WAR ON BACHFLORS.

A bill to abolish bachelorhood among State officials will be laid before the German Reachstag shortly. The explanatory and argumentative "motive," such as accompanies all bills before the Parliament in Berlin will be in this case substitutially as follows: "In the interest of un married women the Government i under obligations to take measure for the suppression of the helpflored. especially involved the fact that German women are not admitted to places in the departments which were formerly open to them. The principal of the necessary mer tage law must be that every official of cer tain grades must marry or sacrifica one-fourth of his salary and all his house money. The money indirected by the infliction of these penalties should be made a yousion fund for unmarried daughters of Government officials. An exception to the rule might be made in the cas s of offi cials who have parents or sisters to support. Thus many women who would otherwise temain spinsters would be cared for and their aims in life would be reached, while to many who found no c' ance to marry, a comfortable age would be assured." The agitation in favor of the meas ure is led by a Herr Wagner, and is helped slong by several societies of women in Berlin, Munich, and Frankfort.

# Four women, all told

The first told how much easier it was to wash with Pearline. She saved half her labor, and the work was better done.

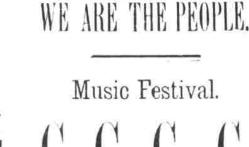

The second told how much longer the clothes lasted, since she'd used Pearline. The rubbing that wore them out wasn't necessary.

The next told how many things she did with it; she washed the kitchen floor, or the finest china-the most delicate lace, or the coarsest fabric. Whatever she did with it, she saved money by it.

The fourth told of the harmlessness of Pearline. She had used it for ten years, and she knew nothing that was

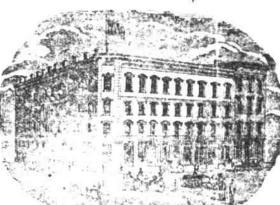

These are only four out of millions who use Pearline, but the others say the same things and more. Try it yourself; then you can tell about it.

Beware seedlers and some unscrapulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—thing in place of Pearline, do the honest thing—and it back. 181 JAMES PYLE, New York.
