#### Concord Presbyterian Church.

The time for the dedication of that beautiful little Africo-Presbyterian church in Concord has been changed from the 10th to the 16th. The dedica tion services will be had on Saturday the 16th at 11 o'clock, and the many friends in our city and elsewhere will

govern themselves accordingly.

It is expected that many will go to witness the ceremony and it was thought best to have the exercises on Saturday and sacrament on Sabbath morning. Dr. Poore will be present and conduct the ceremony.

#### Some Appointments.

As we have a few readers in the eastern part of the State, and some in the western part interested in the eastern Methodist Conference we give a few of the appointments as read out on the last day. The Presiding Elders are: W. J. Moore, Raleigh Dist; J. B. Small Wilmington Dist; H. C. Phillips, Newbern Dist; E. H. Hill cape Fear Dist M. N. Leevy, Oxford; Z. T. Pearsall, Tarboro; A. W. Allison, Washington; W H. Thurber, Newbern; A. B. Smyer, Beaufort; A. F. Moore, Jones City, Allen Chapel etc.; John Hooper St Luke, Wilmington; E H. Smith, Whitesville. Fleminton etc.; J. H. Mattocks Golds

### appear in full in the Star of Zion. The Wadesboro Fair.

boro. Suppose the appointments will

The colored people's fair comes off at town of wadesboro on Tuesday next. This is the second colored association in the state now exist ing. This is also the second exhibition of this association. It is hoped that the fair will be liberally patronized, espicially by the people of Charlotte. We are glad to know that Concord was well represented last year and that Scotia Seminary contributed nobly of their handy work. It was not expected that the young ladies should go themselves, and we are glad to know they are so much interested as to send in their drawings, penmanship, needle-

### Who Is Cheated.

winston Bepublican.

Alfred Jenkins, living near Stokesburg in Stokes county, N. C., has sold his wife to a man by the name of Noah longed to him and left for Hickory, N. C. Glidewell, the lucky man, is in quiet possession of Jenkin's wife, who seems happy and contented. Jenkins and wife, the father and mother of Martha Jenkins, who had Estes Hairston put in jail for an attempted rape on her. Said Estes Hairston before his trial was taken from the jail by a mob and hanged.

Africa, preached in Wilmington on last Thursday night.

—Joe Ross, the outlaw, was shot and killed on Wednesday night by a ferryman near Fort Mills.

We saw no mud about Wilmington and suppose Will Brown got stuck on one of those sand hills. The train left us.

We don't know which has the prettiest girls, Wilmington, Columbia or Charlotte. We must go around again and see.

The personel of the conference just held in Wilmington is decidedly an improvement upon any we have seen before. Prominent among its handsome men were Elders Sim-

New Process of Iron Making.

A new process of making iron was described by Mr. Vaughan W. Jones before the Manchester (England) Association of Employers, Foremen and Draughtsmen at Mechanica' Institute. The Freemasons of Wilmington set apart a Royal Arch Chapter on Wednesday night, which we learn is the first colored Chapter in the State.

One of the most pleasant features of our trip to Wilmington was the meeting of a lady friend for the first time in about eight years, and she was the first girl we loved, long, long, ago; and she is not married yet, either.

The grand lodge of Masons meetin Fayetteville next Tuesday.

M. W., J. W. Hood will preside, He is the father of Masonry among us in the State.

—Mr. N. W. Harllee lately elected Register of Deeds for Richmond county, presented his bond to the board of county commissioners, and they rafused to accept it, and appointed the late Democratic candidate to the place.

