carpet, and prayed for death. Morphine had little or no effect in denuding the pain. For six days and nights I had the death-promontory hiccoughs constantly. My urine was filled with tubercles and albumen. I was struggling with Bright's Disease of the Kidneys in its last stages.

While suffering thus I received a call from my pastor, Rev. Dr. Foote, rector of St. Paul's church, of this city. I felt that it was our last interview, but in the course of conversation he mentioned a remedy of which I had heard much but had never used. Dr. Foote detailed to me the many remarkable cures which had come under his observation, by means of this remedial physician and a graduate of the schools, I cherished the prejudice both natural and common with all regular practitioners, and derided the idea of any medicine outside the regular channels being the least beneficial. So solicitous, however, was Dr. Foote, that I finally promised that I would waive my prejudices and try the remedy he so highly recommended. I began its use on the first day of June and took it according to directions. At first it sickened me; but this I thought was a good sign for me in my debilitated condition. I continued to take it, the sickening sensation departed and I was able to retain food upon my stomach. In a few days I noticed a decided change for the better, as also did my wife and friends. My hiccoughs ceased and I experienced less pain than formerly. I was so rejoiced at this improved condition that, upon what I had believed but a few days before was my dying bed, I vowed, in the presence of my family and friends, should I recover I would both publicly and privately make known this remedy for the good of humanity, wherever and whenever I had an opportunity. I also determined that I would give a course of lectures in the Corinthian Academy of Music of this city, stating in full the symptoms and almost hopelessness of my disease and the remarkable means by which I have been saved. My improvement was constant from that time, and in less than three months I had gained 93 pounds in flesh, became entirely free from pain, and I believe I owe my life and present condition wholly to Warner's Safe Kidney and Liver Cure; the remedy which I used.

Since my recovery I have thoroughly re-investigated the subject of kidney difficulties and Bright's disease, and the truths developed are astounding. I therefore state, deliberately and as a physician, that I believe that more than one-half the deaths which occur in America are caused by Bright's disease of the kidneys. This may sound like a rash statement, but I am prepared to fully verify it. Bright's disease has no distinctive symptoms of its own (indeed, it often develops without any pain whatever in the kidneys or their vicinity), but has the symptoms of every other known complaint. Hundreds of people die daily, whose burials are authorized by a physician's certificate of "Bright's Disease," "Apoplexy," "Paralysis," "Spinal Complaint," "Rheumatism," "Pain in the Head," and other common complaints. It is really it which is Bright's disease. Few physicians, and even those who know the extent of this disease and its insidious nature. It

steals into the system like a thief, manifests its presence by the commonest symptoms, and fastens itself upon the constitution before the victim is aware. It is nearly as hereditary as consumption, quite as common and fully as fatal. Entire families, inheriting it from their ancestors, have died, and yet none of the number knew or realized the mysterious power which was removing them. Instead of common symptoms it often shows none whatever, but brings death suddenly, and as such is usually supposed to be heart disease. As one who has suffered and knows by bitter experience what he says, I implore every one who reads these words not to neglect the slightest symptoms of Kidney difficulty. Certain agony and possible death will be the sure result of such neglect, and no one can afford to hazard such chances.

I am aware that such an unqualified statement as this, coming from me, known as I am throughout the entire land as a practitioner and lecturer, will arise the surprise and possible animosity of the medical profession and astonish all with whom I am acquainted. But I make the foregoing statements based upon facts which I am prepared to produce and truths which I can substantiate to the letter. The welfare of those who may possibly be sufferers such as I was, is an ample inducement for me to take the step I have, and if I can successfully warn others from the dangerous path in which I once walked, I am willing to endure all professional and personal consequences.

"A flash from the tea-kettle: A lady had in her employ an excellent girl, who had one fault. Her face was always in a smudge. Mrs. — tried to tell her to wash her face without offending her, and at last she resorted to strategy. "Do you know, Bridget," she remarked, in a confidential manner, "it is said if you wash your face every day in hot soapy water it will make you beautiful?" "Will it?" answered the wily Bridget; "sure it's a wonder ye never tried it, ma'am."

AN EXTRAORDINARY CASE.
AUSTIN, TEXAS, February 20, 1881.
To Mr. J. W. Graham, Druggist:
Dear Sir—My case was an acute form of Bronchitis, and was of one and a-half year's duration. I employed the best medical aid possible, but failed rapidly, until the doctors said I would die—that my case was incurable. Thrown upon my own resources, I got a bottle of DR. WM. HALL'S BALM FOR THE LUNGS, and in six hours felt a decided relief. In three days the cough almost disappeared. Now that my chances of life are good for many years, I earnestly recommend the above to every sufferer of throat or lung disease.

MERCHANT'S GARGLING OIL.—We have made special personal inquiry in regard to the merits of this celebrated remedy, and find it a genuine article of rare value. It is by no means a new remedy. The establishment which produces it dates its manufacture as far back as 1833, since which time it has been steadily growing in public favor. The patentees are among the foremost business men of the city of Lockport. They are every way reliable.

From the *Toledo (Ohio) Blade*, July 6, 1871.
MERCHANT'S GARGLING OIL.—This Old standard article, under the admirable management of John Hodge, Esq., has reached an enormous sale. It is an honestly compounded article; it has merit, and now that the best business talent of the country is handling it, there is no reason why it should not double its present usefulness. No family can afford to be without it. For family use, as well as for animals, it is simply indispensable.
