SATURDAY, AUG. 23, 1902.

A CURE FOR TYPHOID.

There is no disease, to which human flesh is heir, that is more generally dreaded than typhoid fever and the report that a new and thus far successful treatment has been found by Chicago physicians, will be read with general interest.

The nature of this treatment is given by a writer in the Chicago Chronicle, as follows:

"People who are interested in the subject of typhoid fever—and the designation probably includes most of the urban population—will be glad to know that, according to good medical authority, there is substantial reason to believe that a specific remedy has been discovered for the disease.

"It would be more proper, perhaps, to say that it has been invented, as it is the result of synthetic chemistry directed toward a fixed object.

"Typhoid germs will not live in nascent oxygen. That gas kills them. It has, therefore, been the aim of chemists to devise some combination which will liberate oxygen in the small intestine where the typhoid germs swarm. The difficulty has been that all the compounds hitherto elaborated have given up the oxygen in the stomach, while the seat of the trouble is fifteen feet further down. This fault, it is hoped, has been remedied by the composition of a substance called acetozone.

"According to physicians who have tested the drug—it is not a patent medicine—it reduces the temperature of a typhoid patient from 103 or 104 to 100 or even lower within 12 hours, and shortens the duration of the disease and convalescence from six or seven weeks to half that time, besides rendering the patient comparatively comfortable and free from delirium during the whole period.

"It is said that at the county hospital, where the conditions are by no means favorable, fifty test cases have been treated with acetozone without a single death resulting. The normal typhoid mortality ranges from 8 to 10 per cent.

"Physicians are traditionally slow to endorse any remedy that has not borne the test of a year's employment. Hence they do not yet unreservedly commend the new typhoid specific."

It is of course too soon yet for the remedy to be pronounced an entire success, but further experiments will be watched with interest.

TARIFF, THE REPUBLICANS NEMESIS.

Secretary Shaw, who, by virtue of his position as a member of the Roosevelt administration, is entitled to speak with authority says that any revision of the tariff at this time will be a concession to the Democrats, and that there must be no tariff tinkering at this time. What extremes are we coming to these days, anyway!

Although Secretary Root says that the only way to get at the trusts is to revise the tariff, and Chairman Babcock of the Republican Campaign Committee has admitted that our tariff schedules enabled the trusts to fix exorbitant prices, and even though the Iowa Republicans say that the tariff does afford shelter to monopoly, still, the administration persists in standing by the present tariff, purely on the ground that to revise it would be a concession to the Democrats. Will the American people allow themselves to be held up by the trusts who are entrenched behind the monopoly-sheltering tariff breastworks, every time they buy anything, will they allow American manufacturers to continue to use the tariff to extract higher prices out of them than their foreign price simply to save the Republican party the necessity of making a concession to the Democrats? Perhaps they will, but somehow we cannot insult their intelligence enough to believe that they will.

The Raleigh Post observes that the President has at last struck the blow that will kill father.

He says to the Republicans of the South to cease working for office and go to work for the party.

This paralyzes at least 93 2-3 per cent. of each corpus of the party the only part not injured being nearest and including the feet. Nothing but walking fortunately is left for them to do.

ISSUE THAT WORKS BOTH WAYS.

Every time a Republican tells about the commercial invasion of Europe he is furnishing the best sort of argument why the tariff should be revised. If we can ship our goods to Europe and undersell her there, how in the name of reason can there be any danger of any destructive competition here? Every article almost that is exported to Europe is sold at a good deal lower figure than the same article is sold for here. The Republicans tell us that they are sold at less than cost. Is it possible that they squeeze their own people so hard that they can go into the charity business after they get to Europe? It is either that or else they do not sell at less than cost there. The Republicans are welcome to either horn of the dilemma. If they do not sell for less than cost, why should they charge us so much more for the same article?

The Durham Sun perpetrates this: "One of our subscribers who presumes that editors know everything writes to ask: 'Why don't the man in the moon marry?' Because he makes only four quarters a month and can't afford it."

Is this the Sun's own scintillating flash or is it reversing the order of nature and shining by reflected light?

CURRENT COMMENT.

Of course it is annoying to have at our doors a city of refuge for thieves, in which, once entering, they can snap their fingers at American law. But if Canada, for the sake of getting a percentage of the booty, chooses to be that city of refuge, she is within her legal rights. Still, self-respect is worth having, even as a colonial possession.—New York Journal.

The Birmingham district feels a sympathy with the striking miners up North and helps to support them, but really it is business for us to have that strike keep on; yet we are better than "business," and regret its long continuance.—Birmingham Ledger.

We regret that the "leading counsel for the United States" in the Greene-Gaynor case allows himself to "denounce" the judge who decided against him on a point of law. The smallest counsel can do that.—Jacksonville Times-Union.

Ten thousand men are expected to lose their places in consequence of the new Harvester Machine Combine. Yet the trusts insist that they are friends of labor and help to keep up wages.—Louisville Courier-Journal.

A St. Louis belle summering among the Northern lakes acquired much fame by capturing a 10-pound pickerel with rod and reel. St. Louis belles, however, are usually out for bigger fish than that.—Dallas News.

Chancellor Andrews must think young men have a lot of nerve when he asks them to plunge into matrimony while meat and provisions are at the present prices.—Chicago News.

The Kansas corn crop does not hobnob much with foreign potentates, but it is worth more to the country than a thousand J. Pierpont Morgans. Detroit Free Press.

Alfred Austin is lecturing on philosophy. If he will stick to that and only "drop into poetry" when he simply can't help it, he may escape lynching yet.—Augusta Chronicle.

King Edward seems now entirely free of the danger of a relapse unless he should have to suffer another attack of coronation poem.—New York Press.

It would be sad to lose the Sphinx when there are so many specimens of modern sculpture which would be gladly spared.—Washington Evening Star.

When people will insist on running their automobiles at the rate of 60 miles an hour, it is time they were getting killed.—Memphis Commercial Appeal.

Cuba seems to be starting out with the idea that to be a big nation she must have a big bonded indebtedness.—Columbus Enquirer-Sun.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligation made by their firm.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price, 75c. per bottle. Sold by all druggists. Testimonials free. Hall's Family Pills are the best.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get this reliable remedy at Fitzsimons Drug Co.'s.

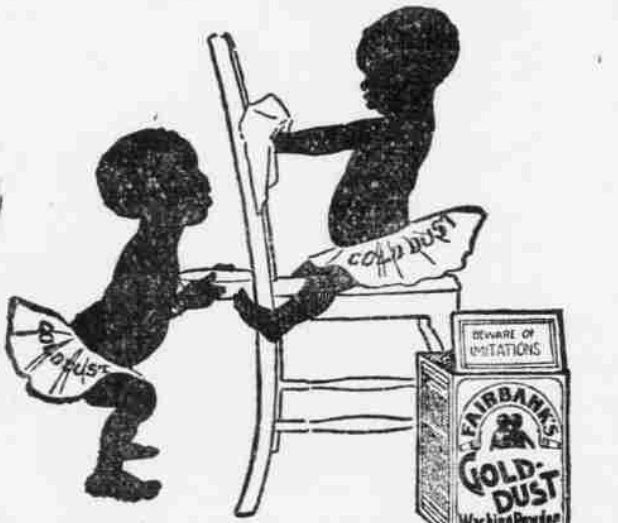

Reciprocity.

Farmer Hayfield—"Look a-her, deakin; you hadn't ought to hev prodded my dog with that pitchfork. Why didn't ye take tother end fust?"

Deacon Whetstone—"Why didn't yer dumb dog come at me tother end fust?"

—September Woman's Home Companion.
