HOW INSECTS MAKE MUSIC. in "Four Feet, Two Feet and No Feet." You have seen this little insect, I have no doubt. It color is light green, and just where the wing joins the boy, there is a thick ridge, and another on the wing. On this ridge there is a thin but strong spin which makes a sort of drumhead.

It is the rubbing of these two ridges or drumheads together which makes the ueer noise you have heard. There is no music in it, certainly. The insects could keep quiet if they wished,

but they must enjoy making the noise, The katydid sometimes makes two rubs on its drumhead, and sometimes three, You can fancy she says: "Katy did," "She did," or "She didn't." The moment it is very dark they begin. Soon the whole company is at work As they rest after each rubbing, it seems as if they answered each other.

DOG FOOLED HIS MISTRESS.

This dog learned a thing or two very quickly. A family in Tiffin, O., had moved from the old home, but rented the house, furnished throughout, the new tenant being an elderly lady. For some reason the family dog was "let" with the furniture. Now the new occupant of the house liked to sit in a particularly comfortable chair in the parlor, but as the dog was also fond of the chair she frequently found him in possession. Being rather afraid of the dog she did not dare to drive him out, and therefore used to go to the window and call: "Cats." The dog would

## THE PUPPIES,

Elsie Danvers was a little goldenhaired girl of six when she went with her family to camp out fo ra few weeks at one of the beautiful Adiron-

It was all new to them, this life in the forest, where the cooking is done over an open fire, and where one rolls up in a blanket at night to sleep on the softest of balsam mattresses,

The little camp was situated on a t great hemlocks and pines rose to a height of ninety feet, and a fringe of silver birches on the shore completely screened the camp from view.

One morning Elsie went, as usual down to the shore to fish for minnows. t was such fun to watch them darting to and fro in the sunshine; but alas they wouldn't bite! So after a while she laid down her line and, seeing a pretty path, decided to take a little walk in the woods.

And on she went, gathering ferns and bright berries, till, all at once, she thought she saw in the distance two small black puppies frolicking around a spruce tree.

"O, the dear little things," she cried, as she ran toward them; "what fun we

Not long before Elsie started out on her walk Jim Keene, a lad of nineteen. had gone out in very much the same direction. He was employed to help around the camp, and this morning went to pick up dry wood for the fire. He had gathered quite a pile, and was just starting to take it back to camp when he heard the sound of a child's voice, not ten yards away. "O, you naughty doggie!" it said,

and then followed a little squeak which Jim recognized to be that of a young cub in distress.

A low growl rang through the forest Dropping his load all but one stout stick, Jim rushed to the scene and picked up Elsie with his left hand, and just as the angry old mother bear was about to spring he gave her a swift, hard blow on the nose. She rose in the air once, then fell backward, stunned, while Jim gave her blow after blow, until she rolled over and breathed her

Then he walked back to camp, carring in his strong arms the bewildered Elsie, who had not once let go of her two black "puppies."

"Jim", the child asked, "what made you beat the old doggie so hard "-Advocate and Guardian.

# THE SEAL.

The big West Indian seal, known as the Aquarium by the attendants as "No. 2", which died recently was probit any good. She gave the cintment a hibit, More persons will remember her ably the Aquarium's best known exand her habit of playing tricks on the spectators than any of the other exhibits. Her tank was always the centre of attraction. Notwithstanding the sign which was posted on one end of the tank warning people to keep at the other end if they would not get wet, many were willing to take the chances for the pleasure of watching her. She was discriminating in her chocie of subjects for her tricks, and showed her intelligence by the subtlety with which she perpetrated it. She would swim about the pool, as if paying no attention to any one, and, suddenly stopping, turn her head to one side and His aim was usually good, and the water, about a quart in quantity reached its mark with startling speed and certainty. It is told of one young man whose bright necktie became her target, that when the water struck him he was so startled that he fell over backward, and would have fallen to the floor had not an attendant caught him. The seal, seeing him disappear, got up on the ledge of the pool and looked over to see what had be-

## A GOOD WORK.

That the officials of the United States treasury and agricultural departments are very much in earnest in their determination to prevent the importation of adulterated food products into this country is apparent from the fact that about 400 different importation shave already been held up by the inspectors for examination. This was done under the provisions of the law passed at the last congress, which provides for the seizure at our ports of entry of any foreign food products suspected of being adulterated or falsely labeled. Of the large number of seizures thus far made some have been found to be as represented and were admitted, others were rejected and ordered deported and still others are yet under investigation

It is not expected that so many cases will be in the inspector's docket again, as the importers have been given to understand that the law is to be rigidly enforced. The fraud it is designed to frustrate is one of the meanest imaginable, as it threatens the health of every individual who consumes these foodstuffs. The extent to which the fraud has been practiced One day Carl was trudging along in the past is simply appalling, the with a basket of clothes. He was a records of the agricultural department experts showing that almost every article of food and drink brought from abroad is doctored with poisonous coloring or flavoring matter or adulterated with cheap substitutes, concealed by high spicings.

