WEDNESDAY, AUGUST 27.

A ONE-SIDED VIEW. The Monroe Journal condemns Robert Louis Stevenson's "Dr. Jekyll and Mr. Hyde" because a Vermont criminal ascribed his downfall to the impressions the book made upon him. The Journal's contention is all right so far as it goes but it fails to take cognizance of any other view of the question. If "Dr. Jekyll and Mr. Hyde" is to be excluded from our libraries, what's to be done with Robert Knott, the eminent Scotch lecturer, who takes the story as the basis for his most justly celebrated lecture—a lecture that must bring out the good in every man, if there is any good in him. And, again, what of the numerous pulpit deliverances based upon the same book. The Journal is wrong; all wrong. If the Vermont person had drawn from the story the moral the author intended to convey, and carried it into his daily life, he would not now be behind prison bars. The trouble with the Vermonter, was not that Stevenson's famous story led him to commit crime; the criminal propensity was born in him

EXAMPLE FOR BUSINESS MEN.

never heard of "Dr. Jekyll and Mr.

According to the financial report of gestion, the Charleston Exposition, \$49,479 was spent for advertising. Commenting upon the fact the Columbia State says: "We have never known an exposition so poorly advertised except by newspapers which gave their services to the work without seeking compensation."

This leads the Asheville Citizen to observe: "And, The State might very truly have added, this failure to properly advertise was, more than anything else, the cause of the poor attendance upon the exposition and its consequent financial failure."

News took occasion to remark that the them. If a woman will risk her health financial failure of the big show was to get a coveted gem, then let her due, almost entirely, to the fact that it was insufficiently advertised, and this opinion was vouchsafed long be- of Dr. Boschee's German Syrup. It fore any figures were obtainable. It is some satisfaction to learn that that opinion is borne out by the facts and the dread disease from the system.

Many business men may draw a profitable lesson from this shining exam-

A LESSON FROM DEFEAT.

From the defeat of Governor Johnston at the recent primaries in Alabama, the Raleigh News and Observer draws an instructive and interesting lesson. It says:

As between Johnston and Jelks, the every way better qualified. But he made a fatal mistake when he threw himself against the amendment that cut off the negro, vote. He said he was in favor of getting rid of the negro vote in some other way, but the people decided to take no chances. The victory of Jelks is not a personal victory for him or a personal defeat for Johnston. It is an emphatic declaration that no man who stands against honestly suppressing the ignorant negro vote can hope for success in any Southern State.

That lesson has not been learned by some would-be leaders in North Carolina. Perhaps they will learn it after a second defeat this year.

The Republicans of Mecklenburg are the first to bring the impeachment question into politics, says the Raleigh News and Observer. They denounced and condemned "The action of those members of the last Legislature, who, high-handed and unwarranted, attempted to impeach our Chief Justice and Associate Justice of the Supreme Court."

The best thing the friends of Mr. T. H. Hill can do is to advise him to withdraw his announcement regarding his candidacy for the Chief Justiceship and re-ally himself with the party. The second and last fiasco, called to endorse Mr. Hill was as conspicuous a farce as the first-except there were seven persons present on Tuesday and only six at the previous "meeting." And there wasn' a Democrat in the crowd.

In the death of Judge David Schenck the State has lost one of its most gifted and loyal sons. He leaves to perpetuate his memory, not only an honored and esteemed name, but a lasting monument in historic Guilford battleground, the preservation of which was due in great measure to his individual AT ARLINGTON CHURCH.

Picnic and Educational Rally to be held Saturday.

There will be a basket picnic and educational rally at Arlington church, in Clear Creek township, Saturday. Speeches will be made by Revs. J. Q. Adams and L. R. Pruett and Mr. W. C. C. A. MATTHEWS City Editor. Dowd. A good crowd is expected to attend. Prof. R. J. Cochran, superintendent of education for the county, expects to be present.

The educational rallies in Mecklenburg for the past three weeks have all been well attended and the one to be held in Clear Creek Saturday will prove no exception. There is an exceedingly lively interest being taken in all educational matters in Mecklenburg. The people are thoroughly aroused to the needs of more and better schools and those who speak along this line are, at all times, accorded an attentive hear-

Give the Workingmen Holiday.

Editor News: It strikes me that it would be an excellent idea for the mills and manufacturing establishments in and around Charlotte to shut down on next Monday-Labor Day-and give their employes a hard-earned holiday. The Congress and the State have both proclaimed Labor Day a national holiday: it is the one day in the 365 set aside for the laboring man and his and it had to come out. He would have elaborate celebration of the holiday come to the same bad end if he had is to be held in Charlotte, it would be appropriate if every laboring man in the city was granted a holiday that all might enjoy this celebration properly. It is to be hoped that all employers will take kindly to this sug-

A YOUNG LADY'S LIFE SAVED.

At Panama, Colombia, by Chamber lain's Colic, Cholera and Diar-

rhoea Remedy. Dr. Chas. H. Utter, a prominent physician, of Panama, Colombia, in a recent letter states: "Last March I people would have chosen Johnston ten had as a patient a young lady sixteen to one. He is a far abler man and in years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by R. H. Jordan & Co.

> The Cologne Volks-Zeitung wants 'one of the Great Powers," the United States preferred, to supplant the barbaric negro regime in Haiti and reclaim it for civilization. There is a hint here that if the United States does not move in the matter the moral suasion will be exerted from Europe .-

A Cure for Cholera Infantum. "Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would IN GOLD do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by R. H. Jordan & Co.