To the Manchester (England) Association of Employers, Foremen and Draughtsmen at Mechanics' Institute. The new process, known as Bull's, says the London Ironmonger, employs no carbon in Furnace, the furnace is worked entrely with gas, delivered into it in a very highly heated state from the produced. Highly-heated air is also introduced in sufficient quantities to burn about 10 per cent. of the gas and maintain the furnace at the high temperature necessary to allow the withdrawal of the iron or steel and ci der in a fluid state. Under this system the gases rising through the ore and flux are carbonic oxide and hydrogen in equal valumes, together with nitrogen derived from the air, which had been blown into the furnace. These gases being the furnace, there is no zone of gasification in the product, but only zones of fusion, reduction and carbonization. The zone of preparation is removed from the furnace by an apparatus, together with nitrogen derived from the air, which had been blown into the furnace. These gases being the furnace by an apparatus, together with nitrogen derived from the air, which had been blown into the furnace. These gases being the furnace by an apparatus, together with nitrogen derived from the air, which had been blown into the furnace. These gases being the furnace by an ap "COCKROACH TEA."

A Medical Preparation for Kidney Dis-

A Philadelphia medical journal has received a communication from a Louisiana physician, asking if there is any virtue in tea made from fat female cockroaches, brandy and sugar. The following formula of a preparation used by old women nurses in the South was also furnished: "One dozen fat female cockroaches, put into a pint of boiling water (after being bruised); let stand a couple of hours, then strain well; add 2 tablespoonfuls of brandy and 3j of crushed sugar; stir till thoroughly dissolved. Two tablespoonfuls every hour."

The Professor of Materia Medica in Jefferson College said last night that he presumed that cockroaches were not entirely unknown in the medical practice in this city, and "cockroach tea" may be used with good effect in certain cases, although, owing to public prejudice against the insect it would not be a popular medicine. The use of the cockroach as a diuretic in certain cases is almost universal in Russia, and is very general now in European medical practice as a cure for Bright's disease. To what extent it may be used in Philadelphia is not known. Physicians would not care to have it known that they prescribe so detested an insect in their practice, and few druggists will acknowledge that they keep it in stock. Its medicinal properties are in many respects the same as those of cantharides, and when prescribed are in the shape of a pill, made with the powder of the dried insect, or the "cockroach" tea of the Southern "grannies." A Record reporter, who visited several of the leading drug stores in the city yesterday and asked whether powdered cockroaches were kept in their stock, was told that they did not sell it, but that a prescription containing the active principle (blattiden) can be easily prepared by drying half a dozen of the animals and powdering them, so as to make a pill, or a solution can, and occasionally is, prepared by soaking fat female roaches in whiskey. The Professor of Meteria Medica in Jefferson College says that the cockroaches, or the active principle, will be in a

### NEW ENTERPRISE.

Buildings to be Erected Near Wilmington for the Manufacture of Fibres, Cotton Seed Oil and Fertilizers.

Wishington Star.

We have known for some weeks, but refrained by request from mentioning withing with the start of capitalists, propose to erect extensive works at Livingston Creek, about twenty miles from Wilmington, on the C. C. Railroad, formerly belonging to Messrs. Cronly & Morris, for the manufacture of fibre from our native fibrous plants—among others the cotton stalk—and for the manufacture of cotton seed oil. As a base of their fertilizers they propose to utilize the large deposits of marl on the property, which have been pronounced so valuable by the present and former chemist of the Department of Agriculture of this State. The fertilizary properties of the marl alone have been pronounced very great by practical judges, among them Dr. J. D. Bellamy, one of our oldest and most successful planters.

The enterprise will be operated by a company which already have a factory in successful operation in Brooklyn, where they now turn out a superior quality of upholsters material, for which there is a large increasing demand. One of the Livingston Creek factories is now in process of crection and the others will soon follow. Orders have been given for the necessary machinery, and skilled superintendents and operatives are expected to arrive at Wilmington soon with the plants.

The company control several valuable patents, which they expect to develop.

# WANTED.

PORTY or fifty acres of good land, adpated to the raising of cotton and corn, including timber, describing house and water The undersigned wishest to purchase the aforesaid in this county (Meclenburg) and will pay a fair price to procure the same by the ensuing year. For particulars apply to Nov. 26.

Nov. 26.