The efforts of the government officials to strictly enforce the antiadulteration law should be heartily seconded by the consumer, who is the one particularly benefited. Consumers may play an important part in the work if they will take the pains to educate themselves as to the character of the adulterations used and insist on getting what they are supposed to be paying for. When the manufacturers and importers are given to understand that the American people know the difference between adulterated and pure food and will not use the latter they will cease their attempts to impose upon their pa-

## A BEAUTIFUL LITTLE DINNER JACKET.

Here is a design for the very daintlest of dinner jackets, and would be a most suitable gift to send a bride as an addition to her trousseau. It is a point between two small bays, Around loose-hanging sacque made of a fine across the top and sleeves.

It is finished at the edge with lace motifs crescent-shaped, appliqued on, one after the other, making scallops. The little shaped jacket which is put on afterward is made of Dresden taffeta, a white background, with pale

pink and green designs through it. This is all cut in one piece, with the tabs hanging over the shoulders. The four buttons are of rhinestones.

# THE MESSIAH OF NATIONS.

John Philip Sousa, one of America's most popular composers, and James Whitcomb Riley, one of America's most popular poets, have given us a new national song. Riley wrote the words shortly after the death of President McKinley, and the great band leader soon after composed the music for it. Time is needed to make it one of the popular songs of the age. The song is entitled, "The Messiah of Nations," and the lines are as follows:

In the need that bows us thus, America!

Shape a mighty song for us-America!

Song to whelm a hundred years-Roar of wars and rain of tears, 'Neath a world's triumphant cheers; America! America!

Lift the trumpet to thy mouth, America!

East and West and North and South-America! Call us round thy dazzling shrine Of the starry old ensign-

New baptized in blood of thine,

America! America!

Dying eyes through pitying mists, America! See the assassin's shackled wrists,

America! Patient eyes that turn their sight From all blackening crime and blight, Still toward heaven's holy light-America! America!

High o'erlooking sea and land, America! Trustfully with outheld hand,

Thou dost welcome all in quest Of thy freedom, peace and rest-Every exile is thy guest— America! America!

Thine a universal love, America! Thine the cross and crown thereof, America! Aid us, then, to sing thy worth; The first nation of the carth America! America!

# From Despondency to Health.

A few months ago my health seemed to break down altogether. I had a complete collapse and nature refused to aggravated at the menstrual period. Our physician was unable to give me anything which was of the least benefit to me and I kept getting worse and was very nervous and hysterical.

A friend who had used Wine of Cardui suggested that I try it. So I sent for some and within two days after I started to use it I felt a great deal better. I could sleep at night and gradually the nervousness passed away. I became strong and had no pain at the period.

I am now enjoying the best of health due to the merits of Wine of Cardui for which I am deeply grateful.

There are hundreds of women in this city today who need Wine of Cardui and they would not hesitate a moment to take it if they only knew what a record it has made. Day after day and year after year letters like this one, praising Wine of Cardui, have appeared in the papers of this land and hundreds of thousands of sick women have secured relief from painful and irregular menstruation, leucorrhœa and bearing down pains by following the advice given.

Can any fair minded woman refuse to take the testimony of ten thousand of her sisters who have suffered just as she and then have been completely cured? Who can fairly say "Wine of Cardui will not help me" with such facts before her? Wine of Cardui is a pure vegetable extract that is so mild and simple in nature that a girl can take it with benefit when threatened with early menstrual disorders. Older women are cured of the more serious menstrual troubles, bearing down pains and leucorrhœa. For the troubles at childbirth and for middle-aged women at the change of life-Wine of Cardui meets every crisis in the life of a woman.

Try the treatment by getting a bottle of Wine of Cardui from your druggist today.

# HIGH CLASS DRUGGISTS AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction and therefore the are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—" Syrup of Figs"—or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company-California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.
