**THE SPIRIT OF THE TRUSTS.**  
The spirit that has created, and the methods that are employed to keep the Trusts in control of the machinery of the Republican party are as soulless and unscrupulous as ever animated the most despotic form of government the world has known. It is the same thing manifesting in a more civilized age and on a different plane; but, still the same spirit that has in all governments resulted in the overthrow of all nations and civilizations. The pursue their object of greed and avarice under various disguises with infinite art and endless activity. They have clamored for so-called social order, and leagued many of the quiet and peaceful under their banner. They have strenuously defended whatever existed, in the form of special privileges, and arrogated to themselves the epithet of conservative; while aristocratic traitor and mushroom rich civilians have sheltered themselves beneath their aegis. They have called self-defense an assault and punished it by the confiscation of many people's freedom. Has any kingly crest or coat-of-arms sullied its professions with deeds more terrible than these of the Trusts?

**PROPHESY AND HYPOCRISY.**  
The Republican party has been compelled, by irresistible pressure of public opinion, to accept the trust issue, but every fair minded and unprejudiced man knows that this issue has been accepted by the party managers with a large mental reservation, merely as a measure of expediency. The masses every where demand its solution. The classes, of course, will defend their special privileges to the last ditch. But the problem must be solved. The question then arises "Can the Republican party whose policies have created all of the legislation that has created all of the Trusts, and whose political organization is controlled and dominated by these tariff-fostered corporations, be entrusted with the solution of the problem?"  
The Apostle St. John must have had this situation in mind when he prophesied that in the days to come commercial conditions would arise, when: "No man buy or sell have he that had the mark or the name of the Beast." It needs no prophetic vision to discover in the Trusts the symbolic "Beast" of the Apocalypse.

The New York Press (Rep.) says that "we have to have a protective tariff to secure an American market for American products." In other words, if the American manufacturer did not have the protective tariff they could not charge the American consumer 40 per cent more for their products than they charge the foreign consumer.

Are we to judge the sincerity of the Republicans on the issues of this campaign by the report of the Republican Chairman on these issues? He has been on both sides of the question and it might be in order to ask him whether he is going to stand by his newspaper interviews and letters of last year or those of the present campaign.

Hon. Seno Payne, the Republican leader of the House of Representatives, says a party platform is constructed in a hasty and ill-considered manner. Perhaps that is the plea the Republicans will be offering soon for unfulfilled party pledges.

Chairman Babcock's face about on the tariff question, and Mr. Littlefield's loop on the trust question, are fair criteria of the hypocrisy of the G. O. P.

**DON'T TRY PRESSURE.**  
Trust To Intelligence.  
You cannot by process of law prevent anyone from drugging themselves to death. We must meet the evil by appeal to the intelligence.

One of the drugs that does the most harm to Americans, because of its wide spread use, and its apparent innocence, is Coffee. Ask any regular coffee drinker if he or she is perfectly well. At least one-half are not. Only those with extra vigor can keep well against the daily attack of caffeine (in the coffee). The heart and pulse gradually lose strength; dyspepsia, kidney troubles and nervous diseases of some sort set in and the clearly marked effects of coffee poisoning are shown. These are facts and worth anyone's thought. The reasonable and sensible thing, is to leave it off and shift to Postum Food Coffee. The poison that has been secretly killing is thus withdrawn and a powerful rebuilding agent put to work. The good effects will begin to show inside of 10 days. If health and comfort are worth anything to you, try it.

The Republicans announce that they are going to apply the gag rein to the trusts. But they are in about as delicate a position as the boy in the apple orchard, when the teeth of the bull dog therein has a good firm hold on his trousers.

**ANOTHER LIE NAILED.**  
The cheek of the average Republican officeholder, says the Greensboro Record, is both sublime and ridiculous. The Honorable Harry Skinner, in his speech before his convention last night said, in speaking of the work of the fusion legislature, "what benefit you get from your Normal College here in Greensboro is due to that body." The school was in operation before the fusion crowd was ever thought of in North Carolina. But what difference does it make to a man like Skinner? Like a preacher he knew no one was going to reply to him.

**GRESHAM COMPLIMENTED.**  
What a Well Known Atlanta Journal Says of His Eating Houses.  
The Common Carrier, a magazine in Atlanta, has the following:  
"The Missouri, Kansas and Texas, the 'Katy' owns a farm in the Indian Territory, where it raises vegetables, fruits and poultry, cattle, sheep and swine, for its eating houses. The road does not have to buy eggs, meats or vegetables in the summer. The company feeds 720,000 people a year, and prefers eating houses to dining cars, because meals can be served at less cost in the former."  
In the effect, the dining cars is indispensable to the millionaire, who a few years ago ate his dinner out of a bucket, but to the plain, hog and hominy, bacon and greens, pot liquor and water, ground corn meal, dumping travelling public of the rest of the country, twenty-minutes for dinner at Charlotte, Branchville or some other eating house is preferable. Gresham serves canteloupes that would melt in your mouth and make the far famed and old worked Rockford seem like a squash, spring chicken, fat and tender, hot rolls, light as air, rich milk, country ham and red gravy, vegetables fresh from the garden and pie of every variety in season. Every minute or two a pretty girl comes along with: "Please have another piece of chicken." or "please let me get you some more hot rolls." She pleads so earnestly that fear of offending her or the head of the house you reluctantly consent. Even after you have paid your fifty cents for a dollars worth and on your way to the train some member of the establishment follows you with a tray and begs you to please have some more juicy peaches or grapes. What dining car service can compare with this? What is a Waldorf-Astoria, Sherry's, or Delmonico's to Gresham's eating houses at Charlotte or Branchville? They are simply not in the same class. If Gresham were to go to New York open up a house on fifth Avenue, cook in the same style as he does now, charge two dollars for half a spring chicken and other things in proportion, he would soon be able to buy real estate in lower Broadway.

**DEAFNESS CANNOT BE CURED.**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.  
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

One trouble is that while people take enough interest in politics to vote they do not take sufficient interest to attend the primaries and help select the men they are to vote for.—Wilson Times.
