Do you wonder we celebrate it with the most consecrated voice of song that we can invite, and with doxologies that beat these arches with the billows of sound as the sea amites the basalt at Giant's Causeway! Only the bad disapprove of the resurrection.

A cruel heathen warrior heard Mr. Moffat, the missionary preach about the resurrection, and he said to the missionary: "Will my father rise in the last day?" "Yee," said the missionary. "Will all the dead in battle rise?' said the cruel chieftain." "Yee," said the missionary. "Then," said the warrior, "let me hear no more about the resurrection day. There can be no resurrection, there shall be no resurrection. I have slain thousands in battle. Will they rise?' Ah, there will be more to rise on that day than those want to see whose crimes have never been repented of. But for all others who allowed Christ to be their pardon and their life and their resurrection it will be a day of victory.

The thunders of the last day will be the salvo that greets you into harbor. The lightnings will be only the torches of triumphal procession marching down to escort you home. The burning down to escort y

General Lee's Demijohn.

A short time after the battle of Fred ericksburg the soldiers observed a servant carrying a big demijohn into General Lee's tent. Visions of toddy flitted before the eyes of the General's staff. At twelve o'clock General Lee walked out and with a twinkle in his eyes remarked "Perhaps you gentlemen would like a glass of something?" The verdict was unanimous. Everything was arranged the gentlemen drew near; the cork was drawn and the steward poured out—but termilk.—Atlanta Constitution.

Young Staylate—"Mr. Longcoffin, is this a hint for me to go?"—Siftings.

TREATING THE WRONG DISEASE.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here or there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery.

Mrs. E. F. Morgan, of No. 71 Lexington St., East Boston, Mass., says: "Five years ago I was a dreadful sufferer from uterine troubles, Having exhausted the skill of three physicians, I was completely discouraged, and so weak I could with difficulty cross the room alone. I began taking Dr. Picree's Favorite Prescription and using the local treatment recommended in his 'Common Sense Medical Adviser,' I commenced to improve at once. In three months I was perfectly cured, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them, and enclosing a stampet-enclope for reply. I have received over four hundred letters, I reply, I have described my case and the treatment used, and have earnestly advised them to 'do likewise'. From a great many I have received second letters of thanks. From a great many I have received second letters of thanks. From a great the advice of my physician.
